What Women Are Doing in the World

Senator Gore of Oklahoma, who is expected to stop in Omaha on his way east Monday, has accepted an invitation to address the open meeting of the Omaha Woman's club Monday afternoon. It is not certain what topic the blind senator will speak on.

Raymond L. Carns, director of athletics in the high school, will speak on athletics, bringing out especially the thought which underlies organized physical activities, and will tell of this feature of athletics as brought out at the National Educational association convention in St. Louis recently. His talk will be illustrated by children of the public schools. Mrs. E. A. Weathers will sing. The program is in charge of the philosophy department, of which Mrs. Mary B. Newton is leader.

Hints on putting away winter clothes, guarding against moths and other things beneficial to know at house cleaning time, also pointers on making vegetable salads and other spring dishes will be wrapped up at the meeting of the household economics department of the Woman's club Thursday morning.

Each member of the oratory department of the Woman's club will give one selection from her repertoire Tuesday morning in the studio of Miss Fitch, the leader, and will be criticized by the other members.

The meeting of the literature department of the Woman's club will be held Wednesday morning, with Mrs. Albert Edholm leader. The study of modern representative plays will be continued, the plays to be considered being Rosand's "Character" and Maeterlinck's "Bluebird."

Mrs. Avery Lancaster will lead the meeting of the art department of the Woman's club Thursday morning and will have a paper on the paintings of Henry William Meadag. Mrs. M. O. Plowman will lead the study of the pictures of Jacob Maris.

Mrs. Earl Stanfield, secretary and treasurer of the current topics department and first assistant and representative of the philosophy department of the Woman's club, has moved to 96 South Thirty-fifth avenue.

The attention of women belonging to federated clubs throughout the country is being turned at present to the \$100,000 endowment fund which the General Federation of Women's Clubs is endeavoring to raise for the purpose of broadening and vitalizing its work. At the head of this big enterprise stand Mrs. Philip N. Moore of St. Louis, president of the General Federation, and Mrs. Percy V. Penhacker of Austin, Tex., chairman of the endowment committee. News of the endowment comes to federated clubs of Omaha and other towns of Nebraska through Mrs. Harry L. Keefe of Waltham, a member of the endowment committee for Nebraska.

The circular which names the specific purposes for which the endowment is to be raised and gives other information concerning the General Federation says in part:

Our dues are only 10 cents per capita and our necessary current expenses are heavy, notwithstanding every officer serves the love alone. We are now undertaking the raising of \$100,000 endowment. With the income from this sum we hope to be able to send trained speakers and writers to state federations, to aid committees in extending their work, to increase the equipment for our bureau of information, to make possible an organ which shall bring to every individual woman the vital problems and also the progress of the General Federation. In this hour we come to you for help.

This organization includes forty-nine federations (forty-seven states, the District of Columbia and the Canal zone), ranging from 12,000 members in New York to 200 in Nevada, also over 1,000 clubs in direct membership, many foreign clubs and affiliated national organizations. We number 300,000 women.

The organization is democratic and inclusive in character. Our work is along lines of special value to women and children, to the home and the school, to the civic interests of communities, both large and small.

The Dundee Woman's club will discuss James Lane Allen's "The Choir Invisible" Wednesday afternoon at the home of Mrs. W. T. Warner. Miss Minerva Fisher will lead the discussion. Current topics will be reported by Mrs. J. E. Orange.

Longfellow's poems will be discussed by the Benson Woman's club Thursday afternoon at the home of Miss Marguerite Liljenstolpe. Mrs. E. E. Murdock will be leader. Mrs. Liljenstolpe will talk on "The Adaptation of Longfellow's Poems to Music." Mrs. Charles Tracy will report current events.

The South Omaha Century Literary club will have a civic meeting Tuesday afternoon in the public library for the purpose of stirring up interest in improving civic conditions in South Omaha. Among those who will give informal talks are Mrs. R. E. McKelvy, chairman of the state federation civic committee; Miss Maud Cloud, head of the South Omaha branch of the Omaha Associated Charities; and Paul McAlay, local trustee officer.

The Woman's club of the Railway Mail Service will have a domestic science program Wednesday afternoon at the home of Mrs. Roy A. Fox, 379 North Nineteenth street. Mrs. Chester Egan will be leader.

It will be an all-day meeting with Mrs. A. C. Anderson, superintendent of the red letter day department, in charge.

It was decided by the board of directors of the Social Settlement association at its meeting Wednesday to make Miss Sophie Adams head of the activities at the settlement until the return of Miss Clara Schaefer, head resident, from Milwaukee, May 1. It was also decided to buy some new equipment, including sheets and mats for the gymnasium. The gymnasium work is booming along under the direction of J. W. Miller, educational director of the Young Men's Christian association. As many as 125 boys have used the gymnasium during one month.

The Women's Christian association will meet Tuesday morning in the Young Women's Christian association.

The Omaha Woman Suffrage society will meet Wednesday at 2:30 o'clock at the Young Women's Christian association. Meetings are open to non-members.

The West Omaha Mother's Culture club will meet Friday afternoon at the St. Andrew's Episcopal church, Forty-first and Charles streets.

The Mothers' Culture club of the Hanscom park district will meet Wednesday afternoon at the home of Mrs. R. H. Erwin. Dr. Abby Virginia Holmes will speak.

The dues of the first meeting in May of each Woman's Christian Temperance union throughout Nebraska will go toward establishing a permanent state headquarters in Lincoln. This was decided by the state board in Lincoln Wednesday and Thursday of last week. The Omaha women who attended the meeting were Mrs. George Covell, who addressed the Wednesday evening meeting; Mrs. Edward Johnson, who spoke at the chapel exercises of the Wesleyan First Methodist church Thursday; Mrs. W. T. Graham and Mrs. T. E. Brady.

