

VERY BAD ECZEMA ON HAND 20 YEARS

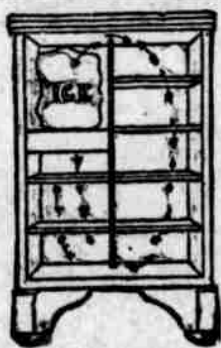

Cracked, Would Itch and Burn Until It Set Her Crazy. Used Medicines Until Discouraged. Used One Box Cuticura Ointment and One Cake Cuticura Soap and Hand is Well.

R. F. D. 9, St. Joseph, Mo. — "I am fifty years old and have had eczema on my hand from the end of my thumb to my wrist for twenty years. It would come in pimples and then it would crack and the water would come out and form scabs. It was very bad. My hand looked just like a sponge. It was all full of holes and would itch and burn until it would set me crazy. I could not put my hands in water but that it would make it worse. I used medicines until I was discouraged. I then tried the Cuticura Soap and Ointment. I used one box of the Cuticura Ointment and one cake of Cuticura Soap and my hand is well. I am writing this hoping it will help some other sufferer as it has helped me." (Signed) Mrs. Louise Hyatt, Nov. 30, '11.

UNSIGHTLY PIMPLES ON FACE For Many Months. Cuticura Remedies Cured.

237 E. 16th St., New York, N. Y. — "I was troubled with pimples on my face for many months. They kept on steadily increasing. They were so unsightly that I was ashamed to go outdoors. I doctored them with everything in the market professing to cure pimples. However, nothing helped and I thought I would have to go through life with a pimply face. At last a friend recommended Cuticura Soap and Ointment to me. I bought some. After using Cuticura Soap and Ointment the cure was complete in fifteen days." (Signed) Miss Redford, Frank, Nov. 26, 1911.

Cuticura Soap and Cuticura Ointment are sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with full book. Address, "Cuticura," Dept. 7, Boston. Tender-faced men should shave with Cuticura Soap shaving stick.

Burlington Looks for Line of Its Own in Oil Territory

CASPER, Wyo., May 27.—(Special.)—Recent rumors that the Burlington will build a line from Casper north through the Salt creek oil fields to Buffalo and Sheridan, making the resources of the big oil pool and rich agricultural section to the north tributary to its coast to Gulf project are materially strengthened by the fact that a big surveying outfit is at work north of Casper. The Burlington is now laying steel to Powder River where it will connect with the North Western, a section of which is under lease to Orin Junction, where connection is to be made with the Colorado & Southern. The recent arrival of high Burlington officials in Casper where they investigated oil conditions and inspected sites for a depot and freight yards indicates the track agreement with the North Western is only temporary and lends color to rumors of a line from the oil fields to Buffalo and Sheridan. Extraordinary development of the Salt Creek oil fields in the last ninety days, during which the production increased approximately 50 per cent, together with the large amount of development work now under way, is an important factor in the railroad's probable decision to build.

M'CONNELL SPEAKS OF FLAG

In Memorial Address He Touches on Anarchy and Graft.

SHOULD KICK LORIMER OUT

Declares that Recent Elections Are Controlled by Foreigners Who Do Not Know Anything About This Country.

"The four thousand who controlled the recent election in Omaha know nothing of the flag, know nothing of our country, know nothing of the battle of these old soldiers," was an exclamation in Rev. Thomas H. McConnell's sermon before the Grand Army of the Republic Sunday morning at Westminster Presbyterian church.

He explained later that he was referring to the foreigners who filled the polls of the lower wards. He made the statement as a following line to a declaration that there is no combination of nations that could make us feel uneasy, but that our great problems are within.

"Senator Lorimer," he said, "should not be permitted to resign; he should be kicked out. We must have no place in our government for bribe givers or bribe takers."

Anarchy Is Problem.

"And anarchy," he declared, "now is raising its head, and that great problem must be met. In the last two months the great American flag twice has been torn down and trampled in the dust. We need some judge to say 'Take away the franchise and the freedom of these people. They would rob us of every institution which they enjoy.'"

"In this day we need men to stand for the flag and our honor. These things within should fill us more with anxiety than the possible enemies without. There is anarchy, there is the immigration question and the public school, all problems that must be solved."

Nearly forty old soldiers, members of Custer post No. 7, Grand Army of the Republic, occupied the front seats in the church. Bearing flags and the insignia of their post they marched two blocks

to the church to the music of the fife and drum. The services were special memorial exercises, with hymns and music recalling the days of battle.

The veterans sat intensely interested in the preacher's review of some of the events of the war and the heroes those events brought out.

Rev. Mr. McConnell said he did not come to arouse the animosity of the old soldiers which God has erased. "The sword has been welded into a plowshare and the spear into a pruning fork," he said. "As we look back over history to which time has lent perspective there is revealed the finger prints of God."

He spoke kindly of the confederate who fought for a cause in which he believed. "We dishonor them and ourselves if we look at it any other way," said he.

TELLS OF LOVE FOR SOLDIERS

Rev. M. V. Higbee Talks to Members of George Crook Post.

Memorial services of George Crook post were held Sunday morning at the North Presbyterian church before an audience that crowded the church to the doors. About forty members of the post and a large representation of the Women's Relief corps of the post occupied the front seats.

Rev. M. V. Higbee, the pastor, talked on "Our love for Soldiers." In glowing terms he told of the righteous cause for which they gave up their lives. He said by keeping us under one flag and in one great country, the American soldier had endeared themselves to the people more than any other class of men.
