CHICAGO GRAIN AND PROVISIONS Peatures of the Teading and Closing Prices on Board of Teads. CHICAGO, May R.-Actions of the wheat market today indicated that re-cent liquidation by holders had been thorough and that prices had developed a tendency to recover. The close was steady at a net advance of the to be. The close left corn the same as hat night to the below, onto mothanged to be down and provisions off 50 to 3He. Wheat trade was mainly a scalping at-fair. The tope appeared nervous and dealers were disposed to keep their com-mittments light. At first the market magged as a result of railroad reports hat seemed to point to a bumper yield in Netraska. Later there was considerable buying under the leadership of some of the larger firms. The result was an up-ture which heid fairly well until the last mark. The mark field fairly well until the last or.

Turn which held handy feeling for the buy ing side of wheat received impetus in part from cable dispatches that Canadias and Argenting offerings were of miser-able quality and that world's shipment proved to be small.
