CHICAGO, May 1.—Although the wheat
market scored a high advance today
prices titrned easy during the last hour
and closed at a net decline of 'so to 'siglic.
There were fresh reports of crop damage
in a few Kansas counties, but experts
declared that the damage could quickly
be torgotten if the present promise of
wheat was maintained Corn flushed 'so

After an opening dip due to lower cables
and favorable weather wheat responded
to a liberal volume of public buying
reters. When prices showed a gain of
bout it over last night, but beforehand
the early supporters displayed a willingtess to sell out to the frightened shorts,
for the real of the day the descent was
virbout any important stop. July ranged
tom \$1.05 to \$4.178, with last sales

loss.

Heavy receipts at Omalia and Kansas

close.

Heavy receipts at Omaha and Kansus City weakened corn after an early bulge due to wat weather and forecasts of more rain tonight and tomorrow. July ranged from 75%c to 75%c, closing steady 54%-50 bet lower at 77%c. No. 2 yellow was upoted at 50%-citic.

Rad received.

Bad reports from late seeded sections made outs take a less bearish course than corn. July fluctuated from Myo to Myo. With the close 1/2 heavier than last night. Frovisions suffered a decline on account of selling by holders who had been surprised at the large arrivals of hogs, \$2.50 instead of 20,000 expected. Shorts covering steadled the market and left land and ribs leight above last night, but pork 275/271/24 alters in favor of the consumar.

Deliveries of wheat on May contracts were not lowary enough to cause any depression in values.

The action of the wheat market was somewhat of a surprise, as the majority of the trade felt values were entitled to a Turther setbork, as crop news shows some improvement since the recent reliance and warm remperatures arrived. The prospects are for a good trading market and warm temperatures arrived. The prospects are for a good trading market is made public on next Tuesda). Leaders in corn do not expect any radical change in their market for the present Higher prices new would mean a heavy run of reserves and movement is not due until after the planting season. At the same time the nearby futures are congested and seller's are time in pressing the market on the declines.

With weather and crop news more favorable wheat eased off after an early show of strength. Cash wheat was unchanged to 'go lower.

Clear, warm weather over the corn belt was the bearish feature and coupled with the easier wheat market values dragged some lower. Cash corn was 19 19c lower.

#### STEEL COMPANY FAILS TO EARN QUARTERLY DIVIDEND

NEW YORK, May 1.-That the United States Steel corporation failed to earn its. dividends on the preferred and common shares for the first three months of this year by more than \$6,000,000 was disclosed today at the regular quarterly meeting of

Earnings after charging interest on subsidiary company bonds, together with in-terest on outstanding bonds, amounted to only \$17.826.973. After making the usual allowance for depreciation and other regular fixed charges, including the sinking fund, net earnings were reduced to \$12.-

A further reduction of \$5.471.889, representing interest for the quarter on the outstanding issues, reduced the balance applicable to dividends to \$5,305,566. Inasmuch as \$12,658,700 was necessary to meet dividend requirement on the preferred and created. In the language of the official statement, this was "provided from t undivided surplus on December 31, 1911."
