**LUDWIG PIANOS**  
and  
**PLAYER PIANOS**

Owe their world-wide distinction to a quality of merit and musical refinement possible only to the employment of the best materials in the creation of instruments of the highest class.

**LUDWIG PIANOS** are recognized as unsurpassed for sympathetic tone quality and power, great durability and style unmatched. Only the finest woods are used in the cases, which are made from exclusive Ludwig designs.

**LUDWIG PLAYER PIANOS** surpass all others in ease of operation and expression. The individual unit action plays perfectly and repeats with great freedom. The playing of this instrument is equal to that of the most trained pianist and its effects surpass those of the greatest artist. The patented improvements contained in the Ludwig Player-Piano are essential to the perfect rendition of the better class of music.

See the Ludwig—hear the Ludwig—examine carefully into its merits. You'll be glad you took the trouble.

Everyone Can Play  
**ANGELUS**  
Player Pianos

The New 88 Note  
**ANGELUS PLAYER PIANO**

Either in the usual manner from the keyboard or by means of the perforated music rolls.

The Angelus is the product of three generations of inventive genius, mechanical ability and musical talent. The Angelus instruments of today are the results of years of experience and success. Their fame is international and they have received the endorsement of the highest musical authorities.

Angelus Player Pianos only have the famous phrasing lever which gives absolute control of tempo, enabling the player-pianist to accelerate or retard at will, thus instilling into the music his own individuality, and the wonderful graduating melodant by which the melody is brought out clear and distinct above the accompaniment which is properly subordinated.

Artstyle Music Rolls which are carefully edited by authoritative musicians, provide in one single line of characters a simple but complete guide to an interpretation in accordance with the composer's ideas.

**EMERSON ANGELUS**  
The well known and sweet toned Emerson piano in which an Angelus is incorporated.

Made by

The  
**Greatness**  
of

The  
**EVERETT PIANO.**

The **EVERETT** is not great as the result of extensive and costly "advertising campaigns"—not great because of having been "copied from" or "built on the same lines"

as those of some other distinguished make—neither has **EVERETT greatness** been attained at the expense of any other such maker's reputation.

The **EVERETT** is recognized as "one of the three great pianos of the world," simply because of the transcendent beauty of its tone—distinctively individual construction and supreme durability of both.

In fact, the **greatness** of the **EVERETT PIANO** has been attained only after years and years of determined effort to produce a Piano the superior merits of which would **COMPEL** recognition as a truly artistic instrument of the highest type.

Such is the **EVERETT PIANO** of today! Substantiation of Everett greatness is found not alone in the unqualified endorsements of the world's greatest artists—but also in the unstinted, enthusiastic praise that comes spontaneously from the many thousand fortunate owners of these unexcelled, if not really unequalled, instruments.

Is not such a beautiful instrument entirely worthy of your most earnest consideration?
