Germes Destroyed; Discharge Stopped; Sore Membrane Quickly Healed—Often Restores Hearing.

HYOMEI, a pleasant antiseptic, germ-destroying, vaporized air breathed over the entire membrane of the nose and throat and deep into the lungs over the bronchial or air tubes will kill catarrh germs, soothe and heal the sore catarrhal spots and stop the discharge of mucus in a few days.

Sprays, douches, snuffs or ointments won't and catarrh because they are not penetrating enough to get where the germs are.

So surely does HYOMEI (pronounced High-o-mey) clear up the head and penetrate into the innermost recesses of the entire nasal tract that it very often drives out the catarrhal conditions in the tubes that connect the ears with the nose and by so doing restores hearing to persons who believed they were destined to be deaf for life.

If you have catarrh, dear reader, do not forget that HYOMEI is a wonderful remedy for catarrh and is free from cocaine or any other injurious drug.

A complete outfit, which includes a hard rubber pocket inhaler, costs \$1.00. If you already own an inhaler you can get a bottle of HYOMEI for only 50 cents at pharmacists the world over.