Fishtail Trains Help Make Spring Gowns Elaborate

If any Omaha woman is deluded with the idea that the spring and summer gowns of 1912 are simple, she will lose that impression when she sees the creations Hayden Brothers are showing in their annual spring opening Monday, Tuesday and Wednesday of this week. The simple summer dress has gone. The summer dress this season with its borders, bands, panels, berthas, overskirts, apron and jacket effects, is just about as elaborate as can be imagined. The basis for all this elaboration is not crepe, fine or coarse, or linen. On this groundwork, real and machine made lace are combined in most democratic fashion. All textures of laces are used, from the finest of Chantilly and shadow laces to the heaviest of macramé and cuny. As many as six kinds of laces are used on one dress, and there are additional trappings of crochet balls and buttons, flutings of net at neck and sleeves and around the edge of the skirt, and colored stripes of black velvet, purple, blue and cerise.

One gown is particularly enticing. The dress is of net with vertical rows of German Valenciennes set half an inch apart. On the skirt is a deep band of heavy Irish crochet lace, on the sleeves a narrower band. Finishing the Dutch neck are small crochet balls. Over the dress, hanging from shoulder to knee, is an apron effect of heavy Irish crochet. A crochet cord marks the waist line.

The evening gowns for spring are elaborate, too. They are of chiffon and marquisette, in pastel shades, over a blending or contrasting shade of satin. The scarf-like draperies of the waist are caught at the waist with a big satin rose in front and end with a broad, flat bow at the back, or a knotted satin ribbon or lace panel, which hangs half way down the skirt. The yokes and sleeves are of fine, run lace. The long draperies of the skirt are bordered and panelled with intricate designs wrought in cut steel, coral, crystal and gold beads, which also trim the scarf. Broad fringes finish the borders. Fish tail trains are on all. These gowns are to be shown on living models at Hayden's this week.

Money Raised for New Swedish Home

Work on the erection of a \$30,000 home will be begun in the near future by the Swedish societies of Douglas county. The Swedish Building association will have charge of the work, and enough stock has been sold at present to cover the cost of the building.

The building will be three stories and modern equipped and will be erected at Sixteenth and Chicago streets. Plans and specifications will be submitted to the board of directors at the regular meeting the first of the month.

DANGERS OF FAT NOW FAT AFFECTS THE KIDNEYS

The kidneys often become affected by fatty deposits before any other organ. Probably there is no more important function of the entire body than that performed by the kidneys. Any interruption or impairment of this function, must necessarily soon result in serious trouble. And not the least of these dangers is the gradual change in substance of the organs themselves. You will hardly care to risk Bright's Disease, or the torture of Rheumatism, to say nothing of the unwelcome burden of fat which attacks the spine and body, making it a sight far from attractive. There is one sure, harmless means by which fat may be checked, that is the famous Marmola Prescription of a Detroit Physician, rendered more convenient and effective in Marmola's Prescription Tablets. All druggists sell Marmola's Prescription Tablets, and their price is 75c for a large case, or they will be sent post paid on receipt of price by the Marmola Co., 525 Farmer Bldg., Detroit, Mich. By their use, the diet and dieting may be discarded; a smooth, clear complexion and even satisfactory reduction accomplished at the rate of 10 to 15 ounces a day.

Special Display of Corsets In All the New Models

I want the critical women of Omaha and vicinity to become acquainted with the newest and best in corsets. This season I have taken extraordinary pains to secure a line that can't be equalled. I have gone into the smallest details of corset making and have selected only those models that I can fully recommend to my patrons.

Among the many new brands on display special attention is directed to the "Norda" and "Lorraine." These corsets are the product of the Kenny Corset Company of Cleveland, Ohio.

They are new models conceived by one of the best designers in the country and made under the special direction of Mr. Kenny, who for years was general manager of The Artist Model Corset Company. They are very popular in the East and the demand is so large for them that I consider myself fortunate in securing a supply for the season's trade.

The success of my establishment has been in furnishing the best corsets obtainable. This season I have gone to much trouble and expense in my endeavor to give something better than heretofore—AND I KNOW I HAVE SUCCEEDED.

My fitting service is unexcelled—and my guarantee of thorough satisfaction protects all who buy of me.

Come in and inspect the new lines carefully—critically.

Have That Picture Framed

You probably have several pictures that you have "put aside" intending at some future time to have them framed. Don't delay any longer, bring them to us and select one of our "Framers' Craft Shop" frames. These frames are all original in design, built by hand by expert workmen.

We show them in antique and etruscan golds, verdigris effects and have the largest collection of rare and natural woods suitable for framing. All our mirrors and frame glasses are imported from France and Belgium. The gold leaf and bronzes have to come up to a high standard of excellence in order to become part of a "Framer's Craft Shop" frame.

Why not bring that picture in today, you will be surprised at the extremely low prices for artistic work.

From An Engineer's Point of View

For more than a dozen years the Baker has been preferred by electrical engineers and others connected with the electrical industry. By men of this class a motor car is measured by its net performance—the number of miles it will run with a given battery equipment, the efficiency of its motor, the elimination of dead weight, correct structural design, freedom from friction in the chassis—points upon which service depends.

Practical engineers are not the class of men to be carried away by any popular fads or plausible advertised features. They know the fundamentals of electric vehicle design and that it is foolish to buck the laws of nature with new fangled ideas.
