Receipts of All Sorts at Primary Markets During April.

SOUTH OMAHA IS COMING FAST

Bureau of Statistics of Department of Commerce Makes Detailed Report on the Industry for United States.

The live stock receipts at the seven principal western markets, namely, Chicago, Kansas City, Omaha, St. Louis, St. Joseph, St. Paul and Sioux City, as reported to the bureau of statistics of the Department of Commerce and Labor in April 1912, were greater than those of any April since 1907. Furthermore, the aggregate receipts of live stock at these seven markets during the four months of the present year were greater by far than during the same four months of any year during the last decade; the receipts of April, as well as those of March and February, having however been somewhat less than those of January which were unusually large. The receipts in April, 1912, which include, cattle, calves, hogs, sheep, horses and mules were 2,228,900 head, a gain of over 24 per cent when compared with 1,792,339 head received in April, 1911, and of nearly 50 per cent when compared with 1,484,900 head received in April, 1910. The total receipts at these markets during the four months of the present year were 15,122,000 head, an increase of 12 1/2 per cent over the receipts during the same period in 1911, and 10 per cent over those in 1910.

Cattle and Calves. The receipts of cattle and calves at these markets in April, 1912, 677,622 head, show a very slight increase when compared with the April receipts of the two preceding years. The receipts of cattle and calves for the four months of the present year, however, 2,428,618 head, show a slight decline when compared with the receipts during the same period in previous years. The April, 1912, receipts of cattle show an increase in Chicago, St. Joseph, St. Paul and Sioux City and a decrease in Kansas City, St. Louis and Omaha, when compared with the receipts in April, 1911.

Hogs. While the number of hogs received in the seven principal markets show a steady decline since January, 1912, the receipts in April of this year, as well as the aggregate receipts during the four months of the present year, show a considerable increase over the receipts during similar periods in recent years. The April, 1912, receipts being the largest of any April during the last decade. Thus, the number of hogs received in April was 1,706,917 head in 1912, as compared with 1,698,723 head in April, 1911, and 1,692,368 head in April, 1910. Chicago, Omaha, St. Joseph, St. Paul and Sioux City show an increase, while Kansas City and St. Louis show a decrease in April, 1912, when compared with April, 1911.

Sheep. The number of sheep received at the seven principal western markets in April, 1912, 506,578 head, is greater than the number received in any April during the last decade. Likewise, the receipts during the four months of the present year were greater than the receipts during similar periods in recent years. The increase in the April, 1912, receipts over those of April, 1911, was most marked in Chicago and Omaha. Kansas City reported a slight increase, while St. Joseph, St. Paul and Sioux City report a decrease in the receipts of sheep at those markets.

The April receipts of horses and mules at the seven principal western markets, 42,892 head, were greater than the April receipts for a number of years, and the general trend in the receipts of horses and mules in recent years has been steadily upward. All but one of these markets, Sioux City, show an increase in April, 1912, as compared with the same month the preceding year. The number of loaded live stock cars received at the seven markets in April, 1912, was 12,229, compared with 12,321 in April, 1911, and 12,181 in April, 1910.

Live Stock at Atlantic Ports. The receipts of meat live stock at the four leading Atlantic seaport cities of Boston, New York, Philadelphia and Baltimore, during April, 1912, 94,040 head, show an increase over the April receipts for a number of years past. Likewise, the receipts at these ports during the first four months of the present year were exceptionally large. The April receipts show a decline in Boston and an increase in each of the three other ports, when compared with the receipts in April, 1911. In the comparison of cattle and hog receipts show an increase while the receipts of calves and sheep show a decrease. The total receipts of meat live stock in April, 1912, were: Boston, 117,677 head; New York, 27,208 head; Philadelphia, 90,597 head; Baltimore, 44,448 head.

RAIN MAKERS NAME THE DAY Auto to Be Bought for Mayor Dahlman

Mayor Dahlman will be riding in a forty-horsepower, seven passenger touring car before the first three months of life for the commission plan in the city. By resolution passed yesterday the council gave the mayor permission to advertise for an automobile, to be shown and if convinced invest. Mayor Dahlman will secure the money for the automobile from a wheel tax to be levied later. Details of the tax have not been worked out, but a small tax will be levied on every vehicle in the city running on wheels. The mayor's fund is too frail to stand a check big enough to buy a touring car.
