CHICAGO GRAIN AND PROVISIONS Features of the Trading and Closing

Prices on Board of Trade. CHICAGO, June 5.—It was a typical weather market today in wheat, with the weather the wrong sort for the bulls. More or less rain fell west of the Missouri river and had a depressing effect, making the close nervous, ic to 1½ @1½c under last night. Latest trading left corn ½c to ½6½c lower, oats ½c up to ½c decline and provisions 7½@12½c advance. Advices that the rains had become come general in Kansas and Nebraska caused early buyers and other longs to offer with considerable freedom. The course of prices then pursued an irregular downward track.

irregular downward track.
Estimates putting the condition of winter wheat at 7.1 per cent before the drouth damage in Kansas and Nebraska, a gain of 1.2 per cent as compared with May 1, had some influence with the bears. So also did the smallness of the demand for cash delivery. September ranged from \$1.05\(\frac{1}{2}\) to \$1.05\(\frac{1}{2}\), with last sales just ic net lower at \$1.05\(\frac{1}{2}\). Unit to 74\(\frac{1}{2}\), closing easy at 73\(\frac{1}{2}\), c, a loss of \(\frac{1}{2}\) c from last night. Cash grades were firm. No. 2 yellow, 76\(\frac{1}{2}\)70.

NEW YORK STOCK MARKET Prices Manifest Further Tendency to

Harden. DEALINGS IN BIGGER VOLUME

Advices from London Suggest Expiration of Month May Disclose Awkward Situations in Continental Capitals.

NEW YORK, June 5.-Stocks manifested a further tendency to harden to-day, particularly in the anthracite and copper divisions. eDalings, paipably of professional origin, were in larger volume than on the previous day and as the session advanced comprehended various standard issues, with the usual erratic movement in the specialties. The close was strong with a large percentage of substantial gains.

Aside from another large issue of April railway reports and a highly optimistic interview by an acknowledged market leader, the day was devoid of Advices from London suggest that ex-

piration of the month may disclose an awkward situation at more than one continental capital and precautions to meet emergencies are being taken here. Berlin was again in negotiation with American bankers for additional credits to meet the midyear strain, but so far as could be learned few large loans were effected. The greater firmness of the industrial

stocks and metal issues was directly traceable to the encouraging reviews with intimations that another and more general rise in prices of finished steel and non may soon be announced. It is expected the next producers' statement will reveal a large decrease in the supply of copper.

increased ease was the feature of the ocal money market. Sixty-day loans were nominally quoted at 3 per cent unchanged from yesterday, but some loans were nade at 24, which is virtually the call oan rate. Banks here have reduced their cash losses to the sub-treasury with every indication of a further reduction on he week.

The Great Northern railway increased ts net revenues for April by \$445,000 and Norfolk & Western by \$346,000, while the Minneapolis, St. Paul & Saulte Ste Marie gained \$327,000. The St. Louis & San Francisco system fell behind by \$88,000 and Chicago & Alton \$154,000. Bonds were steady on a good distribution of issues. Total sales, par value, amounted to \$2,047,000. The trade in stock cattle and feeders

The trade in stock cattle and feeders continues very limited. Cattle of that description are scarce and high accordingly, while the demand from the country is very slack.

Quotations on cattle: Good to choice beef steers, \$8.00@9.10; fair to good beef steers, \$1.002.00; common to fair beef steers, \$5.000.50; good to choice cows and heifers, \$6.7507.75; good to choice cows, \$3.0005.5; fair to good cows, \$3.0005.00; good to choice stockers and feeders, \$4.7505.25; common to fair stockers and feeders,

HOGS—All of Monday's advance in hogs was lost this morning on a market dominated by bearish advices from the east. Prices ruled 5@10c lower, leaving the trade in much the same condition that it was at last week's close. Packing demand was reasonably active at the decline, however, and it required only two or three hours of bus ness to make a complete clearance of a very respectable supply.

picto clearance of a very respectable supply.

