Inglenook Wines and Brandies

Dry, Sweet and Sparkling
The Standard of Excellence and Purity
15 Awards of Merit
Vintages of 1903 and 1904, now being sold by our agents

INGLENOOK Wines are absolutely pure and unadulterated and are bottled only after being properly matured in our stone cellars at Rutherford, Napa county, Cal., the finest in California.

They will help digestion, nourish the brain, muscles and nerves, and contain organic salts for the bones and tendons. INGLENOOK Wines are blood purifiers and nourishing beverages. The mild acids of the wine promote the normal action of the digestive organs, while the small amount of alcohol acts as a tonic to the whole system.

Drink Nature's Liquid and Enjoy Good Health

Remember that while water, tea and coffee will quench the thirst they are neither a tonic nor a food, but wine is both. The fermented juice of the grape is a natural tonic and a simple, pure, stimulating food.
