Grounds in Good Shape.

A letter received yesterday from Joplin says that overything is ready for the invasion of the Omaha ball team. The grounds are in good shape and the snow has left the ground. The sun has been shining all last week and the grounds are in excellent condition for ball playing. The weather is snappy and just right for a bunch of ball players. The weather, however, is not what could be called balmy, but with a few more days called balmy, but with a few more days of sunny weather real base ball could get secured. Mark Hall, who is in Jopsaffairs until Pa and his bunch arrive, says the Commercial club of that city has fixed the diamonds up in great shape and the fans can hardly wait until the Omahogs arrive on the scene. He also said that two of the Omaha players have

aiready arrived at that town, but he did not say who they were.

warming up to the idea and a rousing recognition will be given the athletes when they arrive.

Quarters for the training squad have been obtained at the Clarkson hotel, in the downtown business district, and transportation has been arranged to and from Miner's park, where the men are to condition themselves.

The invasion of Joplin by the Nebraska men will be the first real harbinger of spring, so far as base ball affairs are concerned in the mineral helt. True, a robbin redbreast or two has been seen here, but their appearance isn't considered by Joplinites when they think of the approaching season of base ball.

Dyed-in-the-woof followers of the national game, who keenly feel the loss of a professional base ball club, believe that something of a benefiting nature to Joplin in a base ball way eventually will request here. HARD BLOW HITS VALLEY BASE BALL

Eligibility Committee of Conference Refuses to Let Summer Ball Bars Down

DR. CLAPP DELAYS REPORT Director Blamed for Delay in Report, Which Gives Athletic Board No Chauce to Make

The report of the eligibility committee of the Missouri Valley conference which has been anxiously awaited for several weeks because of the bearing it has to collegate base ball in the Missouri Valley schools has at last been completed after an al-most Inexplainable delay of several weeks

and was filed late Friday with the sec-retary of the conference, Frof. R. C. Clapp of Nebrasha.

As has been expected, the report is nearly a body blow to the hundreds of undergraduate students who had hoped that 1912 would see the reinstatement of college base ball in the universities of the valley. Coach Ewald Stiehm, after a casual examination of the report, ex-pressed his dissatisfaction mildly, saying that while it might again place base ball for one season, it would do nothing toward curing the eligibility troubles of the players in another year.

MURPHY WHIPS ABE ATTELL

The report was drafted by A. W. Beyer, J. L. Griffith and F. H. Everhardt. The objections can be saily seen in a perusal of the report. The definition of "home teams" and "occasional games" is sure to breed trouble at the outset, while the penalty falls to accomplish the purpose in that it sets a premium upon evasion of the rule.

The report is just what partisans of the summer base ball rule wanted and what those opposing it were fighting. It comes out flat-footedly in favor of the conservative element in the conference, who would sholish collegiate sports at any cost rather than have it tainted with so-called "princestonalism."

Considerable feeling has been expressed at Nebraska during the last few weeks over the delay in the report. It was lost the decision to Lightweight "Hariem Tommy" Murphy in the twentieth round this afternoon at the Daly City open air arona. It was a bloody fight throughout Three Draft Rules.
