Dynamite Bomb Thrown Into House at Estherville

ESTHERVILLE, Ia., May 16.—(Special.)—The failure of the fuse of a bomb to burn last night saved the lives of sixteen people and possibly more.

Last night at about 11:30 four sticks of dynamite securely wrapped together with burlap and paper and with a fuse about seven inches long were thrown through a second-story window of the residence of W. H. Hodge, who resides in the north part of the city. All of the occupants of the house, eleven in number, were asleep, with the exception of two persons downstairs, who heard the missile crash through the upstairs window. They immediately rushed to see the cause and found the bomb lying on the floor. The fuse had burned a short distance and led for the capture of the perpetrator.

The police were at once notified, but as yet no trace of the person has been found. A reward probably will be offered for the capture of the perpetrator.

The cause of such an act is entirely beyond the apprehension of the citizens of Estherville. As far as anyone knows Mr. Hodge has not an enemy in the city or elsewhere.

NEW RULES FOR THE EPISCOPALS

(Continued from Page One.)

Charles L. Hopper of the Church of the Good Shepherd, the council voted to confer with other religious bodies of the state on the advisability of requesting the state legislature to pass a law setting aside a certain part of each week for the study of religious education in the public schools.

On the first reading of the resolution "Christian" and not "religious" was used throughout. On the objection of Father Williams that Jews should not be excluded from this conference the wording was changed. Father Williams, who for thirty-five years has been rector of St. Barnabas church, took this occasion to free his mind of some thoughts on the Sunday schools of the Episcopal church. He declared that the children of Episcopal families are growing up without any religious education, while the Roman Catholics, Lutherans and Jews give their young folk systematic religious instruction.

He held back, however, from giving his full confirmation to the recommendation on the grounds that the council is not yet ready for the step.

Another measure which passed in spite of the strong opposition of Father Williams was the creating a diocesan social service commission to promote legislation for the best interests of the people. Father Williams argued that such a commission could not be formed without first creating a new canon to give it legal endorsement. To do away with this technicality a clause was added giving the commission power to act pending the enactment of the new canon at the next convention.

Rev. Wesley W. Barnes of St. Mary's church of Nebraska City, one of the younger clergymen, as chairman of the social service committee presented the recommendations. He also reviewed social conditions in the state, naming as the chief evil, the loan sharks, who extort exorbitant rates of interest from poor people.

"Public sentiment was against the urger in historical times, we need to stir public sentiment in favor of a strong law against the loan shark of today."

The unfortunate poor. In speaking of the poor against whom the loan shark's extortion, wreak most woe, Rev. Mr. Wesley used the phrase, "the unfortunate poor with many children." Father Williams was quickly on his feet contesting for the retraction of the word, "unfortunate." He declared that the man who has many children, even though he has scant means, is not poor. The word was eliminated.

The social service commission is to be formed of the bishop as head and eight others on the executive committee—three clergy, three laymen and two women of the diocese. A recommendation by the bishop that salaries of the diocesan officers be paid from a general assessment on the incomes of the parishes and not on the individual \$1 annual dues of the communicants, was deferred to some future council for action.

Communion Tax is Hardship.

Bishop Williams declared that the communicant tax wrought hardship on many, that there is resentment in many parishes of the diocese against it and that some vestries deliberately eliminate names from their registries to lessen the assessment. He was backed in his opinion by Rev. Barnes who earnestly contended for the change in the methods of assessment.

Father Williams argued against the change. He took exception to naming the communicants due a "tax." He said the dues were not a tax but a privilege. He objected especially to the phrase "odious" communicant's tax used by the bishop both this morning and in his annual address yesterday. The measure was lost.

At the afternoon's session there was a round table on the condition of the church in the diocese.

"Please give out the following answer to Governor Harmon's speech: Mr. Harmon is at liberty to secure affidavits from Mr. Baumgartner, but he is not able to change facts. I not only refused to support Governor Harmon at St. Louis, but I gave Mr. Baumgartner reasons that seemed to satisfy him."

How To Be Beautiful

"To have a clear, soft and velvety complexion, massage the face, neck and arms daily with a solution made by dissolving an original package of mayotone in eight ounces of witch hazel. It prevents facial blemishes and makes the skin lively, smooth and fair."

"A dry shampoo is better than washing the head and there is no danger of catching cold. Mix four ounces of powdered orange root with an original package of therox, sprinkle a little on the head and brush it out well. It refreshes the scalp and makes the hair clean, light, wavy and lustrous."

"Hairs on the face mar a woman's beauty. They will vanish quickly if delicate paste is applied. Mix enough powdered dolomite and water to cover the hairs; apply and permit to remain two or three minutes; then rub off, wash the skin, and the hairs will be gone."

"For sores, skin eruptions, pimples, eczema and similar beauty destroyers, try Mother's Salve. It heals cuts, burns, scalds without leaving a scar, and is recommended for obstinate sores."—Adv.
