Northwestern Crop Report Optimistic
 The report of the Northwestern road for the week ending April 26, the completion for which was made prior to the heavy rain of Saturday and Sunday, is even more optimistic than that of the Burlington. The report covers the main line of the northwest, the Bonesteel country and the territory from Fremont to Hastings. Everywhere the soil is reported in splendid condition, winter wheat coming on rapidly and the pastures good.

Taking up station by station over the system, the report indicates that even last week the ground was plenty moist for the growing crops. In some localities winter wheat was somewhat injured by dry weather early in March, but has improved very much during April. The general average of the condition is placed at 90 per cent, with some sections even better than this.

STRANGE ROMANCE NEAR END
 After Ten Years of Courtship by Mail Lovers Meet for First Time.

TO BE WEDDED THIS MORNING
 Rodney C. Jewell of Omaha and Miss Della Brennan of Pennsylvania Fall Into Each Other's Embrace.

Rodney C. Jewell went to the Union station yesterday morning to meet his fiancée. In all their ten years of courtship he never had seen her and she had never seen him. She was to have worn a red ribbon on her coat sleeve and when Jewell made a canvass of all the girls and women who got off the train, he couldn't find a ribbon. He took from his pocket a photograph of his bride-to-be and studied it closely. It was Miss Della Brennan of Harwood, Pa., for whom he was looking.

And as he looked at the picture, a demure young miss walked up to him. "Aren't you Mr. Jewell?" she asked. Jewell scanned her from head to foot. Then he looked at the photograph and again at her. "Yes," he answered, and the pair fell into each other's arms.

Wedding is Planned.
 Unless plans go awry, they will be married early this morning by Father Bromberg at St. John's church, and their correspondence-courtship of more than ten years will have reached the customary climax.

Jewell became acquainted with the girl through a little message tucked away in a shirt he had bought in Chicago ten years ago. The little note said, "Whoever buys this shirt, please write to Miss Della Brennan, etc., and Jewell, then 17 years old, was romantic. He wrote. She answered. The correspondence thus was started and has since been going as fast as Uncle Sam's mail service would allow. Two or three letters a week passed between Chicago and Omaha and Harwood, Pa., and the embers of love were fanned into a blaze. They exchanged photographs from time to time and kept each other informed on the changes they had made in disposition, appearance, finances and the like, until neither could stand being separated any longer. So now they are to be one.

Jewell took his fiancée from the depot yesterday and hid her from curious friends in a boarding house. To all queries about her, he would answer that she had had a hard trip and it was his duty to protect her while she rested.

Jewell operates a motorcycle and is employed in the delivery department of Beaton's drug store. He is 27 years old and Miss Brennan is 25 years old. The place of residence after their marriage he is keeping secret.

GOLD DUST makes hard water as soft as rain water

Every good housewife knows the value of nice, soft, rain water for washing clothes and for all cleansing purposes. It isn't always convenient to secure rain water, however. Neither is it necessary. Gold Dust will soften the hardest water, and make it so near like the water that falls from the clouds that you couldn't tell the difference.

Think what this means to you on wash day. There's a deal of difference between the action of hard and soft water for all cleansing. Just a little Gold Dust added to the water renders it soft and brings out the greatest cleansing value.

Try it the next time you wash clothes or dishes.

Gold Dust really cleanses so easily that it relieves household of all its drudgery.

Gold Dust is sold in 5c size and large packages. The large package means greater economy.
