

HANDLING OF CITY IS DIVIDED

Commissioners Assign the Various Departments to Members. MAYOR HAS THE LARGEST LIST Tentative Arrangement is Made Which May Be Decided Upon at a Meeting to Be Held Wednesday.

Appointments by commissioners and revised lists of office holders under the commission system will be submitted at a meeting of the directory and adjustment board today. A brief discussion of appointments was held yesterday morning when the commissioners convened to consider the apportionment of the general purpose fund. Offices for the several departments will be considerably depleted if the present arrangements go through. The city engineer's office will be hit about the hardest and several men will be let out.

Assistant Street Commissioner Emery, who served under Street Commissioner Tom Flynn, will be let out by Commissioner Kugel. Mr. Kugel will appoint a man who can keep books, typewrite and do general office work.

Dean Noyes, head of the street repair work, will be retained and placed in complete control of the department, answering to Commissioner Kugel for the use of the funds set aside for street repair work.

Cut Down Forces. It is understood Noyes will cut down the force of men now employed in repair work. The asphalt repair plant has been running full blast until the bigger jobs are finished and a small force of men will be able to do the repair work in the outlying parts of the city.

Pressure is being brought to bear on commissioners to secure appointments to office, but the directors have already reached decisions as to who their appointees will be and disappointed office seekers will be numerous.

Departments Assigned. Commissioners will have charge of the following departments if the tentative arrangement holds: Mayor Daxman, public affairs; Weights and measures; License inspector; Clerk of police court; Tax commissioner; Market master; City clerk; City abstractor; Legal department; Custodian of city hall, janitors, engineers, firemen and elevator conductors; Dan R. Butler, accounts and finances; Comptroller's office; Bond clerk; Payment of city employes; Purchase and supplies.

Police and Public Health. John J. Ryder, police sanitation and public health; Police; Health department; Hospitals; Collect and dispose of garbage; Dog catchers; Pound masters; Public library; C. H. Withnell, fire protection and water supply; Fire department; Building inspector; Boiler inspector; Plumbing inspector; Electrical inspector; Fire alarm.

A. C. Kugel, street cleaning and maintenance; Street cleaning; Asphalt repair plant; Block sweepers; Grading; Prison gang; Thomas McGovern, public improvements; Engineer's office; Sewers; Cuts and fills; Paving; Bridges; Conduits and culverts; Repaving; J. B. Hummel, parks and public property.

All buildings, implements and equipments used in construction, improving or carrying on work or carrying for boulevards; Conduct and management of park pavilions.

This arrangement will be submitted to the commissioners as a whole today, when a meeting will be held to apportion city funds as well as to pass on changes and appointments in the several departments.

Tubercular Tests for Iowa Cows to Be Rigidly Enforced

Health Commissioner R. W. Connel is on the trail of cow dealers who have been bringing animals across the Missouri from Iowa into this city without first having them tested for tuberculosis. He has asked for the co-operation of the railroads and the police to apprehend offenders.

He held a consultation with Dr. W. N. Neel, chief inspector for the United States Department of Animal Industry, and steps will be taken to prohibit any cow from bringing cows into the city unless they are tagged and have been pronounced free from tuberculosis.

One man was detected Monday night driving cows across the bridge. He said the animals had been inspected, but the health authorities are looking up the records. It is believed that animals have been brought into the city without having been tested because the authorities have been lax in inspection.

Milk sold by Omaha dairies is being inspected and but few samples have shown evidence of tuberculosis. Health officials are endeavoring to keep the dairies free from the germ and stringent measures will be employed if attempts at violation of the testing statute are made.

It would surprise you to know of the great good that is being done by Chamberlain's Tablets. Darius Downey of Newburg Junction, N. H., writes: "My wife has been using Chamberlain's Tablets and finds them very effective and doing her lots of good." If you have any trouble with your stomach or bowels give them a trial. For sale by all dealers.

YOU CAN OWN A FARM

\$500 cash will buy an irrigated farm in the San Luis Valley, Colo. One San Luis Valley farmer raised one thousand bushels of potatoes on four acres; he also raised 250 tons of sugar beets on ten acres. Another farmer cleared more than \$2,000 on seven acres of cabbages in 1911. No reason why you can't do as well. Give yourself a fair chance to "make good."