The run was estimated at 11,500 head and quality of offerings indicated anything but a scarcity of hogs in the country. Plenty of attractive butcher weights arrived and there was also a fair number of smooth larg animals included in the receipts. Slippers favored the better kinds of stock in the 250-pound class, buying fully 10 per cent of the entire crop on outside orders.

Best heavy hogs on sale brought \$7.40, as compared with yesterday's top of \$7.45, while buik showed a tendency to spread out within the \$7.20,27.35 spread. Becon loads had to be extra good in order to bring \$7.20 and there was some little business in common lights reported little business in common lights reported around \$7.19@7.15.

SHEEP-Another "summer day's" mar ket for sheep and lambs existed this morning, the demand proving quiet with the supply still limted and seasonably mixed. Shorn lambs that were rather common made up the bulk of the run, but the display involved numerous odds common made up the bulk of the run, but the display involved numerous odds and ends, suggesting final sulpments from corn belt districts. Packers are not very anxious for this class of stock, and while inquiry appeared to be more active than on yesterday, the trade in general lacked ust developed, but the tendency to values was lower, most salesmen unloading at figures weak to about 15 per cent off.

Receipts amounted to about 3,500 head and included two loads of pretty good grass sheep from Oregon. They were sorted up, the ewes bringing \$5.00, the wethers \$5.50 and the yearlings, \$5.00, Shorn lambs, grain fed, sold largely within \$7.00@7.75, indicating an extreme quotation of \$8.00 for something strictly high-grade in this line. There were notes high-grade in this line. There were no California spring lambs on sale, and fed sheep were also very scarce, usually selling in small bunches in hit-and-miss

Packers bought the entire crep, as the feeder demand has practically vanished. Only a single deck of stock has been sent back into the country thus far this Quotations on Shorn Sheep and Lambs —Lambs; Good to choice, \$7.35@8.00; fair to good, \$7.00@7.35. Yearlings, \$5.75@6.50. Wethers, \$5.15@5.85. Ewes, \$4.75@5.40.

PARDON OF JONES EXPLAINED

Improper Methods of Government Prosecutors Charged.

OREGON LAND FRAUD CASES UP

Applications for Clemency of President Taft Made in Behalf of Two More Men Convicted Six Years Ago.

WASHINGTON, June 5.- The causes which controlled President Taft in granting an unconditional pardon to Willard N. Jones, convicted in the famous Oregon land fraud cases, became known today and it was learned, that based upon the same charges of unfair and improper methods by the United States government's prosecution of the alleged frauds, which stirred the country six years ago, applications for the presidential pardon of two other men are being considered by the Department of Justice.

Franklin P. Mays and Hamilton H. Hendricks are seeking pardons on the ground that they likewise were denied their constitutional rights. Mays, indicted with the late Senator Mitchell and former Representative Herriman, was convicted of conspiracy and sentenced to four months imprisonment and to pay a fine of \$10,000. Hendricks was convicted of subornation of perjury and sentenced to thirteen months and to pay a fine of

Consideration of their appeals for executive clemency will be based upon the investigation which resulted in Jones' pardon. These cases have not yet reached the president.

"The Oregon land fraud cases were conducted almost wholly along political lines" and "a veritable reign of terror existed" were the charges submitted to Attorney General Wickersham in a brief by Henry H. Schwartz, former chief of the field division of the general land office, and James S. Smith, attorneys for Jones in the pardon proceedings.

Burns' Methods Attacked. The methods of Detective William J. Burns, who developed the government's case, and others of the prosecution were severely attacked in the brief. The whole jury box list of more than 500 names, from which the grand and petit juries were drawn, was determined and selected, it was alleged, by the government prosecutors and detectives and the political enemies and assistants of Jones along political lines "with the purpose and result of securing men who were prejudiced and who would convict."

The brief also charges that witnesses were intimidated into giving false testimony against Jones under threat of indictments; that witnesses were so threatened by a member of the grand jury and by government detectives in the presence of their families, and that in various cases then being tried, numerous persons were indicted and compelled to give evidence against other defendants, not true in fact, and thereafter such indictments were dismissed.
