AMES BUILDING IS TO BE REBUILT SIX STORIES IN HEIGHT

Plans are to be made for a six-story building to take the place of the Ames property at Sixteenth and Farnam streets, which was destroyed by fire a month ago.

Fisher & Lawrie, architects, are now drawing these plans. They will be completed soon and sent out for the approval of the owners.

Francis C. Welch and Phillip Dexter, trustees for Mrs. Lothrop Brown and May Helen Hooper, heirs of the Ames estate, will pass upon the drawing.

W. Farnam Smith, the Omaha representative of the trustees and owners, announces that the building may not all be new. It depends, he said, upon the decision of the building inspector whether or not the foundations and lower floors of the burned structure will have to be torn out.

Should the building inspector find that they are able to hold a six-story building as they stand, the raising will be done away with and work on the rebuilding begun immediately.

OLD AGE. DENIED DRINK; DROPPED DEAD AS A WARNING TO ALL.

Who may at any time be placed in a position where they can save a human life, reprint from recent press dispatches the following.

With Our Suggestions and Advice: "Refused a drink of liquor by the bartender on the ground that he already had enough. Mr. —, a cigarmaker, dropped dead on the floor of the Shamrock saloon. He leaves a wife."

The unfortunate man in this condition would like to escape; he tries to, but finds his only relief from his suffering in liquor—more and more every day, each drink adding to the poison in the system, until the system becomes so filled, "clogged up" with it until every nerve center and cell gets in that awful condition where it is simply a question of more liquor or the penalty of death demanded by the outraged body.
