Baptist Board of Missions Cleared of Charge of Waste

DES MOINES, Ia., May 28.—The American Baptist foreign mission board was cleared of the charge of extravagance by the almost unanimous action of his northern Baptist convention here today. The board will not be restricted to the sum of \$12,000 for home office expenditures as was recommended by the committee which made the report of extravagance.

The special committee alleged that the board was unwise in expending so great an amount as \$12,000 in the printing and distribution of the missionary literature, transporting the entire secretary membership to each national convention, maintaining independent district secretaries and in its official management.

The report of the committee provoked considerable discussion on the floor of the convention. Mornay Williams, an attorney of New York, and prominent in Baptist circles, made a stirring defense of the board, and when the vote was taken there were few delegates who did not register their voices in favor of the board.

Ministers of the Baptist faith are urged to solemnize a marriage which does not have medical sanction, in a resolution adopted by the convention today. The resolution also advised the teaching of sociology to the young by both parents and teachers as a safeguard to these students in later life.

The Kellion-Shepherd bill now pending in congress which permits the states to regulate in their territories the shipment of liquors for illegal use, received enthusiastic endorsement.

Rev. W. H. Rollins Elected President of Tabor College

TABOR, Ia., May 28.—(Special.)—At a recent meeting of the Tabor college trustees, Rev. Walter H. Rollins, pastor of the First Congregational church of Waterloo, Ia., was elected president. Rev. Mr. Rollins is described as a most successful pastor and a great money raiser. He is credited with having built up the Waterloo church, which is one of the prominent churches of the state. He is expected to be on the ground here at the opening of the school year in September.

One of the trustees, Rev. G. E. Wood, pastor of the Congregational church of Red Oak, was elected to the chair of philosophy. Mr. Wood received the A. B. degree from Amherst college, B. D. degree from Chicago Theological seminary and has done some post graduate work in philosophy at the University of Chicago. Prof. Ivor A. Thomas was elected director of the Conservatory of Music. Among other preparations for his specialty Prof. Thomas studied music in Leipzig for two years. He was for four years head of the conservatory in Nebraska Wesleyan university, and for several years past has been teaching in Canada. He comes from Belleville, Canada, to Tabor. He leaves Canada because the climate there is too severe for some of his family.

Bishop Stuntz Will Preach Three Times on His First Circuit

CLEAR LAKE, Ia., May 28.—(Special.)—There must be quite a little of the sentimental left in the nature of Dr. Homer C. Stuntz, who was elected bishop of the Methodist Episcopal church at the general conference now being brought to a close at St. Louis. When he was ordained a preacher at the annual conference then held at Mason City in 1882, his first charge was at Chelsea, a small place near Belle Plaine. With Chelsea were two other country appointments and Rev. Stuntz served these three charges and thoroughly enjoyed the work. When this last quadrennial conference was called it was generally thought that Mr. Stuntz would be selected as a bishop and this took a good many of his old parishioners of his first charge to Minneapolis. When he was nominated and elected on the first ballot, an honor rarely paid a candidate, there was general rejoicing. And now the announcement is made that Bishop Stuntz will visit Chelsea next Sunday and not only preach there, but on that day will deliver three sermons, one in each of these first charges. Bishop Stuntz is the second Iowa preacher to be elected to this, the highest position in Methodism.

ROCKEFELLER IS EVASIVE

(Continued from First Page.)

proxy to indicate how you are voting?" he was asked.

"Here is one of many proxies—" began the witness.

"You are not answering the question," interrupted Mr. Untermyer.

"I signed this proxy because it came from some of the reorganizers of the Standard Oil company," replied Mr. Rockefeller.

"I assumed that these persons were the ones that were carrying out the mandate of the court."

Here the Waters-Pierce attorney wanted to know what individuals he had in mind.

The witness then named over "Mr. Moffatt, Mr. Bedford, Mr. Pratt, Mr. Arnold and Mr. Jennings," as these engaged in reorganization of the Standard Oil company.

"I looked on them as a group of men," he explained, "who were conducting the reorganization. I assumed that these gentlemen, familiar with the oil business knew what was best and as I was not known what as best, I had to accept their judgment."

Holdings Constituted Control.

Previous testimony at the hearing had shown that Mr. Rockefeller's holding of Waters-Pierce stock, amounting to about one out of every ten shares, were turned over to be voted in favor of Standard Oil men as officers of the Waters-Pierce company. His proxies and that of other Standard Oil directors were turned down by the inspectors at the election at St. Louis last February on the ground that to vote them would have been in violation of a decree of the United States supreme court.

"I suppose you understand that holdings of these gentlemen, added to your own, constituted a control of the Waters-Pierce company?" continued Mr. Untermyer.

"I know that the Waters-Pierce interests did not have a control and that my holdings would not give the gentlemen those interests were outside of Mr. Pierce's control."

"You haven't answered my question."

"I am unable to tell all the holdings of these gentlemen," said the witness firmly.

