ASKS INQUIRY INTO DUPONT

Mr. Reed Lays Evidence in Swain Case Before Senate.

DELAWARE SENATOR INVOLVED

He Says Evidence Shows that Swain Openly Bought Votes with Money Furnished by the Powder Magnate.

WASHINGTON, Feb. 28.—An array of evidence heard by the senate judiciary committee in its inquiry into the appointment of C. P. Swain, as United States marshal for Delaware, was laid before the senate today by Senator Reed of Missouri in urging the passage of his resolution providing for an investigation of the election of Senator Dupont of Delaware.

Senator Reed insisted if this evidence were given credence the senate not only should investigate the 1910 election, but should demand of the Delaware senator an explanation of his action "in recommending for appointment to the high office of United States marshal a man whom he knew to be engaged in corrupt practices."

"I deem this to be my solemn duty," said the senator, "and shall be glad if a thorough investigation results in completely exculpating the senator from Delaware.

"The disclosures made by the witnesses are of such character as to demand further investigation. That investigation ought to be courted by any innocent man and any attempt to evade an investigation may be justly regarded as inspired by fear of the truth.

"On January 22, 1912, the president appointed Cornelius P. Swain United States marshal for the district of Delaware and sent that appointment to the senate for confirmation. With an alacrity which was astonishing the appointment was reported to the senate by the committee and on the day it reached the senate confirmed. Such, at least, is the newspaper statement.

Protests from Delaware.

"In some ways citizens of Delaware learned of the fact and protested to some member or members of the senate, with the result that the action of approval was rescinded. Thereupon the matter was re-referred to the committee and an investigation demanded by citizens of Delaware headed by Willard Saulsbury, was held.

"These citizens charged, (1) the Swain bore the common and general reputation as a persistent vote buyer and election corruptionist in violation of the laws of the state of Delaware; (2) that on November 4, 1910, a meeting was held in the office of Henry A. Dupont and T. Coleman Dupont, at which between $50,000 and $60,000 was distributed for the purpose of corrupting the electorate of the state and that an additional $10,000 was to be given out on the Monday preceding the Tuesday on which the election was to be held; (3) that Swain took $5,000 of this money in $20 gold pieces to Bridgeville, that it was then carried to Philadelphia and changed into bills in convenient form; that on election day an office was actually opened and a secretary appointed, who kept a set of books and the money was actually paid out in bribes to the corrupt vote of that precinct.

"It will be observed that these charges relate alone to the fitness of Swain to hold the position of United States marshal. The committee by repeated rulings limited the evidence to those acts of corruption with which Swain could be directly connected. By express ruling, it refused to go into the general scheme of corruption which appears to have embraced the state.

Further Inquiry Needed.

"Therefore, this investigation represents no more than the tracing of a single thread through a web of iniquity. The only light thrown upon the conduct of others is where that particular individual came in touch with Swain.

"Swain was, according to the testimony, appointed at the request of Senator Dupont, and if it be true that Senator Dupont recommended him for appointment to the important office of United States marshal for the state of Delaware, a man whom he knew to be engaged in corrupt practices relating to elections, then he gravely offended against this body by being instrumental in bringing such an appointee before the senate for its approval."

Senator Reed detailed and reviewed the testimony given before the judiciary committee, declaring as the record stood there was unimpeached evidence that thousands of dollars were distributed from the offices of Henry A. and T. Coleman Dupont to be used for corruption.

"I have thus commented on the evidence, assuming it to be true," concluded the senator, "if an investigation is had and the evidence is dissipated or negatived, no man will be more pleased than myself. But the senate, in view of these startling and appalling disclosures, cannot afford to close its eyes to the plain course of duty."

Thousands of Coal Miners Quit Work in Great Britain

LONDON, Feb. 28.—One of the reports of the coal owners, after another conference at the foreign office this evening, stated that there was no likelihood of any settlement of the dispute in the coal trade being reached tonight.

The miners after a long and stormy meeting this morning, passed a resolution deciding to continue the negotiations with the owners under the auspices of the government, with a view to bringing about a settlement of the dispute.

Some of the miners' delegates are bent on war, especially the representatives of the collieries in South Wales, but the executive committee succeeded in inducing the meeting to make a further effort for peace.

In an official statement issued this afternoon the executive committee confirmed the decision of the miner's federation to resume its conferences with the premier.

The conference of the miners federation also passed a resolution today to permit all the men whose services are necessary to keep the coal pits in good working order to continue at work. This action has revived the hope that it will not be long before the disputants are able to meet in a joint peace conference.

