That any socialist elected to office be piedged to give a percentage of their salary for the same purpose. Resolved, That we denounce and condemn the "Boys" Scout movement," that we consider it a subterfuge of the capitalistic class for inspiring the spirit of war in the youth of the land and that we look upon this movement as a kindergarten to the regular army; also the Lawrence mill strikers have our heart-felt sympathy, and that we use our influence in their behalf and condemn and denounce as inhuman and disbolical the treatment they have received at the insulas of capitalists.

Resolved, By this body in convention absembled that it shall be unlawful for any corporation or individual to release to any debtor any part of the aforesaid wages carned unless the bill of garnishment shall have been signed by the wife of the person against whom the garnishment has been given.

Resolved, That the delegates of this convention sanction and approve of the open school.

Trust Regulation—We have no faith in the present plan of trust regulation. The people are opposed to economic appression, which is caused by private ownership. The old line party leaders propose regulation simply as a vote catching schemo hold the vote for the old line parties, while it was these very parties that promoted the trusts. This is a shrewd way for political trickaters to promise reform and then defeat the very system of reform, by getting known believers the aristructure into political power. We pledge our elected officials to de all that can be done in the way of forcing the corporations to behave, but realize that the good corporation is a corporation at the good corporation is a corporation of the whole people, where the means of life are collective property, democratically controlled by all of the people.

BEATRICE. Noh., March 1.—(Special.)
At the good roads meeting of the township officers, held at the court house yesterday afternoon, three distinct propositions were formally endorsed by resolutions. They were:

Pirst, favoring a law to create a state highway commission such as Illinois has, which shall furnish plans and estimates and supervise the construction of bridges and roads wherever the people salt their services; second, an amendment of the law so that counties of the size of Gage may use the inheritance tax fund for making dirt pike roads instead of reserving it for permanent macadamized roads; third, favoring a more uniform lavy by the several townships, not to exceed 6 mills.
