

MONTH'S WORK HERE IS 33,000 ITEMS

Dresher Bros., Dry Cleaners and Dyers, Upset All Cleaning Records for the Month of April.

GROWTH IS MARVELOUS

When a dry cleaning establishment actually cleans, dyes, alters or repairs 33,000 distinct pieces of work in one single month, it has assumed colossal proportions, don't you think?

Yet, that is the very record established during April by Dresher Bros., the Dry Cleaners, at 2211, 2213 Farnam street, Omaha.

When Dreshers first embarked in the dry cleaning business a little over a year ago, the wisecracks shook their heads and remarked: "They'll never make it pay; there are too many here already." But at the present writing the chief concern of the Dresher boys is to handle the immense amount of work received daily.

One will easily gain an insight to the magnitude of the Dresher business when it is said that factories cannot supply the demand for the coat hangers that are placed on each and every garment delivered; in fact Dreshers are paying one cent each for every coat hanger delivered to their establishment and the offer is keeping the children of Omaha busy, for there are a number of coat hangers about every home.

The Dresher methods of cleaning, dyeing and restoring everything from a dainty piece of lace to a suit dress, or even rug, has awakened Omahans to the preservation of clothes and household equipment, and the future bids fair to bring forth even larger records than "33,000 pieces cleaned in one month."

Dreshers pay express one way out of town shipments of \$3 or over. Dreshers also maintain branch stations in the Pompeian Room of The Brandeis Stores and at Dreshers, The Tailor, 1515 Farnam street.

TEACHERS ARE GIVEN RAISE

Over Six Thousand Year Will Be Distributed Among Them.

BEVERAGE GETS \$100 MORE

Superintendent Reports Names of Teachers Who Will Enjoy Raise and Those Who Are to Graduate in June.

Asserting that Council Bluffs paid its school teachers less salary than any other city in the state and that the best teachers were constantly being induced to leave, Chairman Hendricks of the teachers' committee recommended at the meeting of the Board of Education last night a uniform increase of 10 per cent, and his recommendation was approved.

In the high school the increase adds \$5 a month to all of the teachers with the exception of Principal Marshall and several others, who get a raise of from \$50 to \$100 a year, making the principal's pay \$1,800 a year. The salary of Superintendent Beveridge was increased from \$2,700 to \$2,800.

In the graded schools the minimum pay of the teachers was raised from \$40 to \$45 a month and the maximum from \$70 to \$75, with proportionate increase for all of the principals of the buildings. The increase will make the payroll of the teachers approximately \$100,000 per year. At the present time it is a little more than \$90,000. Chairman Hendricks said there would be no shortage caused by the increase for the coming year, although the estimate of required revenue furnished for taxation was considerably less, for the reason that there had been a gradual accumulation of money in the teachers' fund, amounting to \$25,000 last year and a surplus of \$30,000 at the end of the present year.

Teachers Who Benefit.

The list of teachers for the next school year who will share the increase was selected by Chairman Hendricks and elected, as follows: Teachers for the school year, 1912-1913: High School—J. E. Excessive difference in water bills for water used at the various buildings caused Chairman Lutz of buildings and grounds committee to recommend a change of plumbing in the Bloomer and Pierce street buildings, where automatic flushing devices are used. The quarterly bills for the Bloomer building totaled four times as much as those for the Washington school building, although the latter is more than twice as large, and six times as large as the bills rendered for the Twentieth avenue school, which is considerably larger. It cost \$25 for the Bloomer building since January 1 and only \$5 for Washington avenue. The changes will be made during vacation. The board decided to accept the proposition of the Harris Trust and Savings bank of Chicago to take \$25,000 refunding bonds at 4 1/2 per cent net, due in ten

Council Bluffs

years, with the last \$40,000 optional after five years. Mr. Clark of the bonding company was present and an hour or more was spent in considering the various phases of the proposition. The bonds to be refunded are due on July 1 and have been drawing only 4 per cent. Had condition of the bond market, owing to presidential election uncertainties, was assigned as the cause for the higher interest rate.

Cadets Helped Along.

The high school cadets were given \$30 toward paying their expenses for the annual encampment with the understanding that they were able to rustle up the remaining \$5 required after submitting a written statement of the items of cost and the location of the proposed camp.

Superintendent Beveridge reported the following school attendance for the last month: Entire enrollment: boys, 2,596; girls, 2,506. Monthly enrollment: boys, 2,596; girls, 2,577. Average daily attendance: \$200.00. Per cent of attendance: 86.25. Number cases of tardiness: 180.50. Number neither absent nor tardy: 3,249.00.

Concerted Effort to Clean Up City to Be Made Today

Today is "clean up day" in Council Bluffs, and a concerted effort will be made throughout the city to clear away the winter's accumulation of rubbish from back lawns and alleys. The public schools will be dismissed this afternoon and all of the school children will join in the work. Tomorrow when they return to school they will be questioned by the teachers concerning what they did and how they did it.

