BILL TO DISSOLVE TRUST

Government Files Suit Against Harvester Combine at St. Paul.

RECEIVER IS ASKED FOR
Seven Corporations and Eighteen
Individuals Are Named as Defendants—Prosecution Is
to Be Pushed.

ST. PAUL, Minn., April 30.—Suit against the International Harvester company, charging it with being a monopoly in restraint of trade and asking that it be dissolved, was filed by the government in the United States district court here today.

A petition in equity naming seven corporations and eighteen individuals as being the responsible heads of the \$160,000,000 harvester corporation sets forth the charge that the defendant controls a majority of the trade in harvesting machinery in the United States "to the grave injury of a farmer and the general public." It asks that a receiver be appointed to take charge of the corporation's business if the court sees fit.

Another petition filed asks Judge Charles A. Willard to order the issuance of subpoenas for all defendants not residing in this district, the subpoenas to be returnable May 6, when the corporations and individuals are to enter their appearance. The defendants, it was announced, will have until June 3 to enter their pleadings and the trials probably will be set for the October term of court.

Prosecution Will Be Pushed.

WASHINGTON, April 30.—The prosecution of the Harvester suit, it was declared at the Department of Justice today, will be expedited as much as possible. Because of the importance of the issue, Attorney General Wickesham will file a certificate of expedition, the effect of which will be to remove the case from the district court of Minnesota to the United States circuit court of appeals for the eighth circuit. This eliminates the district court and to that extent hastens the issue on to the supreme court, where it is generally conceded the case will be finally determined.

The earliest possible date at which the case can come to issue before Judges Sanborn, Hook, Adams and Smith, comprising the eighth circuit, is about August 5. The defendants must make their appearance in court by June 3, and they will have until July 1 to answer the petition. The government must file its replication by August 5. Under ordinary circumstances, the case will then be at issue.

ROOSEVELT CONTRADICTS TAFT

Quotes Telegram from Bonaparte in Harvester Matter.
NEW YORK, April 30.—Colonel Roosevelt returned here this morning from the campaign in the Massachusetts primaries and spent the early part of the day at his offices. This afternoon he planned to go to his home at Oyster Bay.

Colonel Roosevelt again contradicted President Taft in a statement today regarding the so-called Harvester trust case.

Colonel Roosevelt said:

"I was positive that the harvester trust matter had been discussed in full at least once at a cabinet meeting after Mr. Taft returned. Mr. Bonaparte now sends me the following telegram:

"Baltimore, April 30. Date of cabinet meeting when harvester trust discussed either 17 or 18 January, 1908, probably former." CHARLES J. BONAPARTE."

"The action of Mr. Taft in this case is not compatible with even the feeblest kind of good intentions."

HOUSE COMMITTEE REPORTS BROAD ANTI-INJUNCTION BILL

WASHINGTON, April 30.—A broad anti-injunction bill, such a measure as has long been advocated by labor leaders throughout the country, was favorably reported to the house today by Chairman Clayton of the judiciary committee.

The bill provides that injunctions in labor disputes shall only be issued after the defendants have had opportunity to make answer to the complaint against them. It also provides that courts shall issue restraining orders for but seven days and these only where the complainant shows that he will be done irreparable injury if the order is not issued.

Blanket injunctions are specifically provided against and the right of workmen to peaceful assembly is reiterated.

Striking employees are given the right of meeting, extending financial assistance to their fellow strikers and aiding them in every lawful way to win their victory.

The right of boycott and the right to refuse to patronize is established in one section of the bill.

A minority report probably will be submitted by republican members of the committee. Seven republican members of the committee on judiciary have filed a minority report to the Clayton committee bill reported last week, denouncing it as a measure calculated to meet political exigencies of the day and one that would destroy the function of the courts.

The bill is described as unconstitutional. The minority of the committee offers a substitute for the relief asked by labor unions.

into telephone communication with the man.

"I am going to get that man's name," said Senator Smith. "If he will not permit disclosure of his identity we will use other means to get it."

"What was the information in the mysterious message?" Senator Smith was asked.

"Dunn has not disclosed it on the stand, but I know what it was," said the senator. "It shows that the White Star people had information about the fate of the Titanic hours before they made it public."

"Did the message refer to an attempt to reinsert the Titanic?"

"I cannot say now," the senator replied.

Mr. Franklin suggested that the committee call on the Western Union to produce the message. "We want this matter sifted to the bottom and we want you to have every message sent or received that has any bearing on the disaster," said Mr. Franklin.

Question of Lifeboats.

"How did it happen that the Titanic had only twenty lifeboats?" asked Senator Smith.

The cosmopolitan character of the salon is more than ever emphasized this year by the various schools of Europe, which are represented by their most eminent exponents. The American exhibitors number nearly 100. Their work is rated high in technical quality, but there is an absence of imaginative work.

Do you know that during the past year more than fifty thousand people have stated over their own signatures that "Tona Vita" has completely restored their health?

Mr. James L. Hickey, of 289 North Madison Street, Buffalo, N. Y., the well known National League Umpire, is one of these. This is what he says: "The

nature of my profession frequently necessitates irregularity in sleeping and eating and as a result I became a victim of nervous debility. I had bad headaches and indigestion. My nerves troubled me also and I did not get sufficient rest from my sleep. I would become fatigued very easily and was about prostrated by hot weather.

"I had tried other means to restore my normal condition when a friend suggested the tonic "Tona Vita." I took his advice and am glad of it. My appetite improved at once. My headaches became less frequent and have gradually disappeared and I am no longer nervous or depressed. My stomach is now in perfect condition, in fact. I am thoroughly rejuvenated."

Railroad's Proposal Meets Disapproval

NEW YORK, April 30.—After a session lasting until midnight the conference committee of managers of eastern railroads gave out a statement declaring that they had proposed that the Interstate Commerce commission act as arbitrators of the engineers' demands, but that the proposition had been declined by the Interstate Commerce commission and that Chief Stone of the Brotherhood of Locomotive Engineers also had refused to accept the members of the Interstate Commerce commission as arbitrators.

As an alternative the committee submitted to the government mediators, Messrs. Knapp and Neill, a proposition providing for a commission of seven, one to represent the railroads and the engineers, and three two to select five umpires. In event these representatives fail to agree on the five umpires it is proposed that they be appointed by the chief justice of the United States.