"Mr. Rockefeller," almost shouted Mr. Untermyer, "if we have got to stay here all night, we will because I am going to have my question answered."

Evasive Tactics Continue.

"I didn't make any calculation, I made no study at all. I know merely that the aggregate of these outside holdings was in the neighborhood of 70 per cent."

"That doesn't answer my question. Did you know that the holdings of these men in charge of the Standard Oil reorganization, added to yours, made a majority of the Waters-Pierce stock?" repeated Mr. Untermyer.

"I never made a computation," said Mr. Rockefeller.

"You'll answer this question before we get through," threatened Mr. Untermyer.

"I submit that I am not getting proper answers to these questions. I am unable to get a categorical answer to a single one. But I am going to get an answer."

INVITED TO OYSTER BAY

(Continued from Page One.)

Arthur I. Vorys of Ohio and E. C. Duncan of North Carolina, all of whom are friendly to President Taft's candidacy.

The rules of the national committee and the procedure of former conventions are opposed to such action. It is claimed by Taft managers and by many republicans here that the delegates to the Chicago convention from any state have no legal standing and no authority to elect a national committee. Until their credentials have been passed on by the existing national committee and later by the credentials committee of the convention.

General Strike of British Transport Workers Arranged

LONDON, May 28.—Ben Tillett, the secretary of the Dock, Wharf, Riverside and General Workers union of Great Britain and Ireland, said this afternoon that the machinery for a national strike had been organized but was being held in abeyance pending the result of a conference between the strike leaders and the home office. The executive committee he said, intended to protest strongly to the government against high army officials, the Board of Trade and the home office acting in collusion with the transport workers.

"Uninformed Hooliganism," is Tillett's characterization of the police. Tillett and Gosline, representing the transport workers' strike committee in the course of an interview with Reginald McKenna, home secretary, offered to co-operate with the home office in facilitating transportation of the necessary food supply for London.

Second Cavalry Will Go to Fort Bliss

WASHINGTON, May 28.—Another regiment, the Second Cavalry, now returning from the Philippines is to be sent to Fort Bliss, Tex., though it is declared that no warlike significance attaches to the order.

The regiment is due at San Francisco June 15 and was originally destined for Fort Meade, S. D., and Fort Snelling.

Sixty-One Thousand Acres for Settlement Near Lander, Wyo.

LANDER, Wyo., May 28.—(Special.)—The federal government is making arrangements to dispose of 61,000 acres of land on the Shoshone and Arapahoe Indian reservation to white settlers. The Indian lands are too indolent to take advantage of their opportunities, and rather than have the land lie idle, the government will allow white farmers to settle on the farms, and either lease or purchase outright from the Indians. The dead Indian lands are now being probated and the lands listed for sale or lease. The Indians favor the government plan, for the sale of the lands means big money to them, and where leased they are assured of a steady income of sufficient magnitude to keep them in tobacco, feed for their ponies and ammunition for their rifles.

The settlement of these Indian lands under the government ditches will nearly double the population of Fremont county, and will bring prosperity to all lines of business. The lands in question are capable of growing maximum crops of grain, alfalfa, potatoes, peas, beans, etc., and even fruit growing has been successful on a small scale. The lands of the Wind River reservation are among the richest in the west.

What Is Duffy's Pure Malt Whiskey?

It is an absolutely pure distillation of malted grain, and as none but sound, clean grain, can be malted, Duffy's Pure Malt Whiskey is made from the most carefully selected grains of the field. It is a predigested liquid food in the form of a medicinal whiskey; its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach.

It is a gentle, invigorating stimulant and tonic that influences for good every important organ of the body. It is a remedy that should be in every family medicine chest.

A Medicine For All Mankind

It brings into action all the vital forces; it makes digestion perfect and enables you to get from the food you eat all the nourishment it contains. It builds up the nerve tissues, tones up the heart, gives power to the brain, strength and elasticity to the muscles and richness to the blood.

It is invaluable for the overworked, delicate and sickly. It strengthens and sustains the system, is a promoter of good health and longevity, makes the old feel young and keeps the young strong and vigorous.

It is a wonderful remedy in the prevention and relief of nervousness, typhoid, malaria, all stomach troubles, diseases of the throat and lungs, and is recognized as a medicine by doctors of all schools.

Thousands of letters have been received from men and women in all walks of life, many from those nearly 100 years old, extolling the virtues of Duffy's Pure Malt Whiskey as the world's greatest medicine.

Waiters in Two New York Hotels Strike

NEW YORK, May 28.—Every waiter in the Holland house walked out on strike during the luncheon hour today to join their brethren from the Hotel Knickerbocker, who struck last night.

The places vacated by 200 waiters who went out on strike for higher wages and shorter hours, were nearly all filled by strike breakers, according to James M. Regan, proprietor of the hotel. There was no disorder today.

Joseph Fletter, leader of the strikers, declared that the strike would be extended to every hotel in the Hotel Men's association that did not grant the waiters' demands. This includes many of the city's best known establishments.
