Her sweet children who have had her earnest teaching and have come under her sweet and womanly influence stand before the picture enjoying its quiet beauty and radiance with a feeling of reverent tenderness. ### LAWYERS DISCUSS LIABILITY

Bar Association Hears Address by Victor Rosewater.

### LEGISLATIVE COMMITTEE ACTS

Various Changes Recommended in State Procedure to Benefit Litigant and Lawyer Alike Are Presented to Body.

Some of the intricate problems confronting the governor's commission which is framing the workmen's compensation and employers' liability act were presented to the Omaha Bar association last night by Victor Rosewater, a member of the commission.

There followed the address an informal discussion of the points by members of the association. Questions as to the scope of the proposed bill, the possibilities of its various features and what is being done under similar bills in states which have adopted it, were answered by the speaker.

A resolution thanking Mr. Rosewater for placing the work of the commission before the association was unanimously adopted, as was also a motion placing the association on record as favoring an employers' liability and workmen's compensation bill. The latter with recommendations as to features of the bill went over as unfinished business to the next regular meeting of the Bar association in October.

After the discussion of the proposed bill a report of the legislative committee was made in which proposals to amend certain laws pertaining to technicalities of court procedure precipitated some lively argument, resulting in the adoption of some and rejection of others.

**Notice of Exceptions.**  
A motion to adopt an amendment to the present law concerning serving bills of exception on opposing counsel was adopted. The motion proposes the filing of the bill of exception with the clerk of the court, with notice of the filing shall be mailed to opposing counsel. This, it was explained, is for the purpose of doing away with the necessity of going long distances to serve the opposing counsel if he is away.

Another motion, that to limit the time in which appeals can be taken, was adopted by the association. Where six months has been the limit of time it is proposed to shorten the period to sixty days.

A motion to abolish exceptions to court rulings, in which it was set forth that there is now useless waste of time in recording exceptions, was also adopted. J. W. Woodruff and Stanley M. Rosewater, as minority members of the legislative committee, had their report made out in printed pamphlet and copies were distributed among the members of the association.

Some of the recommendations they make are: To urge the submission of an amendment to the constitution to repeal Section 24, Article 1, which makes it possible "to drag every civil suit through all the courts to the supreme court."

Second—To shorten the time to plead and make up issues in all civil cases, ten days to answer summons, thirty days to lodge transcript on appeal in the supreme court and sixty days to lodge bill of exceptions.

Third—To provide that motions for new trial should be heard by at least two district judges within ten days of the trial and that unless they grant a new trial within ten days after submission of the motion, the verdict or decree shall stand. Time to be extended only because of illness of counsel, or engagement for brief period in trial of another case. Also to require the judges on hearing motions for new trial, to enter short memorandum of the facts found by them and their conclusions of law thereon and to provide for publication of same.

The judges thus sitting upon motions for new trial could perform all the functions of a reviewing tribunal, but without the unavoidable delay incident to an appeal from one court to another.

Fourth—To advocate as a temporary expedient, until constitutional amendment can be made, the withdrawal of the right of supersedeas in all civil cases.

Fifth—To limit the appellate jurisdiction of the supreme court to: (a) Criminal cases, (b) Cases involving questions of public interest and of grave import and serious urgency, (c) Cases in which the courts of the several judicial districts are deciding questions of general law in conflict with each other.

Sixth—To allow any three of the seven judges of the supreme court to determine any case in said court, thereby more than doubling the number of opinions possible in the same time as under present conditions.

Announcement was made at the meeting that the annual social gathering of the association is set for Thursday afternoon, June 13. The judges of the supreme court have accepted invitations to attend.

### At the Theaters

Weber and Fields and their big jubilee company of 100 players will visit this city for one performance only on Tuesday night, June 4, at Boyd's theater.

It is the largest and most distinguished company of players ever gathered under one management in this peculiar style of entertainment, and throughout the country there is the liveliest curiosity to see such players as Weber and Fields themselves, Lillian Russell, Fay Templeton, William Collier, George Robson, Bessie Clayton, John T. Kelly, Ada Lewis Helena Collier Garrick and Frankie Bailey. The company will present that potpourri of Weber-Fields reminiscences called "Hokye Pokye," and a miniature burlesque known as "Bunny Buns" at the Broadway theater, New York, witnessed by nearly 25,000 persons, the receipts exceeding \$25,000. The Weber and Fields company is the most expensive that ever banded together. Nearly all of the principals have starred at the head of their own companies, while some of the persons playing the smaller parts are also well known to fame.

The management of the Brandeis theater announce the engagement for two nights only on next Sunday and Monday of Lerman's big Yiddish Comedy company in two plays. On Sunday night "David's Violin," a musical comedy in three acts, will be offered, and on Monday night "The Broken Heart" will be the offering. During this engagement popular prices will prevail.

### NERVOUS, DEBILITATED AND RUN-DOWN

Either the Rest Cure or Tona Vita Will Build You Up Again.

If you are nervous, debilitated, and run-down in health, there are two things you can do to bring back your strength and vitality. You can go to a sanitarium and take the rest cure or you can secure the great modern tonic "Tona Vita" and let it build you up and furnish new nourishment for your shattered nerves.

If you know what wonderful results have been accomplished by "Tona Vita" since physicians first introduced it in this country you would much rather take this tonic than to go to any sanitarium on earth. Here is a statement from Mr. J. M. House, of 21 Twenty-first Ave., Milwaukee, Wis., who has tried "Tona Vita": "I was all run down, intensely nervous and suffered with the most violent headaches. I felt tired and dull all day, my body seemed benumbed at times, and I did not sleep well. My digestion was imperfect and I was continually constipated. As soon as I ate anything my stomach flled with gas and I was distressed for a half hour or more.

### HUPP SYSTEM MUCH PRAISED

Moving Picture Men Will Reproduce Mechanism in Action.

DEMONSTRATIONS MADE IN EAST Government and Railroad Officials Marvel at Efficiency of Device That is Attracting So Much Attention.

WASHINGTON, May 30.—This country has made many strides in the last quarter of a century. Probably no single feature in American development has played so important a part in its up-building as the growth of the railway mail service, and with the advent of the Hupp system the railway mail service of the world will be immeasurably benefited. As is the case in all innovations, the world is inclined to be skeptical, but skepticism has vanished and the Hupp mechanism is receiving praise from the government officials who have witnessed its practical workings.

The praise of government officials applies with equal force to the score of prominent officials representing nearly all the railroads of this country who have viewed the Hupp system in action. These demonstrations are given at the urgent request of many public men who realize the necessity for such an improvement in the mail service.

It has been suggested that arrangements be made whereby these demonstrations be reproduced in all the leading moving picture houses of the country and the Pathé Freres Moving Picture company's representatives are now on the ground.
