

MANY CHANGES AT CITY HALL

Many Offices Are to Be Abolished Under the New Plan.

ECONOMY IS TO BE THE RULE

Such is the Announcement Made by the New Commissioners—Several Offices Are to Be Consolidated.

Radical changes looking toward economy will be inaugurated by the new commissioners. Plans are being made, heedless of political machine consequences, to abolish and consolidate offices, cut down the number of men employed in departments and install a new dispensation that will decrease the expense of the administration without impairing its efficiency.

Numerous applicants for the office of building inspector may result in C. H. Wittneff, fire protection and water supply commissioner, handling that work himself for the remainder of the year. The office of building inspector, the city electrician's office and the office of boiler inspector will be consolidated and put under the supervision of one commissioner.

Inspectors in the city engineer's office will also feel the pinch of an economical administration. Intentions now are to cut down the number to bare necessity. Other appointees in other departments who have been serving principally as a "log" in the political machine, will be informed that their services are not needed.

Change in Health Department.

A change may be made in the health department. Prominent Omaha physicians have signified a willingness to devote a week of their services occasionally to the city. The city emergency hospital may be taken out of the jurisdiction of the health commissioner and placed in charge of a competent man.

Emergency cases, in event of the change, would be the only cases cared for at the emergency hospital. When a physician was needed he would be called and arrangements for quick response would be made, so that service would be as efficient as it would be if a corps of doctors was on the job all the time. The health commissioner would devote his entire time to the general health of the city and the routine of the office.

Commissioners have also decided to strictly enforce the hours of labor rules. Employees must be on the job at 8 o'clock and must not leave before 3 in the afternoon.

Janitor Walstrom has been instructed to thoroughly clean the city hall and offices and strip off furniture and the mop and the duster are in use.

Thomas McGovern, head of the department of public improvements, will occupy the office of City Engineer Craig. Mr. Craig moves into the office of the assistant engineer in the north end of the building and Assistant City Engineer Dempster has located in the drafting room.

Dr. G. R. Young, city veterinarian, has sent his resignation to the commissioners. He explains that his connection "with the Citizens' union movement and their candidates warrant" the action and that he has no apologies to make nor favors to ask.

Deneen Extinguishes Blaze With Lungs

That a fireman needs strong lungs as well as nimble legs, is a theory that Assistant Fire Chief Martin Deneen often proves. Sparks from a Northwestern switch engine set the roof of Freer's junk shop at 22 Douglas street afire. Deneen was one of the first firemen upon the roof. While the others went at the principal blaze, he contended himself with extinguishing flames in other points. Having no chemical tank he blew the fire out in four different places.

The crowd witnessed his blowing performance and cheered him lustily.

"Died of Pneumonia"

is never written of those who cure coughs and colds with Dr. King's New Discovery. Guaranteed, 50c and \$1.00. For sale by Beaton Drug Co.

EXTRA VALUE DINING CHAIR

Select quarter-sawn oak, golden polish finish, full box frame, slip leather seat, plain rich design. An extraordinary value at each of our tables. At \$3.50. OIL IS GUSHING IN WYOMING

One Thousand Barrels a Day Flowing in Sand Creek Section.

IT WILL BE PIPED TO CASPER

Having Faith in Wyoming Product, Northwestern Road is Preparing to Convert Locomotives into Oil Burners.

The first gusher in the Sand Creek oil producing section of Wyoming was struck last Friday at a depth of a little less than 1,500 feet. The well is producing 1,000 barrels of oil per day. While the flow is not under control the oil is being saved by being run off into a reservoir.

The gusher was struck by the Midwest Oil company and is on a school section leased from the state of Wyoming, forty miles northwest of Casper. Being close to the pipe line already constructed by the Midwest company it will be piped down to Casper and to the refineries there. The flow of the new well is steady and shows no signs of falling off.

Operators Are Inspired.

Inspired by the success that has accompanied the drilling during the last few months and the bringing in of the new well, the oil producers of central Wyoming have called a convention of oil men at Casper for May 28 and 29, at which time steps will be taken looking to the extension of the oil industries.

Having faith in the Wyoming oil for fuel purposes the Northwestern road has equipped thirty-six of its engines working west of Norfolk with oil burners and completed the construction of a large quantity of tankage there. It also has fifteen new tank cars, with a capacity of 10,000 gallons of oil each, on the way to go into the service.

