New Commissioners View the Working of Commission Form.

NO NIGHT MEETINGS ARE HELD

Colonel Ryder Gives His Impressions of the Manner in Which Des Moines Handles Its Municipal Affairs.

The newly elected city councilmen of Omaha returned yesterday from Des Moines, where they had gone to get a first-hand idea of the practical working of methods which have developed out of the four years' experience of the Iowa city.

Workingmen Have Hearing. Wednesday morning a delegation of workmen from an outlying section was given a hearing on their demand for street lights.

Paving contracts, with an argument over the varying kinds of asphalt, were up for consideration, and the city engineer had to go into explanations touching the characteristics of the different grades of asphalt.

No Night Meetings. Several resolutions of necessity were presented to provide sidewalks in special places, and as a rule they went through without much argument.

Preparations to celebrate "Peace day" in Omaha are confined exclusively to the schools, where the significance of the day will be told by the teachers.

Special Morning Exercises. For a brief period in the forenoon special exercises will be held. The children will be taught that war consumes 75 per cent of all taxes that the cost of armies and navies of the world in time of peace is estimated at \$2,500,000,000 a year.

Defective Memory

A retentive memory is one faculty that Charles Ferrel, colored, does not possess. He was arrested Wednesday for day for creating a disturbance upon the street with Effie Burt, white.

"How many times have you been arrested?" inquired Prosecutor C. T. Dickinson. "Oh, so many times that I don't remember," answered Ferrel, with a laugh.

SOLDIER PAYS OLD DEBT

TO POLICEMAN ON BEAT

Two years ago Patrolman Barta was accosted by a soldier from Fort Crook who admitted that he needed another nickel to get back to the post in time to avoid being thrown into the guard house for missing check.

Yesterday Barta was again saluted by a soldier who said his name was Robert Wright and who requested the policeman's mind about the nickel. Barta did not remember the soldier, but the latter recognized the copper and returned the nickel with a 5-cent cigar as interest.

Soon after borrowing the nickel Wright was sent to the Phillips for duty. At the first opportunity he paid the long standing debt.

Maggie Littrell's Case

Strangest on Record

Although in a precarious condition with a compound fracture of the skull, Maggie Littrell, colored, has a good chance of recovering.

At no time since she was injured Monday night has the woman been unconscious and she seemingly suffers little pain from the injury which would have killed many stronger persons.

Dr. Harris says that the woman's condition is one of the oddities that he has ever heard of. He adds that she has never appeared dazed, though she has lost considerable blood and brain matter.

Question—

Nervous? Excitable? Irritable? Exhausted? Hysterical? Has living become a burden? Do you know what is wrong? If not, do you want to know what is wrong?

Answer— Such symptoms, as well as many others equally distressing, are commonly attendant upon functional and organic disease of a distinctly feminine character.
