S.S.S. CURES ECZEMA, ACNE, TETTER ETC.

While Eczema, Acne, Tetter, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside cuticle. These affections are caused by irritating humors, or uric acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus produced is forced out through the pores and glands, and is continually kept up while the blood remains impure. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the fresh is left raw and more susceptible to other infection. It can very readily be seen then that to produce a cure the circulation must be purified and cleansed. This S.S.S. will do. It goes down to the very bottom, removes all humors and impurities, neutralizes the excessive acids of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because such treatments do not reach the blood. S.S.S. restores to the skin, soiled blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.

Duvall Says the Freight is Moving

Assistant General Western Agent Duvall of the Milwaukee is back from Chicago, where he went to assist in breaking the strike of the freight handlers. While the strike has not been broken, Mr. Duvall contends that conditions are much improved and that freight is again moving fairly well.

The greatest difficulty that the railroad companies have experienced, according to Mr. Duvall, has been to get men to take the places of the striking checkers and clerks. For doing the rough work in the freight houses, where experience was unnecessary, there were more men than positions, which enabled the railroads to pick the applicants.

The reorganization will take effect on June 1.

This Simple Home-Treatment Restores Color and Sheen to Gray or Faded Hair. Gray or faded hair is as welcome to a woman as a wrinkled skin—either of which is inimical to true beauty. When the brunette finds her hair growing gray, streaky or losing its luster, she should avoid injurious dyes or worthless hair "shades" and get a small, original package of bismuth and steep it in one pint of water, then moisten the comb and comb the hair thoroughly each night until former shade and gloss are restored.
