M'CLAUGHRY VISITS PRISON  
Warden of Leavenworth Penitentiary Makes Trip to Lincoln.  
THINKS MORLEY SHOULD HANG  
Says Effect of His Escape from Necessity Will Have Bad Effect Upon Criminal Class—Board Back from Norfolk.

(From a Staff Correspondent.)  
LINCOLN, May 10.—(Special.)—Colonel R. W. McLaughry, warden of the big federal prison at Leavenworth, Kan., called on Governor Aldrich this morning and spent the remainder of the day visiting and inspecting the state penitentiary. He comes in response to a request of the governor made some time ago, that he visit the prison and give the Nebraska officials any suggestions he might deem pertinent, and also, some recommendations which the governor could embody in a message to the legislature for future legislation concerning the institution.

Warden Melick and Deputy Antles met the colonel and escorted him through the prison, the workshops and other adjuncts of the institution, and this evening he called on the governor and gave that official the benefit of his observations. In speaking of the governor's plan for employing the convicts outside the prison the colonel commended it, but said that great care must be exercised in such matters, both in handling the men and in the selection of those to be thus employed. He remarked that with the best of precautions there would be some escapes of prisoners when liberties were granted them or when employed outside, but for all that he considered the plan a good one, the benefits outweighing the disadvantages.

Speaking of the Morley case Colonel McLaughry said that it was to be regretted that so long as Nebraska provided for capital punishment it should not have been inflicted in this case. He said that in aggravated cases and in those of desperate criminals, whatever the maximum penalty for the crime is, it should be meted out, and promptly at that. If the law was to have the deterrent effect desired upon the criminal class.

Board Back from Norfolk.  
The Board of Public Lands and Buildings has returned from Norfolk where it inspected the new woman's building, now nearing completion. It is expected this structure will be completed and ready for occupancy within the next thirty days. Some changes in the interior arrangements are being made, among them the making of more small rooms for the use of violent patients. The water cure for insanity, used elsewhere with success, is being tried with some extent here and it is expected soon to extend its use.

The board has been called on to pass on the claim of Architect Beringhoff of this city for \$1,000. The legislature appropriated the money subject to the approval of the board. One member has declared himself against the allowance and there is some doubt whether the architect will receive the cash.

Tablets for Monuments.  
The grants for the tablets to accompany the Lincoln monument on the capitol grounds is now in the city and is being put in place. The stones are four in number and weigh 1,200 pounds each. Lincoln's Gettysburg speech is engraved on their faces.

The judges of the supreme court have reappointed H. C. Lindsay reported and librarian of the court and Victor Seymour as deputy. The appointment is effective May 20, on the expiration of the present terms of these officers.  
Captain Teeter took charge today as commandant of the Milford Soldiers' home, vice Hilliard resigned. It is said there will be no changes in the present staff of the home for the present at least.

"Automatic" for Lincoln.  
The Lincoln Telephone and Telegraph company, the independent system which recently bought out the Bell company in this city and the southern part of the state, has finally decided to install the automatic system in the new exchange when the two systems are mechanically consolidated. The directors have had the question under consideration ever since the purchase of the Bell property and reached a conclusion this morning. The present exchange building of the independent company will be enlarged to house the combined plants. University Place, which is under the same ownership and management, on the contrary, will retain the manual system entirely when the consolidation takes place. Lincoln had a majority of the automatic telephones, while the reverse was true in the suburb.

Gas manufacturers of Nebraska, Iowa, North and South Dakota will meet in Lincoln May 22 and 23 to discuss matters of interest to the business.  
Want Worker Again.  
An effort is being made by university authorities to get Captain John C. Workler assigned as commandant of the university cadets. Captain John Taylor, the present commandant, has served out his term of detached duty and has been ordered to rejoin his regiment. Captain Workler was at a previous time commandant of the cadets and was exceedingly popular. He is now on detached duty and university authorities hope to have him assigned here. The annual government inspection of the cadets occurs tomorrow morning.

Reports from the southeastern part of the state, yesterday were to the effect that while the soil below the surface was moist, that section was in need of rain as the surface was dry and crops were suffering somewhat. Reports from that section are that a heavy rain covered the entire southeastern portion of Nebraska last night and farmers were feeling jubilant.

OMAHA'S ONLY MODERN CLOTHING STORE  
**King-Swanson Co.**  
16th & HOWARD STS.  
THE HOME OF QUALITY CLOTHES

A thoroughly reliable clothing store selling thoroughly reliable suits at \$10 to \$40  
In this, the day and age of "manufactured bargains," especially in the clothing business, it's good to know and feel that you can turn to this store as one that never forsakes quality for the sake of "price"—that every suit sold here carries with it an absolute guarantee of quality and that here the low prices are a natural consequence of our immense volume of business. It's a store as reliable as capital and brains can make it and it sells suits as reliable as itself. Furthermore, it stands back of every suit it sells. What's the use, then, of wasting time? We give you the best always.

Business men need not consult a high priced tailor these days—  
Our business suits are just as good, just as well made, just as perfect fitting and just as refined in appearance as any suits any tailor can make at twice the price. No long, tedious waits either, ready for you when you're ready for them.  
We guarantee every blue serge suit we sell—  
Ordinary Serges are tricky—likely to fade, warp, shrink and otherwise look bad on the least provocation. Ours never do—that's why we guarantee them. You take no chances when you buy them, neither do we when we sell them. If, however, one fails to make good we will not fail to make it good. \$10.00 to \$35.00.  
Young fellows—we've the suits you like—  
More of them than any other store in town—good, stylish suits full of youthful suggestion yet full of refinement. \$10.00 to \$25.00.

Our shoes give entire satisfaction  
They're made right and our shoemen put the right shape and size on your feet. They're styled right and the price is the "rightest" thing about them.  
\$2.50, \$3.50, \$4.50, \$5  
The Best Boys' Shoes in Town, \$1.50 up.  
According to size and kind.  
Parents who value their dollars. Read!  
Your boy must be clothed—you can spend as much or as little as you like. Unless you get the right kind of clothes the bills will run high by a yearly average. Our suits cost no more than common suits cost, yet they wear about twice as long and the yearly cost is reduced to about half. Better try it this year.  
\$2.00 to \$10.00  
Wash and play suits—  
Great line of washable suits for little lads and a great line of Cowboy, Indian Scout and other play suits for bigger boys.

YORK AND STEVENS OF MINNESOTA (republicans), but when the provision was adopted 13 to 6, many republicans voted with the democrats.  
When the house adjourned it was with the general understanding that the formal passage of the measure would follow tomorrow.  
The rivers and harbors appropriation bill was passed by the senate today amended to carry \$5,000,000 more than as passed by the house and making a total of about \$24,000,000.  
The principal increase was \$2,000,000 to the house provision of \$2,000,000 for improving the Mississippi. The relation of that item to the flood situation caused a long debate which took up most of the day's session.  
The remainder of the increase made by the senate was composed of smaller amounts, among them being Chicago harbor, \$200,000; Ohio river near Cairo, \$200,000; Los Angeles harbor, \$27,500.  
Senator Burton took positive ground against resumption of plans for the improvement of the Missouri. If the movement were to lower railroad rates, he thought the Interstate Commerce commission might accomplish that result.
