The fire department will also be in the Citizens' Ticket Filed.

Attorneys A. H. Murdock and J. Dean Bringer yeaterday afternoon presented the petition of the new Citizens' Progressive party to City Clerk Good with the request that the names of the candidntes be inscribed on the ballots for

As presented to the clerk the ticket was full and complete and none of the reported withdrawals was noticed. It stated that if the candidates persist in refusing the use of their names it mittee to fill in the vacancies.

Nearly two-thirds of the delegates to last Saturday's convention subscribed Judge Kennedy will speak on some sub-their names to the petition. Judge Kennedy will speak on some sub-ject relative to school affairs. their names to the petition.

Snow Causes Discomfort. The heavy fail of snow yesterday well high caused the suspension of business in the city. From early morning the street care found a difficulty in making headway against the storm and in the schoduls were abandoned. As the hour for transporting the crowds of working-men to their house arrived, the street car company kept their snow plows in continual use in order to keep the lines open. In order to escape the high wind the cars were switched off on a side track on N street where they were quickly filled by the waiting crowds. The street department of the city was

Report Made to Taft Warning of Possible Monopolization.

SMITH MAKES RECOMMENDATION

Government Should Preserve Title to Remaining Power Sites and Develop Them.

WASHINGTON, March 15 .- Concentra large interests in important tocalities in Smith, commissioner of corporations, ha reported to President Taft that the government should preserve title to th maining power sites and develop them to prevent a possible monopolization of public utilities companies. A full report water power development was presented

Commissioner Smith directs particula attention to the increasing affiliation of water power concerns and public service agencies, such as street railway and lighting corporations, and oftentime banks as well. The connection between the significance. The concentration of ntrol over water powers, the comm oner declares, is exercised partly by direct ownership of stock, but mainly

The rapidly increasing concentration of ommissioner sounds a warning may be me, he says, the nucleus for a m opoly of both water and steam power. If the water power cannot meet the en out that the owners can acquire auxilifuel power over the same distributing lines and thus a complete commercial power monopoly might gradually be built p-in fact, already exists in a number

Ten Great Groups.

General Electric company as the most powerful, are declared by Commis mith to control or strongly influence about 60 per cent of the developed com-These ten groups themselves are more of ing community of interests. In this con nection the commissioner's report says:
"In this maze of inter-relationships

ranging from practically joint centro down to personal association in commo directorates, is clearly revealed the drift of water power and public utility corporations under the control of a few very powerful interests. These connections, some stronger and some weaker. suggest a favorable condition for a very small number of men to consolidate very large interests whenever they may decide teriocking of interests through directors, of monopoly, certainly affords an

Mr. Smith, urging the immediate formulation of a definite policy of developing the remaining water power sites on the public domain, recommends gen-erally speaking that the government re-tain the ultimate control of these sites. They should be developed at once, he declares, not only to conserve the fuel supply of the country, but because they are fast puseling into private control. It is estimated that the water power mow in use saves \$2,000,000 tons of coal annually and, Mr. Smith adds, the water power resource is not expended in its

The problem of development, the fixing by law the selling price of water power by itself, which, in any event, will be controlled by the cost of fuel power. Recognizing that the most efficient use of water power required a considerable degree of unified control, the commissioner akes this recor "The public can either develop operate the sites, selling the the sites at a rental fairly repre-

"The water power of the country, developed and practically capal velopment at this time, probably not exceed 2,000,000 horsepower," Mr. Smith says. The total developed water-power today is about 6,000,000 Mrz. Mary J. Davis was given a \$3,000 horsepower. The total stationary power erdict against Patrick Manning for per-onal injuries before Judge Sutton in the and gas-is probably over 20,000,00 horse-

> vestigations, found concentration of water powers, according to the report, in three distinct phases. First, there was a centralization of control in each in portant locality; secondly, large interests influenced a number of those local concorns, and finally there was found a growing relationship among the big in

CLARK FORCES TAKE KANSAS

Democratic State Convention Unanimously Votes for Speaker.

Attempt by Followers of New Jersey Governor to Get Uninstructed Delegation to National Meeting Defeated.

HUTCHINSON, Kan., March 15 .- Kan-

sourl in support of the candidacy of Champ Clark for the democratic nomination for president. The democratic state convention after rejecting by a vote of 310 to 283 a plank submitted by the supporters of Governor Woodrow Wilson declaring for an unrestricted dele gation, unanimously adopted a resolution instructing the Kansas delegation to the national convention at Baltimore to cast the twenty votes of this state for Clark. If it becomes evident that Mr. Clark cannot be nominated, the delegates will cast their votes for Governor Wilson as

The action of the convention binds the delegates selected today at the district meetings, regardless of previous instruc tions given them by the various committees. The resolution, after instructing the delegates to vote as a unit for Mr. Clark, continues:

"We instruct our delegates further, that if it becomes evident that Mr. Clark cannot be nominated, our twenty delelong as in the judgment of two-thirds the nomination."

Opposition in Committee,

Although the Clark men had a ma-jority at all times on the floor of the evention, they met stubborn opposition a metion to put through the Clark plank, later adopted by the convention. failed of passage by a tie vote. same tie in committee, prevented the Wil-son men from getting through their resotution for an uninstructed delegation. Thus the fight was thrown onto the
