

Quaint Old-World Lace Makers--Paris Designers and American Skill--All Have Shared in the Creation of these Exquisite Imported Model Blouses

Such a truly beautiful display has never graced an Omaha store, and many have been the exclamations of surprise from those who have had a peep at the first arrivals. Could you make personal selections from the most exclusive Parisian shop you would find blouses, in many cases, identical with those you'll find here—but the foreign prices would be many times higher. The reason is this—Our Eastern representatives secure each dainty piece of lace, and the many other materials, direct from the makers in many a foreign nook where each workman is an artist. Paris contributes theimitable styles and designs and the skillful fingers of Americans fashion the blouses. Thus you save the duty and the profits of Parisian makers. Each blouse is so different that it is impossible to describe them all—but you'll experience a genuine treat in seeing this wonderful showing—come tomorrow. Siles 32 to 40. Prices \$6.50 \$8.75 \$13.50 \$22.50 \$25 \$29.75 \$40 \$60 and \$65.

SCOPE OF VOTE IS LARGER

Women Given Greater Latitude at the Polls.

BYERS GIVES AN OPINION

Mary Schapatis Will Be Sent Back to Russia After Giving Testimony in Case of Death of Husband.

(From a Staff Correspondent.)

DES MOINES, Ia., March 6.—(Special Telegram)—The women of Des Moines may vote on the propositions of teaching sexology in the schools, use of the school buildings for public meetings and the lengthening of the school year. These will be submitted to the voters at the school election next Monday, March 11. This is the opinion of Corporation Counsel H. W. Byers in answer to the request of the school board. Byers says women have the right to vote upon the question of leasing bonds for municipal and school purposes and for the purpose of borrowing money, or on the question of increasing the tax levy. The introduction of additional branches in the city schools, use of public school buildings and lengthening of the school year, Mr. Byers asserts, will upon a majority affirmative vote result in increasing the tax levy and that women have the right to vote on the propositions.

Women Goes Back to Russia.

Mary Schapatis, who broke into publicity several weeks ago through an alleged plan to deport her without giving testimony in a damage suit against the Maple Block Coal company, will be sent back to Russia. An order instructing immigration officials to take the woman to New York and place her on a ship bound for some Russian seaport was received today. The woman now is confined in the Polk county jail, but will not be taken away until after she has been given an opportunity to give all the testimony necessary in the suit in which she is interested. She claims the deportation is in order to prevent her suit for damages on account of her husband's death.

Police Kept Over Case.

Four men are now under police surveillance suspected of Monday night's shooting on the Seawayport car line, as a result of which Conductor Frank Ford died. Two of these men, the authorities believe, were implicated directly in the crime, the other pair is innocent. Two distinct lines of circumstances have been uncovered in the investigation of the murder. One indicates one pair and the other a second pair. Not even the most remote link in the evidence which has been gathered by the police indicates the slightest possibility of connection between the two.

Officers Tell of Riots

Children in their arms, other women carried flags. On the first morning of the strike, the riotous element of the strikers, the strike leader was about the mills giving orders, but when the demonstration broke place he always disappeared. "The man who killed the woman was the man who wounded Officer Burnett. We know that man and we will get him." "We think he was a striker and the woman killed was also a striker. I think that shooting started an pure devotion to raise trouble and that there was no intention to kill anybody. The police did not shoot." Captain Sullivan also told of another officer who was stabbed during the same outbreak. Another method of the strikers to arouse trouble, he said, was the concerted plan of the strikers in flocking through the streets, passing in and out without buying anything. Captain Sullivan said children frequently were sent out of Lawrence by the strikers without the consent or even the knowledge of their parents. In one case he said two children sent from Lawrence were found wandering on the street in New York.

Women Fused as Martyrs.

Just before the trouble at the depot, he said, a system of picketing by women had been inaugurated by the strikers. These pickets would not obey the police. "They felt that they were martyrs, heroines, and wanted to go to jail," said the captain. "When they were fined for assault, they appealed their cases." "These women were in jail on the day of the trouble at the station and their children were brought to them in the jail. Those were the children described here as being locked up. Their fathers had brought them there and left them." "The women and children brought to the station after the trouble at the depot never saw a cell. They never were put in cells." Describing the trouble at the depot, Captain Sullivan denied that anyone was clubbed or hurt. "Why were these women and children taken to the station?" Representative Dalzell asked. "Because of complaints we had received before, I want to say," Captain Sullivan added, "that I was there to see that no one was hurt and was as careful as I would have been with any woman or children. There were only eight women there and fifteen children."

TART ANSWER TO STIMSON SPEECH

the grand jury room, where he settled down in a chair with a book. Colonel Roosevelt was asked whether he would comment on Secretary Stimson's speech in Chicago last night in support of President Taft.

"I don't care to say anything about that," he replied. The colonel was somewhat annoyed at the persistent attention of the camera "It is awfully hard," said he, "to smile and look pleasant when your picture is taken so often."

After spending several hours in the court house, Colonel Roosevelt was told that Judge Putnam had excused the jurors for the rest of the day. He left at once for Oyster Bay.

CHICAGO, March 6.—After reading the statement made by Colonel Roosevelt today Secretary of War Stimson declined to discuss it.