There are now upwards of 40,000 miners on strike and by midnight tonight 100,000 will have ceased work.

Appeal of Father Reunites Family

WASHINGTON, Feb. 28.—A pthetic appeal by a German alien whose family had been separated by the immigration law, touched the heart of Secretary Nagel today. As a result the family of George Hoffman will be reunited at Dickinson, N. D.

Hoffman, his wife and seven children—wealthy and hardy, arrived at Baltimore from Germany several months ago. Two of the children had trachoma, which barred their unrestricted admission. They were placed in a Baltimore hospital and the others of the family went to Dickinson.

A few days ago one of the children at Dickenson died. The father came to Washington to plead for the release of the two interred children. He could not speak English and his native tongue told Secretary Nagel, who is a German scholar, that he could not go home without his children to take the place of the lost one because it would break their mother's heart.

An investigation disclosed that the children at Baltimore were nearly well and could travel without danger.

Secretary Nagel authorized their removal to Dickinson.

AGED NEW YORK WOMAN ASSAULTED AND ROBBED

NEW YORK, Feb. 28.—Mrs. Johanna Huebener, an aged widow, was murderously attacked during the night in the Harlem apartment, where she lived alone, beaten into insensibility and crammed into a bath tub while her assailant leisurely looted her flat. After ransacking the place the burglar turned on sixteen gas jets. Mrs. Huebener was found barely alive. The police first reported that the woman was dead.

Frank Cooper, a negro elevator boy, was arrested, charged with the crime. According to the police Cooper has confessed, saying that after pounding the woman with his fists until she became unconscious he obtained $65. Thirty dollars in bills, stained by blood, was found in his pockets.

Secretary Knox Gets Elaborate Welcome by Panama People

PANAMA, Feb. 28.—The newspapers here give great prominence to the visit of Secretary of State Knox, whom they welcome to Panama in the warmest terms. Every movement of the state secretary is recorded and many interviews with prominent men are published as to the effect of his visit.

For the second day of the visit a full program of entertainments and functions is provided. Early this morning the entertainment committee came to the hotel where Mr. Knox is staying and took the secretary and the whole of the party accompanying him on a sight seeing trip to the site of the original city of Panama.

On their return the party has been invited to lunch at the home of Maurice H. Thatcher, governor of the Panama canal zone. In the afternoon a reception is to be given by Rodolfo Chiari, the acting president, at the palace, and tonight a state dinner is to be given by Governor General Parades, at which Mr. Knox will make his first formal speech of the tour.

If the first day of his sojourn in Panama may be taken as a sample of what he is to expect, Mr. Knox will be the busiest of men during the next few weeks. The brief periods between the various functions are occupied by him in receiving and endless stream of callers. Before he retired late last night he had made half a dozen impromptu speeches.

Special precautions have been made to guard Mr. Knox during his visit, a large number of secret service men always being on duty in his immediate vicinity.

Escape of McCarthy and Juhl Retold in Minneapolis

MINNEAPOLIS, Feb. 28.—The sensational escape from the penitentiary at Stillwater of Jerry McCarthy and Peter Juhl, who later attempted to rob the safe in the court house at Des Moines, Ia., was described on the witness stand today by the latter in the trial of James (Hod) Lyons, charged with "concealment" after the escape of the two men. McCarthy was killed last fall in a revolver duel with Patrolman Olinger here and Juhl was recaptured after a shooting affray in St. Paul.

According to Juhl he and McCarthy hastened to the saloon here owned by Lyons, where they were met by him. County Attorney Robertson declared that he would prove that both Fred Briggs, who is now in Stillwater for his connection with McCarthy's affairs, and Lyons were in Stillwater on the day that the two convicts made their escape.

Judge C. S. Jelley today denied the motion of Lyons' attorney to dismiss the case, striking out some portions of the indictment as superfluous and declaring that the trial would continue with "concealment" as the issue.

Minutes of Packers' Meetings Admitted as Evidence

CHICAGO, Feb. 28.—United States District Judge Carpenter today overruled the objection of the defense in the packers' trial to the introduction of minutes of the meetings of the directors of the National Packing company between 1907 and 1910.

The government attempted to read the minutes to the jury several weeks ago, but the defense made vigorous objection.

The official records will be put in evidence before the government closes its case.

It was at these directors' meetings held Tuesday afternoons that the government contends the defendants agreed on selling prices, margins, shipments and the division of territory in violation of the Sherman law.

Ferdinand Sulzberger, president of Sulzberger & Sons company, successors to Schwartzschild & Sulzberger company, was called to the stand.

