### Where are faces of yesteryear?

#### HOW

 we long to see the happy faces of those childhood days, or of those blissful times when as mild mannered youth and maid we saw only the beauties of life.

Thousands wish they could bring back those faces, those smiles of baby, those recollections of father and mother and the care-free youngest son. Oh, if we only had photographed them!

Yes, if we only had photographed we now would have those never-to-come again faces preserved for our constant delight. Your boy and girl want to keep the memories of their youthful days. They can do it with a Buster Brown camera. Our complete stock of these machines gives opportunity for an excellent choice, and you can make a pleasing graduation present to your children—there is nothing they will like more. The joys of summer

will be increased a hundred fold if they have a good camera. Make it a Buster Brown—just the present for children from 6 to 16 years. It gives that soft tone picture which is so much desired.

We carry a complete stock of photographic supplies with materials—papers, films, etc., for every make of camera and kodak. Our developing and finishing department is one of the best in the west.

Patronize us and get Wm. Rogers & Son's silverware Free. Coupons with purchases made here.
