AFFAIRS AT SOUTH OMAHA

Armour & Co. Install Pneumatic Tubes in Plant.

SEEK TO FACILITATE ORDERS

Club Women Join Crusade to Clean Up Magic City—Burglar Rifles Trunk and Carries Cash Away.

For the greater facility of getting out orders for customers, General Manager R. C. Howe of Armour & Co. is having installed a pneumatic tube system throughout the big plant at the cost of many thousand dollars.

This is the latest departure in modernizing the plant so that it now compares favorably with the most thoroughly equipped and advanced institution of its kind in the country.

The pneumatic tube system is the latest patent introduced into big business for the economy of time in favor of the dealer. At present the orders are carried about the plant from the shipping room to the manufacturing department or from the executive offices to the operating departments by messenger boys. Often when an urgent message has been committed to the care of an irresponsible boy the firm and customer both suffer as a result of the messenger's tardiness or laxity in his duty.

The new system will do away with the slower messenger service and also with the tardiness and mistakes consequent on the old method.

General Manager Howe stated yesterday that the tube system would be completely installed by June 1. Gradually the system will be extended throughout the whole plant. The installation is not a saving device, since the boys are maintained at a much less cost than the price of the new system. The installation is made in the interests of the dealers in order to obviate all unnecessary delay in the filling of orders.

Club Women Help. Further to assist the mayor in his crusade against the unsanitary conditions that prevail in the city there will be a meeting of the club women and others interested in the work at the city hall this afternoon.

For the last three weeks Mayor Hoctor has had several sub-inspectors working under Sanitary Inspector Ed Burson. A most persistent effort has been made to have property holders and residents remove garbage and other unsanitary refuse beyond the city limits. Reports of the inspectors have not been altogether encouraging and Mayor Hoctor has sent out orders that unless the work is done without further delay the guilty persons will be arrested.

Burglar Rifles Trunk. An unidentified burglar got away with \$10 yesterday afternoon when he rifled the trunk of Jake Stanek at Twenty-seventh and L streets. Of the sum taken \$11 was in cash and the rest in checks from Armour & Co.

Stanek made complaint of his loss to the police. It is thought that the thief entered the room by way of the back window. The money was in a trunk which had been piled open.

Horse Seeks Greenery. Undoubtedly attracted by the display of green things in the window of R.