The witness told of attending the old packers' pool meeting held every Tuesday afternoon in the office of Attorney A. H. Veeder in Chicago from 1898 to 1902.

He named the ten defendants and said they attended the pool meetings at different times. The witness said that Armour & Co., Swift and Company, Morris & Co. and his own company were always represented at these meetings.

PEAVY COMPANY ASKS REHEARING IN GRAIN CASE

WASHINGTON, Feb. 28.—On the ground that the recent decision of the supreme court of the United States in the "grain elevation cases" is being used as a "rank discrimination," both as between shippers and localities, F. H. Peavy & Co. and subsidiary companies at Omaha and Kansas City petitioned the court for a rehearing.

In the Peavey case the supreme court decided that an allowance of ¾ of a cent per 100 pounds for the elevation of grain may be made to shippers by railroads at Missouri river transfer points, but it fixed ten days as the time beyond which the grain must not stay in the elevator. The Interstate Commerce commission, acting on the decision of the court, has issued an order that on and after April 15 elevation may be paid only on grain which passes through the elevator in ten days. It is this feature that not only the Peavey concern, but grain men generally, will resist. The Omaha Elevator company is the Peavey subsidiary company in Omaha.

PEARSE FOR TRADE SCHOOLS

Former Omaha School Man Reads Paper to Superintendents.

HE SAYS CITIES NEED THEM

Objection to Their Heavy Cost is Answered by an Estimate of Their Value to the Pupils.

ST. LOUIS, Mo., Feb. 28.—Delegates to the convention of the National Education association spent a busy day today—the third of the meeting. The department of superintendence, the national council of education, the national committee of agricultural education and the Educational Press association of America were in session.

Carroll G. Pearse, superintendent of schools at Milwaukee, Wis., and president of the National Education association, read a paper on "The City Trade School," in which he discussed the importance of trade schools as instruments for improving the vocational need of the city child.

"Trade schools," he said, "are criticised because they are expensive; because it costs more to school a boy for a year at one of them than at a school of the ordinary type. If by paying $800 for two years' schooling, a man's earning power can be raised from $600 to $1,000 and his capitalized value from $15,000 to $25,000 it looks like a very good investment."

Country Schools.

Thomas H. Harris, state superintendent of schools of Louisiana, addressed the national council of education on the "Standardization of the Country Schools." He said:

"Records of school enrollments and attendance kept in Louisiana reveal, among other facts, that three-fourths of the children composing the first grade are holdovers from previous sessions, but that from the second grade to the seventh there seems to be no alarming loss of children by dropping out of school and no excessive number of holdovers in the different grades. From the seventh grade to the eleventh, on the other hand, about half the children fail of promotion or quit school."

He then told of the unsatisfactory results obtained from poorly trained teachers to instruct large classes in poorly equipped buildings.

"To improve these conditions," he added, "it would seem wise to classify country schools, fixing certain standards as to buildings, equipment and character of instruction, length of term, number of grades and qualifications of teachers and to stimulate local interest and effort by offering each school maintaining the required standard a small special state appropriation in addition to its share of the regular school funds."

Early in the day, the executive committee again went into session in an endeavor to choose a meeting place for next year's convention. A long session last night failed to bring the committee any nearer a choice of a city than they have been since their arrival.

A spectacular fight for the choice is being waged by delegates from Palm Beach, Fla. They are being assisted by other delegates from the south. Five thousand Florida-grown oranges have been distributed from the Palm Beach headquarters. Growing pineapples, shipped here in earth filled tubes to aid in the campaign have been arranged about the room. One of them is in bloom.

Kansas City Pawnshop Robbed.

KANSAS CITY, Mo., Feb. 28.—Robbers early today blew open the safe of Max Stern's pawn shop at 534 Walnut street, within two blocks of police headquarters here, securing $4,000 in jewelry and money and escaped.

OLD MAN BURNED TO DEATH AT LESTERVILLE, S. D.

YANKTON, S. D., Feb. 28.—(Special.)—Joseph Wagner, a pioneer citizen of Lesterville, was found burned to death Tuesday morning by a daughter who had called to bid her father good-bye before going on a journey. Mr. Wagner, who lived alone in a shack, although very well to do, had evidently tried to light a fire with the aid of kerosene, as the stove had been blown up. A fire had started from the explosion and a big hole was burned in the floor and then gone out. The body was partly consumed, but the head was untouched. Mr. Wagner leaves a large family of grown-up children.

Swamp-Root is a great kidney, liver and bladder remedy, and, being an herbal compound, has a gentle healing effect on the kidneys, which is almost immediately noticed by those who try it.