Of all of the fifty-seven engines used on the Northwestern west of Omaha not one is burning coal shipped from east of the Missouri river. Those that are not using oil are burning coal from the Wyoming fields. Plans are now being matured for converting the engines east of Norfolk into oil burners, and probably within ninety days every engine on the line in Nebraska and Wyoming will be using oil for fuel.

City is Asked for Money it Holds for Hydrant Rentals

Omaha may be haled before the courts and cited for contempt, if there comes the expected after clap of the litigation between the city and the water works. City Treasurer Fre has been notified to pay over the \$10,000 held back by the city when a judgment was paid. This money, collected thus by the city as occupation taxes, is still with the city, but the water company has notified the treasurer, under the mandamus issued a year ago directing a levy to pay judgments for hydrant rentals.

While the courts and Master in Chancery Taumel have upheld the city's action in holding out the amount of the occupation tax from the amount of the judgment, the water company has shown no inclination to allow the city to keep the money.

HELD FOR FORGING NAME ON POSTAL MONEY ORDER

Arrested before United States Commissioner Daniel yesterday charged with forging an endorsement on a postal money order, Walter Gowen pleaded not guilty and was bound over to await action by the federal grand jury in September. Bail was fixed at \$500.

Band Concert When New Public Market Department Opens

The Public Market, for years one of Omaha's most famous retail institutions, Saturday will open its grocery department in a section of the store at sixteenth and Harney streets which has been prepared for the exclusive use of this department. This company has never carried groceries heretofore, and install the new line because of the growing demand for such a department by the many customers of this firm.

The grocery department of the Public Market will be one of the best in the city. Every precaution has been taken to make it perfectly sanitary, and the very best lines of groceries will be sold here, and sold at prices that are considered most reasonable.

In preparing for the grocery department, which will occupy an entire foot of the building, the management of the Public Market made improvements in the entire store, fitting up the lower floor with modern fixtures and giving the entire establishment a modern, clean appearance and putting it into such shape that it will be the pride of Omaha.

In explaining the reason for adding the grocery department the owners of the store said that all their customers had asked that they sell groceries. So after long consideration of the matter it was agreed that the Public Market could add the new department and sell groceries—the very best—at prices that would satisfy all, and that would increase the business of the establishment.

New ice boxes and all modern equipment for keeping the foods clean and cool have been installed, so that the new market is one of the best in the west.

During the grand opening on Friday a band will furnish music and an informal reception will be held. Thousands of visitors are expected.

Record Price Paid to Pender Stockman for Fattened Steers

Record smashing of prices paid for fat cattle at the South Omaha yards continues to hold the serious attention of commission men and western stock raisers. Tuesday it was announced that the highest price ever paid on the local market was commanded by Philip Keller of Pierre, Neb., who was paid \$5.65 for a fine herd of twenty steers. This record is displaced by the announcement that \$5.75 has been paid to Frank Glander of Pierre, Neb.

He brought in a carload of seventeen Whiteface western cattle that averaged 1,294 pounds each, and he now holds the record for the highest price ever received in South Omaha. The cattle were sold by Ingwersen Bros.

Undoubtedly a shortage of cattle exists in the west and high prices will obtain for some time to come. It is confidently expected that top prices will reach as high as \$6 before long. The average price being paid now ranges all the way from \$3.50 and \$4.00 to \$5.15.

STEREOTYPERS' PRESIDENT NAMES LOCAL CRAFTSMAN

L. Rowzee, superintendent of the stereotyping department of The Omaha Bee, has been selected to serve on the committee on laws at the San Francisco convention. Notice of the appointment comes in a telegram communicated by James J. Freel, president of the International Stereotypers' and Electrotypers' union. The committee will meet in the Hotel Ar-

HEBREW YOUNG MEN WANT BASE BALL GAME SUNDAY

FESTIVAL OF ASCENSION AT TRINITY CATHEDRAL

Today being the festival of the Ascension there will be celebration of Holy Communion at Trinity cathedral in the morning at 7 o'clock. Morning prayer will be conducted at 8 o'clock and the second celebration of the Holy Communion will be at 9:30 o'clock.

Key to the Situation—Bee Advertising.

concert in San Francisco on Friday morning, June 7.

PASTORS ENTER CAMPAIGN

Agree to Exploit Merits of Omaha Made Goods from Pulpits.