The Boy Scouts will also join in the movement, and will heretofore make it a part of their business on their weekly "hikes" every Saturday afternoon to carry waste paper bags and pick up every bit of paper they see as they pass along the streets. When the members of the Civic Improvement club were told that the Boy Scouts would join in the work, provided they could get the bag equipment, an appeal was made for the donation of suitable bags. The Younkerman Seed company responded with an offer to supply twenty-five grain sacks, and these were yesterday turned over to the workers at the Young Women's Christian association, who attached shoulder straps and otherwise prepared them for use.

Physicians Unable to Benefit Wilcox

J. F. Wilcox, who has been critically ill since last Saturday, suffered a relapse Monday night and for several hours his life was despaired of. His condition was very precarious throughout the day yesterday and showed little or no improvement last night. Several consultations of physicians were held and but little encouragement was given of his recovery. The best of the physicians could say was that there was still hope. During the greater part of the day his strength was sustained by artificial stimulants.

Mr. Wilcox has suffered from poor health for several months, and ten days ago was attacked by a severe type of the grip. While it was at its most critical stage pleurisy developed.

Dr. Pierce's Favorite Prescription

It is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrappers and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or known composition. No counterfeits are as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most precious possession—your health—may be your life itself. See that you get what you ask for.

Kind words that are being said about Rev. Dr. O. O. Smith, former pastor of the First Congregational church, in his new field at Fort Pierre, S. D., are regularly sent to Council Bluffs by Dr. Smith's new friends. The Fort Pierre Journal of Monday, speaking of Dr. Smith's successful efforts to establish a regular "Fathers' day" service in the churches throughout South Dakota, says of the services conducted by the former Council Bluffs pastor: "The Fathers' day services on Sunday evening were in every way a splendid success at the Congregational church. A large audience was in attendance and many were the words of appreciation for the services. Miss Ida Aiding sang a solo in keeping with the day and the message by Dr. Smith was one that will long be remembered by those who heard it. The pastor expressed the hope that the first Sunday in May might be universally adopted as Fathers' day, as the second Sunday had been the day for the mothers, thus linking the memory of father and mother as their lives had been. The whole service was beautiful, touching and inspiring, and the auditors are looking forward to the mothers' service next Sunday evening."

MEET TO ORGANIZE MONDAY

Commissioners-Elect to Try to Conform to the Law.

DEPARTMENT FOR EACH ONE

Mayor to Have Charge of Public Affairs—Other Departments to Be Allotted at the Meeting Next Monday.

James C. Dahlinman, Charles H. Withnell, Thomas McGovern, A. C. Kugel, John J. Ryder, Dan B. Butler and Joe B. Hummel, the commissioners-elect of the city, will meet Monday to organize. Election of a mayor and of heads of departments may be held then by the new directory of seven.

City government will be divided into seven departments as follows: Public affairs (mayor). Accounts and finances. Police, sanitation and public safety. Street cleaning and maintenance. Public improvements.

One councilman will have charge of each department and will have power to discharge any or all employees under him. He will be held absolutely responsible for the conduct of his department and acts of his subordinates.

It is probable the seven commissioners will assume office within the next two weeks. The law apparently is not very clear in designating at what date office should be assumed. City Attorney John A. Rine has been requested to inform the commissioners at what time they ought to go into office.

Ready for the Change. Present city councilmen say they are willing to step out any time. "They can't

Complaint of thirty prisoners in the county jail that they are being improperly fed by Ed Garlpe and Ira Flanagan, prisoner feeding contractors, has been placed in the hands of County Commissioners Frank C. The committee will investigate and report at a meeting Friday afternoon, at which time a full hearing probably will be had. The prisoners go into details in their charges that the food is not good, but their statements are looked upon with suspicion.

There is only one way to cure catarrh. Reach the raw, tender, inflamed membrane that is infested with catarrh germs, and destroy the germs.

You can't reach the nooks and crevices with liquid preparations and water won't go down the windpipe—you know that. There is only one way—breathe the antiseptic germ killing air of HYOMEI (pronounce it High-o-mei) directly over the infested parts.

HYOMEI contains no opium, cocaine or other harmful drugs; it is made of Australian eucalyptus, thymol and other Listerine antiseptics. It will end the misery of catarrh, croup, coughs, colds and catarrhal deafness, if used as directed.

A complete HYOMEI outfit, which includes hard rubber pocket inhaler, a bottle of HYOMEI and simple instructions for use, costs \$1.00. Extra bottles if afterwards required, 50 cents at druggists everywhere.

Unlike internal medicines which upset the stomach, or strong snuffs which only aggravate the trouble, this cleansing, healing, antiseptic balm instantly reaches the seat of the trouble, stops the nasty discharge, clears the nose, head and throat, and brings back the sense of taste, it strengthens the weakened, diseased tissues, thus protecting you against a return of the trouble.

Nasal catarrh is an inflammation of the membrane lining the air passages, and cannot be reached with mixtures taken into the stomach or with snuffs and powders which only cause additional irritation. Don't waste time on them. Get a fifty cent bottle of Ely's Cream Balm from your druggist, and after using it for a day you will wish you had tried it sooner. A HARMLESS WAY TO DARKEN THE HAIR. Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical Company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agent, Sherman & McConnell Drug Co.

S.S.S. CURES S.S.S. OLD SORES

If an old sore existed simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germs; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleansed the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be doubly benefited by its use.
