Shorts Are Prightened by Sharp Advance in Liverpool Cables.

CORN BULLS CLOSE HOLDINGS

Considerable Bearish Talk is Heard, but Reduction in Reserve Stocks will be Pelt Later in the Season.

OMAHA, March 14, 1812.

There was a sharp advance in the Liverpool cables today. This frightened the shorts and gave wheat a strong and higher opening.

Sentiment is generally bearish, but the trade gets easily oversold and anything sentiment is generally bearish, but thrade gets easily oversold and anything sentiment is generally bearish, but thrade gets easily oversold and anything trades gets easily oversold and anything sentiment is generally bearish, but thrade gets easily oversold and anything sentiment is generally bearish, but thrade gets easily oversold and anything three points. NEW YORK. March it—For the greater part of today's session on the Stock exchange business was dull and prices irregular, but in the last hour the market reversed its position and broadered out under the lead of speculative favorites, some of which went to a new high level for the present movement, while Amalgamated Copper sold at its highest price in considerably over a year. Activity was maintained until the end, the business of the last hour almost exceeding that of the rest of the session, with closing prices at or near the top. There was no mway, to account for the sudden change of schtiment, other than the prospects of a general advance in prices of from and steel products and exceutations. The general lators situation at home and abroad was without material change, except for some betterment in New England mill towns.

There were again specific reasons for the further advance of such stocks, as international Harvester's and American Smelling. Semi-official statements indicated that Harvester's distincegration will soon be amnounced and the copper industry continues to work in the direction of high prices to make the copper ladustry continues to work in the direction of high prices to make the copper industry continues to work in the direction of high prices to make the copper industry continues to work in the direction of high prices to make the copper industry continues to work in the direction of high prices of the seasons for the further advance of such stocks, as international Harvester's distincegration will soon be amnounced and the copper industry continues to work in the direction of high prices of the seasons for the seasons for the seasons for the seasons of the stock in the prices of the seasons of the seasons for the seasons for the seasons for the further advance of such stocks, as international Harvester's distincegration will soon be

HOGS—A heavy crop of hogs produced a decidedly saggy market, prices ruling a decidedly saggy market, prices ruling a mostly a dime lower early in the session, as with the demand from all quarters more or less backward. Trading did not sart in garnest until after a couple of hours of scattered buying had passed and even after the demand took on a fair degree of life the improvement in values was was only slight. Some business merely strong. Extraordinary orders came forward unity the day on staple ginghams but the larger decline was usually quoted by the rank and file of sellers.

Suppers and speculators filled fair-sized

orders early in the session, while clearance of bulk was left to packers. Figures on larger killing droves showed cheaper cost of very nearly a dime in most instances and even at the break recepts were late in clearing.

Supply was estimated at a short fl.000 head, including a very respectable crop of smooth butcher and heavy hogs. These classes were invariably favored at limited premiums, the existing margins between the three general classes of stock bing relatively small.

Best heavy hogs on sale brought \$6.85, as compared with vesterday's top of \$5.225, while butchers moved largely

SHEEP-For a Thursday receipts of sheep and lambs were unusually heavy, about eighty leads showing up. This estimate included a full trainiond of Colorado lambs that were consigned through to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though to an eastern point, but even after due allowance is made for the several though and practically everything came in the fleece. The snowstorm kept much of the stuff on the road until late in the morning, however, and character of tardy acrived swas rather doubtful. Quality of early offerings was nothing to brag about in fact some complaint was heard in packing circles because of too much short finished stuff and too little high-grade stock in the receipts.

Factors acted bearish from the start and insisted upon cheaper cost in both of the leading branches of the trade. Lambs suffered more than sheep, being more plentiful, and the market as a whole was generally quoted anywhere from was to lic lower. Very little business was done until well along toward midday, although most of the good to choice grades cleared without much trouble.

Fed western lambs sold up to 56.90, with the bearing to the patrol was on to the base.

nidday, although most of the good to choice grades cleared without much trouble.

Fed western lambs sold up to \$6.90, with in-between kinds around \$6.5036.65. Usual spreads existed between poor and choice quality, the range in values amounting to a full dollar. No Mexicans were available early, but something prime in this line would probably sell around the even money—\$7.

Uncertainty in sheep, due to limited offerings of owes, wethers, etc., attended wesker trend to values, and few tops were possible. High-grade ewes reached the state of the control of t

yesterday to see if they could get along with loss elaborate equipment than was planned. The visits were not profitable.
No material reduction can be made. The
commissioners will have to put in about
\$40,000 worth of vault fixtures and let decorating of the building go until next autumn, when there will be more on band.

Fire Warden Warns All Gasoline Users

Fire Warden Ed Morris has served grocers, tailors and merchants who use gasoline with notice that the ordinance

prohibiting the careless use of explosives will be strictly enforced.

"Gasoline must be kept in tanks under-ground and clothes must be cleaned in a building separate and apart from the establishment. Not more than one quart of gasoline must be in use at any time." Probability of fires has been increased within the last few weeks by an increased carelessness in the use of gasoline, ac-cording to Mr. Morris. Those detected evading or violating the ordinance will

COMPLAINTS AGAINST COAL DEALERS ARE TO BE FILED

Complaint against 125 coal dealers will \$1.00 Dickinson today by John Grant Pegg. action follows a resolution by the council ordering Mr. Pegg to collect the occupa-

tion taxes from all coal dealers.

A few of the larger dealers have paid their occupation tax of 455 each, but a temperary organization of 125 or 146 small dealers have refused to pay, saying the tax is unfair. They have retained at-torneys to resist collection and to insti-tute legal proceedings to test the validity of the ordinance. They will demand a

graduate occupation tax.

Mr. Pegg had hesitated to collect the taxes until the council took action, a dif-ference of opinion having arose as to whose duty it was to collect. The matter was brought to a climax when a small dealer who had paid his taxes seled that they be refunded if none of the other were compelled to pay.

SANBORN COUNTY, S. D., BOY AND GIRL ELOPE

SIOUN PALLS S. D. March 11 -(Special.) Mystery surrounds the where-abouts of Richard Rasmusers and Miss Irene Tastad, young people whose par-ents reside in the same farming section of Sanborn county. The young man and girl had been sweethearts for more than a year and wished to marry, but the marriage was opposed by the girl's parents, not because they had any objection to the young man, but because of the age of the girl, who is not yet is years old. While the parents of the girl were on a trading trip to town she slipped from the house, joined her lover and they disappeared. It is believed they were married in the first town where the could

progress is being made in recuring men-bers to the recently organized Minneha-County Taft club, the membership of
