Creighton Laws Hold Their Banquet—Around a gorgeous banquet board laid in the Loyal hotel last night, the class of '14 Creighton law school closed a successful year of scholastic attainment. Twenty-one members of the class were present, and the flying hours were spent in a round of merriment, relieved by scientific flashes of budding legal wit. Different speakers responded to the call of Toastmaster E. T. Shannon, and the spirit of class pride and unity was expressed and reiterated in rounded oratory and melodious verse.

AFFAIRS AT SOUTH OMAHA

Ringer Will Seek Naming of Referee in Ouster Case.

REPUBLICANS MEET TUESDAY

Will Afford Opportunity for All Candidates to Appear and State Their Position—Harmon to Speak This Evening.

Acting Attorney General Grant Martin, Attorney J. Dean Ringer yesterday served notice on the attorneys for the fire and police commissioners, Joseph Pivonka and John J. Ryan, that the appointment of a referee to hear testimony in the ouster proceedings brought against the commissioners would be sought on the 15th of the month.

The announcement was communicated to H. B. Fleharty, one of the attorneys for the defense. Besides Attorney Fleharty, it is understood the firm of Smith, Smith & Shall will participate in the suit on the part of the accused commissioners.

The notification by the attorney general that a referee would be appointed indicated that the ouster suit will be carried on to its final termination, notwithstanding the doubt that was raised as to the effect that re-election would have on the matter. Some who discussed the case expressed a doubt as to the further pursuit of the matter, in view of the fact that both Ryan and Pivonka were returned at the late election. Others, however, and especially lawyers, argue that if the two men were guilty of malfeasance, they would have been ousted on those charges, and under the circumstances would have been ineligible for re-election.

The ouster proceedings, it is thought, will be short and to the point, in view of the recent indictments returned, which to a great extent eliminates the possibility of suppressed evidence.