Dixon Replies to McKinley. WASHINGTON, March 6.—Another letter was added today to the literature of the presidential primary "challenge" episode. Colonel Roosevelt's manager, Senator Dixon, replying to the demand of Attorney McKinley of the Taft bureau, to know by whom Mr. Dixon had been given authority to issue the primary challenge to the Taft forces, said:

"In addressing you I acted as the representative of the men elected by popular vote to stand as the heads of the government in their several states to whom Colonel Roosevelt's letter of February 23 was sent."

Senator Dixon charges the Taft forces with "seeking to evade the issue through the subterfuge of appearing to question my authority in submitting the primary proposition to you." He declares his authority to issue the challenge is based on Colonel Roosevelt's letter to the western governors February 24, in which he announced his readiness to accept nomination, and expressed the hope that direct presidential primaries would be arranged for in every state.

"No clearer authority for my challenge could be had," said Senator Dixon in his letter.

Chairman McKinley of the Taft campaign committee was not at the headquarters when Senator Dixon's second letter was delivered today. It was acknowledged there, however, that the answer of Mr. McKinley last night to Senator Dixon's challenge had authorized the organization of the "Roosevelt executive committee," and had asked Senator Dixon to conduct an executive campaign for him.

WIFE IS ACCUSED BY WOUNDED MAN

(Continued from First Page.)

The key to the door of the room, which the police found locked, was in a receptacle in the hall, where Mrs. Grace said it usually was kept. The police arrived about two hours after Mrs. Grace says she left. Chief of Detectives Lanford said this afternoon that the blood on Grace's pillow was dried, and he did not think it could have dried that way in less than three hours. As furnishing a possible motive, the police are said to have discovered today that Grace recently had his life insured for \$25,000, naming his wife the beneficiary. On the other hand, friends of the accused woman point out that Mrs. Grace was very wealthy through her former marriage and such a sum would be no incentive. The Graces had been married less than a year and apparently were living happily.

GERMANY, Ia., March 6.—(Special.)—A dynamite cap in the hands of the youngest son of Fred Waldera, came very nearly ending the young man's life. WOMEN'S WAGE IS ANALYZED

Omaha Shop Girls Cannot Live on Less Than \$9 a Week.

CONDITIONS ARE ABHORRENT

Equality Organization Resolves that Girl Cannot Choose Decency and Live on Minimum Wage.

The least sum on which a woman can support herself in decent, comfort in Omaha is \$9 a week, according to the findings of the investigating committee of the Omaha Women's Suffrage society. Mrs. W. Sherman Pitt, chairman of the minimum wage committee, gave the following list of expenses at yesterday's meeting of the society: Board, \$3; room, \$1; carfare, 60 cents; laundry, 40 cents; wardrobe, \$1.50; amusement, doctor, dentist and education, \$10. Mrs. Pitt was formerly organizer and secretary of the "propaganda" committee of the Chicago "Political Equality League" before coming to Omaha.

The investigation was pursued along lines followed by the Chicago Woman's club under the direction of Mrs. Raymond Robbins, who calculated \$2 as the minimum for Chicago women wage earners. The Kansas City Board of Public Welfare found that \$3 is a minimum wage for the workers in that city.

In part, the resolutions endorsed by the local society are:

We find the wage-earning woman in many instances working for less than a living wage, unable to give herself proper clothing and sufficient food, and forced to choose between health, happiness and even honor. We find abhorrent the discrimination against the woman, who call upon all those citizens who are actuated by any love of humanity, and pride in their country, to support and aid us in the work.

HELP FOR HOMESTEADERS IN THE NEW BORAH BILL

(From a Staff Correspondent.)

WASHINGTON, March 6.—(Special Telegram)—A house subcommittee has agreed on a report on Senator Borah's homestead bill, which was made to the public lands committee today. Under the recommendation of the subcommittee it is required to build a "habitable house" on the land and prove continuous residence for seven months during each year. The weeks have been especially severe, and where the ground is covered deep with snow, in the vicinity of Billings, Mont., where there is an abundance of range feed and where climatic conditions have been ideal for winter grazing, apparently jumped out of the frying pan into the fire, so to speak, for during the last few days the Billings country was visited by severe storms, and the ranges are covered a foot deep with snow, capped with a thick coating of ice, and cattle and sheep are unable to get to the range feed, and hay and grain must be hauled to the live stock. With the losses already sustained by the stockmen, the heavy expense of shipping, leasing range near Billings and in feeding hay and grain, with further heavy losses resulting from the poor condition of the stock, it is feared many stockmen will go broke. Conditions throughout northeast Wyoming remain unchanged, and had the stock been kept there it would have succumbed anyway. It has been the worst winter in the history of the live stock industry in this section of the state, and the arrival of spring will be a welcome change.

A TRIAL WILL CONVINC ANYONE—THE GREAT KIDNEY REMEDY NEVER DISAPPOINTS

A few years ago I was troubled with a complication of kidney and stomach ailments and although I tried two or three different doctors, I was unable to obtain a cure. Having heard a great deal about Swamp-Root, I decided to give it a trial, and purchased a one-dollar bottle of Dr. Alexander's. The druggist, from the beginning, I could notice a change for the better, and after taking eight bottles of your medicine, I felt entirely cured and have not had any trouble since. Had I begun using Swamp-Root sooner, I would have been a few hundred dollars to the good and saved myself a lot of suffering. You may use my testimonial any time you wish. Yours very truly, CHARLES E. HARRIS, 68 South B.
