APRIL CIRCULATION

State of Nebraska, County of Douglas, ss.
Dwight Williams, circulation manager of The Bee Publishing Company, being duly sworn, says that the average daily circulation for the month of April, 1912, was 50,109.

Put Up or Shut Up.
If the Citizens' union and its supporters have election frauds to report, let them report and take steps to punish it. If on the other hand they found no sufficient evidence to justify their charges their proper course would be to stop making them.—World-Herald.

Some Rich Men's Wills.
One distinctive point in common is noted between the wills of the late E. H. Harriman and John Jacob Astor—neither left anything of comparative consequence to charity.

Looking Backward This Day in Omaha
MAY 11
A magnificent reception was given by General and Mrs. John C. Cowan at their residence at California and Twentieth streets, for which over 300 invitations had been issued.

In Other Lands
Changing the Clock's Face.
The French government has decreed a radical transformation of the face of the clock. Instead of the present division of the twenty-four hours into two divisions of twelve hours each, the new system of computing time will run from 0 to 24, beginning at midnight.

Laughing Gas.
"Your boy Josh thinks he knows a lot about base ball."
"Ya," replied "Farmer Crotwell."
"That's why he has so much trouble. Anybody that knew as much about the game as Josh thinks he does would know enough to quit umpiring."—Washington Star.

Reunion of Churches.
Methodists in general conference at Minneapolis advocate a reuniting of the north and south branches of the church. Presbyterians expect to do even more than advocate the reuniting of their sectional bodies when they go into general assembly at Louisville May 16.

Wilson-Clark Zig-Zag Race.
Texas has rolled up a big Wilson majority and buried Harmon beneath it. This is a very significant victory for the Bryan wing of democracy, taking Mr. Bryan at his word that he favors any "progressive" democrat—Wilson, Clark or Gaynor.

German Navy League.
Any attempt to influence Germany in the direction of naval restriction is a waste of energy under present conditions. Not only is the imperial establishment opposed to the policy of limitation, but the German Navy League, a mighty organization systematically boosting for a big navy, stands the annual report of the league shows a total membership at the end of 1911 of 1,064,464, as compared with 1,004,987 at the end of 1910, an increase of nearly 30,000.

South African Dividends.
The American practice of capitalizing the earning power of corporations so that July "melons" may not be sliced annually has not been introduced in South Africa. Therefore it is possible to view in all their sweetness the dazzling percentages realized from investments in some diamond mines.

Market Conditions Abroad.
John L. Shearer, a market expert sent abroad by the mayor of Cincinnati to study market conditions in foreign countries, reports that the German markets are the best in the world. The finest of all central markets is that of Munich, which covers four blocks and cost \$1,000,000.

People Talked About
There's many a slip 'twixt a nomination and an election.
Flowers and candy are more conspicuous than cigars in the primary campaign in California.

These two masters of money escaped the overweening impulse to die poor, into which some of their contemporaries have fallen. The possession of fabulous wealth evidently gave them no nights of perplexing thought as to how to rid themselves of it. They were willing simply to step from under the burden when the time came and let it fall with all its welcome weight upon the shoulders of their families.
