It is very noticeable that on all breaks in wheat values buying support comes out and all offerings are absorbed, quickly realizing the market.

The situation is now purely a weather proposition and with any signs of rain in Kansas and Nebrasia buyers are inclined to run away from the market. Crops at the present time are in good shape, but rain is needed in several localities.

NEW YORK, May 2.—The only changes of note at the opening of today's stock market were an advance of 1½ points in People's Gas and 1 point in Seaboard Air Line preferred. The active issues were extremely dull.

Apart from a further rise of 3½ points in People's Gas, based on rumors of an increased dividend, dealings in the first half of the session were almost featureless. Sears-Roebuck was down 3½.

The market closed steady. The final hour was duller than the first, with no change in general conditions except for some slight activity in issues of minor importance.
