

ALWAYS TIRED, WITH LITTLE VITALITY

Modern Tonic, Tona Vita, Will Surely Build You Up Again.

Are you one of the run down, half sick nervous people with which the country is filled? Do you feel tired all the time with very little vitality? Do you sleep badly and feel as warm but in the morning as when you went to bed? Is your circulation poor and do you catch cold easily? Have you stomach trouble and an irregular appetite? Are you nervous, moody and depressed?

"Judging from my own experience I do not hesitate to say that Tona Vita is an extremely valuable preparation. I have not only used it myself, but other members of my family have been taking it with highly satisfactory results."

"So far as my own case is concerned I have been in a run down condition for a year or so, tiring easily and being troubled with sleeplessness. I lacked vitality and caught cold readily, and my digestion and appetite were poor. I was depressed in mind and body and very nervous."

"I now feel stronger than for a long time. I have more energy and my work is done with much less effort. I sleep and eat better and feel as though rejuvenated."

Wellesley college seconds the movement of Kansas university for purifying the mother tongue of the blight of slang. Drastic measures are to be invoked to check the use of slang among the girls of the college.

The undergraduates, while deploring slang's use, are still the chief offenders. To put a stop to the custom a fine of a nominal sum is to be levied on all Wellesley girls who are caught using objectionable expletives, the sum thus obtained to go to the student government building fund.

"My dear" is slang at Wellesley. Some might not object to that, but then there are "celebs," "dewdabs," "piffle," "bats," "straight credit," "cuts the chunks," "peanut," "crushes," "T. M.," "V. L.," "kimmie" and so on.

"Celebs" means a person you admire for her achievements. "Dewdab" is another word for "maudlin," "kiss" a "crush" is a person a girl may fall back upon when her gentleman friend is out of town. A "pill" and a "peanut" have the same meaning-a person who is not on the square. A "scream" stands for anything that is farcical. One is "lah de dah" when she is dressed or "dolled" up.

PROGRESS FROM ILLITERACY.

Considerable Improvement Noted in Census Statistics.

The census statistics of illiteracy for 1910, now published, are very encouraging, while leaving much to be desired. In every section of the country, the proportion of those 10 years of age and over who cannot write, which is the census test of literacy, has been reduced since 1900. It has fallen from 24.9 to 17.4 per cent in the most illiterate section, the east south central states; it has fallen from 4.1 to 2.9 per cent in the most literate section, the west north central states; it has fallen from 10.7 to 7.7 per cent for the whole country.

New York, with its great flood of immigration, stands as in 1900 with 5 1/2 per cent of illiteracy. Massachusetts, also has made a reduction from 5.9 to 5.2 per cent. Connecticut alone of all the states has lost ground, its literacy proportion now being 6, against 5.3 per cent in 1900.

Louisiana still leads in illiteracy, as in 1900, but the proportion is cut from 38.5 to 29 per cent, while Iowa, which tied with Nebraska for first place in literacy in 1900, now leads Nebraska and all other states with a proportion of 1.7.

If immigration affects adversely the standing of the northwestern states, the negro population still holds back the south. But even here there is noteworthy advance. Over 81 per cent of Louisiana's colored population 10 years old and more was illiterate in 1900; now the proportion is 45.4. The reduction of negro illiteracy since 1900 in the South Atlantic states has been from 41.1 to 21.5 per cent; in the east south central from 49.3 to 24.8 per cent in the west south central from 46 to 23.1 per cent.

There is still much work for the south to bring it within the northern average, and it must not neglect the negro for the white, for only in the common education can permanency be expected in
