

WILL INVESTIGATE HOSPITAL

City Council Vexed at Work on Old Anna Wilson House. NO SYSTEM SHOWN IN THE WORK

Condition in the city emergency hospital, left by the will of the late Anna Wilson, may call for investigation by the city council and a radical re-arrangement of the methods now being employed by the health department and the council in remodeling the structure.

"Conditions are simply frightful," said Councilman M. F. Pankowicz to the committee of the whole Monday afternoon. "There's no head to the construction work and everything is in a muddle."

All bids and offers received by the council have been referred to a committee and before anything further, in done bids will be advertised for. Councilmen are nearly unanimous in advocating a change of the methods now being used, placing somebody in charge and eliminating further expensive errors.

Upon the return of Health Commissioner R. W. Connel from a recent visit to the east where he investigated emergency hospitals he found that less money would be needed to repair the Anna Wilson property than was at first thought necessary. However, work has lagged, nothing definite has been accomplished and little is expected until somebody knows what ought to be done and will see that it is done, is put in charge.

Land Seekers Are Flocking Out West

Western land seekers are numerous around Omaha, the morning trains having brought in large numbers. Yesterday was one of the dates when cheap rates for traveling is made. A party of thirty came in from Illinois, destined for the northwest part of Nebraska, and a still larger bunch arrived, destined for the homestead lands in Bennett and Milette counties, South Dakota.

Heads to the north look out several parties to Canada, but it was noticeable that there were not so many going to the far north as last spring. The south got a fair proportion of those who arrived, but the majority of them went west.

As yesterday was the last of the season on which the Union Pacific sends colonial trains to the Pacific coast, it had something to do with the influx of travelers. This train went out with eleven sleepers carrying 225 passengers, with Fred R. Philpott of the Travel Bureau in charge, going direct to San Francisco.

Northwestern No. 2 came in two sections, having eleven carsloads of people for California, three for Washington, Oregon and Idaho and one for western Nebraska. The majority of them were land seekers from Illinois and Indiana, a great many being farmers who have sold out and are going west to invest in cheaper land.

May Festival for Schools Abandoned

The May festival for the girls of the graded schools has been abandoned. Athletic Director, Carna and Superintendent Graff say the work was becoming too heavy to carry in conjunction with regular school duties.

This change has also affected the annual spring athletic meet of the boys. The date has been postponed from the middle of May to June 1. Thirty-three captains of athletic squads in the school met with Prof. Carna this morning to further arrangements for the meet.

Boys have been notified that they may start garden clubs if interested in agriculture. This work will be competitive and prizes will be awarded to those growing the best produce. The gardening must be done on other than school ground. Entries for the June meet will be closed May 1. There are a large number of entries and practically every school will be represented by a thoroughly trained squad.

Order Steel Rails for Union Pacific

Maritime lines have ordered 500 tons of steel rails for use in improving tracks this summer. The orders are divided among the Colorado Fuel and Iron company. The lines already have on hand sufficient rails for construction work on new lines up to June 1. The policy of double tracking the Union-Central Pacific line from Omaha to San Francisco was adopted some time ago, but how much will be expended on this during the season has not been determined.

MEMBERSHIP EXTENDED BY COMMERCIAL CLUB

The Commercial club has extended to all eligible residents in Douglas county admission to the club under non-residence provisions. Under this by-law W. E. Washley of Valley was made a non-resident member. Other members admitted are Rev. J. G. Shick, pastor of McCabe Methodist church; W. McKnight, C. H. Moser, O. D. Paterson and W. G. Gregory.

GROVE-WHARTON COMPANY BUYS LAND TO BE PLATTED

The Grove-Wharton Construction company has purchased thirty acres of land in Benson, east of the Orphanage road, on the north Military road. John D. Crighton was the owner of the land, when was sold for him by A. P. Taylor & Son. Fifty thousand dollars was the price paid. The land will be platted in the lots.

ELECTRICIANS MEETING HERE

State Association Starts with Session at the Hotel Loyal.

MANY ARE IN ATTENDANCE

Mayor Dahlmann Delivers Address of Welcome and President Holds Regal Response—Dr. Holte Later on Care of Injured.

The fifth annual convention of the Nebraska Electrical association opened Tuesday morning at the Loyal hotel. A big room in the hotel building at the corner of Sixteenth and Davenport streets is being used for the meetings.

An address of welcome by Mayor Dahlmann, an address by President H. A. Holdrege and a paper on "Meter Testing," by H. O. Hampson were features of the first meeting.

Dr. Robert R. Hollister began the afternoon session with a paper on "Care of Persons Injured by Electric Shock." F. R. Starr of Council Bluffs talked on "Street Lighting by Means of Flaming Arc Lights" and "Street Lighting by Means of Clusters of Tungsten Lamps" was the topic of a paper by L. J. Schweigel of Holdrege.

Pilsener Beer. No Better Beer. JETTER.

Getting the Dust Out

One of the hardest problems the Dry Cleaning industry has ever had to solve was getting the dust out of garments that had been dry cleaned.

Gasoline removes all grease, germs and a good part of the dust, but heavy garments retain a certain per cent of the dust that can only be removed by beating and brushing.

A little over a year ago the Dry Room Tumbler was put on the market, and as usual the Pantorium was first to install it.

This machine takes out every particle of dust, lint and odor, cleans the nap and makes the goods look fresh and full of life. The quality of our work is 50 per cent better than it was before we installed the tumbler in April, 1911.

Our plant is open for inspection any afternoon. You get good work here—try us.
