NEW YORK, March 23.—Further activity and strength in copper stocks and affiliated securities constituted the dominant feature of today's operations on the stock market.

AMERICAN COPPER WAS AGAIN THE LEADER, coincident with an advance in the price of the metal to 14 cents per pound, fraction in the stock far outstripping those in other favorites.

AMERICAN STEEL WAS OVERSTREETED, adding to its steady advance of the week by three points. Buying of these shares has been so persistent recently as to suggest a short covering.
