

GRAIN AND PRODUCE MARKET

Noticeable Bearish Feeling Develops in Wheat Today.

REACTION IN CORN PROBABLE

Bullish Conditions Will Be Felt More Keenly as the Season Advances—Late Values Will Be Higher.

OMAHA, March 13, 1912.

There was today a more bearish feeling in wheat. Today, corn was weak and Liverpool cash haven followed domestic prices of late and the local trade has become more mixed on the uneven price change.

The conditions surrounding the growing crop are such that butting on the break of the deferred months appears to be the wise course.

The most enthusiastic bulls on corn are ready to concede that the slack demand and heavier receipts might cause a further reaction from the late strong advance.

Bullish conditions will be felt more keenly as the season advances and summer values will more than likely be higher.

Wheat ruled weak and prices were saggy throughout the session. There was a further reaction from the late strong advance.

Heavier corn receipts and slower cash demand caused heavy selling and the market eased off sharply. Cash corn was 10c lower.

Primary wheat receipts were 250,000 bu. against 210,000 bu. last week. Receipts last year of 240,000 bu. and shipments of 180,000 bu.

Liverpool closed 1/4 higher on wheat and 1/4 lower on corn.

STOCKS AND BONDS.

Review of Operations on Stock Exchange During the Day.

NEW YORK, March 13.—Early activity on the stock market today was ascribed to moderately large buying for London, where optimism, based on the news of the coal strike, prevailed.

International Harvester rose to the accompaniment of further news of voluntary dissolution. Before noon selling for profits had cancelled so small part of the gains in United States Steel, Union Pacific and Western Union.

Underground Railways of London incomes rose 5 points.

Prices hardened on Wall Street support and the close was steady.

Decided strength and activity marked the opening dealings on the stock exchange today. All the active issues made substantial gains at the outset, and these were soon extended to the point in United States Steel came out in fairly large blocks and soon gained 4 1/2 points.

United States Steel, Amalgamated Copper and the American Sugar, all made advances of between 1 to 2 points in the first part of the session.

American Sugar gained 5 points, apparently little concern as to the outcome of the company's annual report for 1911.

Solution of the four-point rise in American Sugar was found in the fact that the company's annual report for 1911, which showed profits of over \$1,000,000 as against less than half that amount in 1910, were being hoarded.

COUNTY NEEDS MORE MONEY

Additional Funds Needed to Complete New Court House.

THINKS IT FINDS A WAY OUT

Commissioners Plan to Let the Grading and Approaches Go Until Time When More Money is Available.

OMAHA, March 13, 1912.

With only about \$46,000 left out of the \$200,000 raised by sale of bonds to complete and furnish the new county building, the Board of County Commissioners finds itself in need of about \$150,000 additional.

Contract for the steel work for the new county building, which will cost about \$150,000, and if the vaults are furnished as they should be the cost will be about \$160,000.

The board spent Wednesday with John Latenser, county building architect, going over plans and specifications for the steel vault fixtures in the hope that they might be changed to reduce the cost.

It was found that the cost can be reduced only by sacrificing valuable fixtures. The commissioners believe the work should be done right if it is done at all and it must be done.

Contracts let for furniture, jail work, carpets, window shades and other items reduce the \$200,000 fund to about \$40,000.

Items yet to be arranged for and their estimated cost are:

Table with columns: Item, Estimated Cost.

Only way out of the financial difficulty that the county commissioners have been able to find is this: Contract for the vault fixtures at \$40,000, leaving \$60,000 in the fund.

Transfer \$100,000 from the general fund when it is repaid next August, making \$160,000 in the county building completion fund.

Use this for interior decoration and let the matter of grading and approaches wait until more funds are available.
