MINERS MAY REJECT SCALE

Majority Has Been Cut Down to Extremely Small Figure.

MANY MEN ARE NOT VOTING

Deal for Sale of Atlantic Railroad Has Not Been Met by Proposed Buyers—Polk County Men Are Indicted.

(From a Staff Correspondent.)
DES MOINES, April 12.—(Special Telegram)—Returns from the referendum vote of the miners in district No. 13 on the proposed new wage scale show an alarming tendency toward rejecting the scale. A majority of 1,100 votes for accepting the settlement, as reported from twenty-eight local Thursday, was cut down to about 400 majority by the returns today. The total number of locals heard from is about forty.

Secretary Frank Cameron of the district convention announced that apparently not more than 50 to 60 per cent of the miners are voting, and that probably the acceptance of the operators' proposition will win by but a slight shade. There are 20,000 miners in the district, organized into eighty-five locals.

Atlantic Deal Falls Through.
The deal involving the sale of the Atlantic railroad to a new company known as the Iowa & Omaha Short Line has virtually fallen through. John Reed of the law firm of Reed & Reed, who is acting for the Atlantic company, stated that the promoters of the new company had not paid over the \$200,000 for the stock as agreed and that a further continuance might not be granted.

Indictments Returned.
Several indictments were reported by the Polk county grand jury. James R. Breakfield was charged with larceny as bailer and Cupid Cameron was charged with burglary. James McBride and J. Geogerty have charges of breaking and entering against them. This pair had been arrested near Valley Junction and were serving sentences for a petty crime, and were indicted by the grand jury on the charge of breaking and entering.

ARMY WILL TEST NEW PLAN

Regiment with Full Equipment to March from Dubuque to Sparta.

PART OF MEN FROM FORT CROOK

War Strength Organization Made Up from Men from Three Regiments Will Try Out the New Regulations.

LA CROSSE, Wis., April 12.—For the purpose of testing the new military equipment, the new organization and the new infantry drill regulations, companies of three regiments of the United States army are to be brought together at Sparta, Wis., according to announcement made here today by Congressman John Leah, by authority of the War department.

Next month a regiment of war strength is to be organized from companies in the Fourth, Twenty-seventh and Twenty-eighth infantry. It will consist of twelve companies of 120 men each, one machine gun company of 50 men, one band of 25 men, headquarters detachment of 35 men and 15 mounted scouts.

The troops will assemble at Dubuque, Ia., and march to Sparta. The march will be made to study the new equipment and several experimental outfits will be tried. The regiment will be accompanied by automobile trucks to test their suitability for military purposes and new cooking outfits will be experimented with.

At Sparta the battle tactics of the new infantry drill regulations will be used. It is proposed to determine whether the regulations need further amendment.

Much attention will be given to the equipment of mounted men of the infantry and experiments will be made to ascertain if a mounted staff for infantry regiments is desirable.

Entirely new suggestions for a field train, with forge tools for blacksmithing and for equipment of veterinary service, will be tested.

Sheridan Working for Park Highway

Determined not to be left off the proposed northwest national park from Chicago to the Yellowstone park and the coast, Sheridan is planning to send to the Wyoming-South Dakota good roads convention, which meets at Buffalo, Wyo., April 19 and 20, half a hundred good roads enthusiasts to insist upon the city's rights and to vote in favor of carrying the route through Sheridan and around the north end of the Big Horn range, via Custer battlefield and Pryor Gap, thence through the Big Horn basin to the Cody entrance to the park.

In opposition to this plan it has been suggested that the route be carried over the south end of the range via Hazelton and Basin City to Cody. Southern Wyoming is working to bring the road down to Casper and Douglas and thence up through the basin to the park.

Bomb Exploded in Taxi-Auto in Paris

PARIS, France, April 12.—A bomb exploded inside a taxi-auto in the Rue de Lyon this morning. The blast shook the neighborhood and wrecked the motor car. The chauffeur and several pedestrians were injured.

The outrage is believed to have been committed by chauffeurs, many of whom have been on strike for over two months. The taxi-cab was passing along the Rue de Lyon from the palace de La Bastille to the great railroad depot of the Lyon's district.

Windows in the vicinity were smashed.

Farmer Pays Damages.

WATERTOWN, S. D., April 12.—(Special)—Deliberately turning his team across the road and refusing to allow an auto to pass, L. M. Carlyle, a prominent farmer of this county, paid damages and court costs to the amount of \$20.00. Being stopped the auto driven by Art Greer, a local business man, he threatened to lock Greer, but falling in this attacked him with a large jack knife.

Greer managed to run and hide in the grass. It being in the night time, and in the meantime Carlyle smashed in the headlights on the auto and pushed his knife blade through one of the tires.

It seems that some time ago Carlyle had some serious difficulty with an auto while driving a four-horse team, and since then has felt very bitter toward auto drivers in general.

Why Does a Name Mean So Much? Because

The mere MENTIONING of a name stands for GOOD principles or BAD principles. Some pianos, like some people, have GOOD names, while some pianos, like some people, have BAD names.

We Are Offering These Prizes for a Name for a Player Piano. Why We Do It:

Our factory at Minneapolis is prepared to launch on the market a full size 88-note Player Piano. What we are after now is A NAME for this Player Piano that is expressive of quality, a name that is easy to pronounce and that will mean something. We are not going to depend upon our own ideas, but will leave the naming of our Player Piano to the people of this city and community. Too many people nowadays are buying pianos and player pianos with actually "any-old-name" on the fall-board or front of the instrument, and simply because of that fact they do not know what they are getting. We are authorized by the factories to spend a large part of our energy and advertising money to burn it in the minds of the people so strong that the NAME of "OUR" Player Piano will become a by-word and a common household word with everybody in this community. Isn't this good judgment on our part?

WHAT does the piano-buying public have to guide or direct them in the purchase of a piano or Player Piano? Only "A NAME" in reality. Of course they have the piano dealers' guarantee back of it, but most people want more than that. IF WE, as piano dealers, can tell YOU about our Piano: "Your next door neighbor has one," "The people themselves named it," and we have hundreds of them in this community, then we have "SAID SOMETHING" haven't we?

CONDITIONS OF CONTEST

Write out plainly the name you suggest for the Player Piano, whether it be long or short, a word expressing quality or something musical, no matter what it may be, give your reasons why you think it appropriate. A short name means as much as a long one just so it is what we desire.

This proposition is conducted for the purpose of getting the "BEST NAME" obtainable for our new Player Piano and to popularize the makes we handle.

No one connected with our house or any other music house is eligible to enter.

The superintendent of our factory will choose or select the first three best names. This is with the utmost fairness to all. All those sending in suitable suggestions will be notified by mail. Proposals must be mailed to our store by April 16th, 1912.

In case of a tie, equal awards will be given.
