The United Doctors Have Been Established for Years.

THEY NEVER USE THE KNIFE

Their Long Record of Cures Places Them in Front Rank of Their Profession.

The United Doctors, who have their Omaha Institute located on the second floor of the Neville block, corner 16th and Harney streets, are the oldest specialists in Omaha devoting their entire time to the treatment and cure of chronic diseases.

Thus the United Doctors have taken first and highest rank in the medical profession of the west, and they hold this position on the merits of their work.

From their very start the United Doctors made it an invariable rule to accept no case for treatment which they deemed incurable.

Thousands of testimonials from cured patients are on file in the United Doctors' offices, on the second floor of the Neville block, corner 16th and Harney streets.

High School Janitor is Bothered to Find Places for New Lids

An effective crusade against spring hats of excessive measurements was waged at the Omaha High school this morning when Prof. Herbert A. Senter, who has charge of the lockers at the school, confiscated a total of eleven immense bonnets which could not be safely crammed into the lockers provided for the students' wraps and books.

After the millinery had been gathered together, one of the desks in Principal McHugh's office was stacked high with headgear ranging from wide brimmed blue sailor forms to gaily trimmed straw affairs that were given their trial straight out Easter.

It is probable that an edict limiting the size of hats at the school hereafter will be issued to cope with the difficulty of running a hat check room. Those who had the lion placed on their hats are planning on spring toques and close fitting opera bonnets for the rest of the school term.

Crop Outlook Good Around Chadron

Northwestern Nebraska is lucky in having such a booster as J. E. Porter, attorney, of Crawford, Neb. Porter willingly admits that the state has had it pretty hard the last year, but he predicts business conditions will improve considerably this year.

Live Stock Men to Chase the Coyotes

The Northwestern reports a large attendance at Rapid City, S. D., of the live stockmen of the northwest. The company took out two car loads of delegates Monday night, one from South Omaha and another from Sioux City.

One of the thrills at the Rapid City meeting of the stockmen will be a coyote chase. Ten coyotes have been captured, they will be taken five miles outside the city and turned loose. Each and every man who can secure and ride a horse will be eligible to join in the chase.

FARMER IS FINED FOR MAKING KICK ON BILL

They were fined \$2.50 and costs each by Judge Foster in police court. The two women were discharged.

CAMPBELL TALKS OF SELLING

Says that the Average Retailer is Not a Salesman—Advices Ad-vertising of Home-Made Products.

"The average retailer is not a salesman," was one of the many statements, brought with enthusiasm and sincerity, made before the Omaha Ad club by C. H. Campbell of Campbell & West, merchandise selling agents.

The topic of his talk was "A Selling Agent's Views on Advertising." A topic that had been given him. He spoke principally upon actual experiences in selling goods and the handicaps the salesman meets when selling unadvertised goods.

He defined a difference between a salesman and an advertiser or advertising agent. The salesman must deliver the goods before he gets one dollar; the advertising agency asks its money before it delivers the goods.

He said he thought advertising agencies should "produce the goods" before they ask the money, but on the other hand advertisers are appropriating amounts too small for their purposes.

Horace M. Goddard, a well known advertising man of New York, followed Campbell with a paper on advertising. He declared the attitude of small retail merchants toward advertising and said the reason so many and so much nationally advertised goods are sold when home products are just as good in quality and as cheap in price was because advertising makes them easier to sell.

Engineers to Strike On Mexican Railroad

MEXICO CITY, April 8.—American conductors and engineers employed by the National Railways of Mexico will walk out April 15 unless some unforeseen circumstances intervene. The railroad managers today refused the demands of the men. The latter already had voted to strike if the company's reply was unfavorable. Nearly 800 employees are affected by the strike decision.

Efforts of the American ambassador, through official channels, to avert the prospective walkout were without avail. The general manager of the railroads declares he will be able to fill the places of the Americans with competent Mexicans and that train service will not be seriously impaired.

ECONOMY IS THE WATCHWORD

Omahans Bought Less and Cleaned More This Year Says "Al" Dresher.

5% MAKES CLOTHES NEW

"This makes the four thousandth garment put in shape here this week. Every job satisfied; we haven't had a 'come back'; and we've saved hundreds of dollars for Omahans."

And after delivering this speech to the interviewer, "Al" Dresher, the cyclone live wire of the Dresher Bros. Cleaning and Dyeing establishment at 2211-2213 Farnam street, settled back into his chair exhausted.

"You don't mean to say you've put four thousand garments through the mill in a single week, Mr. Dresher?" queried the news hunting interviewer.

"Less than a week," jerked out "Al." "Stacks of people saw a way to save money this year; made up their minds at the last moment to clean up last year's garments instead of buying new ones; that's the reason we've prepared here getting out the work in time."

"What do they save cleaning up old clothes instead of buying new ones?" asked the news hunting interviewer next.

"Well, it costs about five per cent of the cost of the old garments to make 'em look like new ones," said the ever rushing "Al." "got your idea from that."

"How did you ever manage to do it?" again queried the interviewer, "did you put on an extra force?"

"No, not many; we are fixed for big work of this sort any time; and to do it rightly," answered Dresher, "and what's more, we've a \$50,000 plant, scores upon scores of expert people to run it, and a half dozen rigs and four automobiles to deliver the goods."

This conversation took place at midnight Saturday last, and even at that time Dresher grey wagons were at the door ready to take out every remaining garment in time for "Easter wear" as promised. It took almost unbelievable hustling, but Dresher Bros. got out every garment in time.

The Dresher Bros. Cleaning plant, by the way, was an interesting sight during the week preceding Easter; counters, shelves and workrooms were piled knee deep with thousands of ladies' gowns, dresses, gentlemen's suits, ladies' skirts, waists, plumes, hats and even slippers, etc., all slated to undergo a complete restoration and rejuvenation before the anxiously awaited Easter Sunday.

In fact, a number of people who were given credit for wearing new clothes on Sunday last were really attired in last season's clothes, brought to a state of newness by the wonderful cleaning system in use at the Dresher Bros. establishment.

Few people have an idea of the magnitude of the Dresher plant, but all workrooms are always open to any Omaha or out of town visitor. Go through the plant at 2211-2213 Farnam street at any time and see a metropolitan cleaning and dyeing establishment in operation.

Dresher Bros. maintain receiving stations in the Pompeian Room of The Brandeis Stores and also at the Dresher The Tailor establishment at 1515 Farnam street, and those living out of town need pay express merely one way on bundles of work amounting to \$3 or over for Dresher Bros. assume the remaining carrying charges.

The Dresher telephone numbers are worth remembering; Tyler 1204 or Auto A. 2225.