EXHIBITS TO BE EXTENSIVE

Displays Placed End to End Would Reach Mile and Counting Window Frontage They Would Extend Three Miles.

The general committee in charge of the "Know Omaha" campaign, has most of its plans figured down to an exactness that would interest the man who does sleight of hand tricks with figures.

The window displays offered by manufacturers and jobbers, if stretched out end to end, would reach a mile. And, counting the spaces between Omaha made products and window frontage, they would reach more than three miles. Their height and weight, however, have not yet been estimated.

Plans for the educational part of the campaign are progressing nicely. J. A. C. Kennedy, chairman of the civic committee, has announced that most of the ministers of the city have agreed to start the week of June 2 with sermons on Omaha. Bishop Scannell has approved

the plans and recommends the topic for the Catholic pastors.

F. T. B. Martin, Robert Smith and A. S. Burglum held a meeting to decide on pictures to be used in illustrating lectures on Omaha which will be given at the various motion picture theaters. The committee is yet undecided on motion pictures, but will go ahead obtaining slides of things and institutions of interest.

ASSOCIATION CLASSES WILL BE REORGANIZED

A reorganization of the Young Men's Christian association Business Efficiency club, salesmanship and advertising classes will be effected Monday evening, at which time a varied program will be presented.

The meeting will be opened at 8:15 o'clock at the association building and immediately following there will be a Dutch treat. C. D. Searson will preside. After the election of officers there will be twelve-minute talks by the following persons: "Advertising," A. A. Remington; "Selling Want Ads," O. G. Frank; "Know Omaha Better," E. V. Parrish; "Savings and Investments," J. H. McMillan; "Business in the Far East," John Hay Kuhns.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

The Real Secret of Rejuvenating the Face

(From The Clubwoman.) She holds the true secret of facial rejuvenation who has learned how to remove the dead skin particles as fast as they appear. It's a secret anyone may possess. The aged, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the nightly application of ordinary mercurized wax. Within a week or two the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day, there is no inconvenience at all, and no one suspects you are putting anything on your face. The mercurized wax, procurable at any drug store, (an ounce is sufficient) is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moth patches, liver spots and fine surface wrinkles.

For the deeper wrinkles an excellent recipe is: Powdered smaltite, 1 oz., dissolved in 1/2 pint witch hazel. Rubbing the face in the solution produces quick and wonderful results.—ADV.

A Man Feels Badly

if his motor stalls. It's worse still for a woman. To be sure of your engine, you must be sure of your lubrication. Ask in any garage and you will find a 50% percentage of motor troubles can be traced to faulty lubrication.

POLARINE OIL gives full, uniform lubrication under all conditions.

It leaves no carbon deposits. It saves you all the troubles of foul valves and spark-plugs.

POLARINE is the best oil for all makes of motors.

It is especially recommended to women motorists because it is so reliable.

Send for the Polarine booklet, free, post-paid; any agency, Standard Oil Company, Nebraska, Omaha.

Buy the Car that SHOWS

The Greatest Value

That is our advice to you—buy the car that shows you the most for your money.

The most in reputation. The most in size. The most in power. The most in riding ease. The most in wheelbase.

We ask you to judge the Jacksons on this basis—and to apply same judgment to other cars.

We have no fears as to what your decision will be.

Harmless Remedy Beautifies and Darkens Hair

What a pity it is to see so many people with thin, wispy hair, faded or streaked with gray, and realize that most of these people might have soft, glossy, abundant hair of beautiful color and lustre if they would but use the proper treatment. There is no necessity for gray hair under sixty-five years of age, and there is no excuse for anyone, young or old, having thin, straggling hair, either full of dandruff or heavy and rank smelling with greasy scalp.

You can bring back the natural color of your hair in a few days and forever rid yourself of any dandruff and loose hairs, and make your hair grow strong and beautiful by using Wyle's Sage and Sulphur Hair Remedy. For generations common garden Sage has been used for restoring and preserving the color of the hair, and Sulphur is recognized by Skin Specialists as being essential for treatment of hair and scalp troubles.

If you are troubled with dandruff or itching scalp, or if your hair is losing its color or coming out, get a fifty cent bottle of Wyle's Sage and Sulphur from your druggist, and notice the improvement in the appearance of your hair after a few days' treatment. Special agent, Sherman & McOmmer, Chicago, Ill.
