GRAIN AND PRODUCE MARKET

Volume of Business in Wheat Trade Tes 1d: American mixed new kiln dried, quiet, 6s 114d; futures, steady; July, 3s 34d; September, 5s 114d. Continues to Be Light.

Strongest Argument on the Bull Side is the Formidable Cash Situation and the Renewal of Demands.

OMAHA, May 8, 1912. Volume of business in the wheat trade was very light, taking in the very builtsh news extending from Ohio to western news extending from Ohio to western Kansas and Nebraska. News is serious enough to advance the market, but traders were not inclined to make new commitments previous to the Sunday holiday and the government

fluctuations being very narrow. The strongest argument on the bull side is the strong cash situation and renewal of eastern demand, and the continued cool weather. While reaction will doubtless white, 60 1266 12. occur, the corn market is in a strong po-

Wheat ruled very dull but slightly lower on favorable weather outlook. Trade was light and narrow pending the Sunday holiday. Cash wheat was unchanged was dull and unchanged, with

trade light and featureless. Cash corn was 1/2c higher to 1/2c lower today.

Primary wheat receipts were 239,000 bu. and shipments were 244,000 bu., against receipts last year of 324,000 bu. and ship-ments of 517,000 bu. Primary corn receipts were 1,002,000 bu.

and shipments were 424,000 bu., against receipts last year of 914,000 bu. and shipments of 281,000 bu. 231,000 bu.

Liverpool closed 1/4d higher to 1/4d lower on wheat and 1/4d higher on corn.

The following cash sales were reported:

CHICAGO, June 8 .- Wheat cased off a bit today on account of continued showers in the west. At the end of the session the market was 1/3c to 1/3c under last night. Corn finished 1-16c to 1/3c higher, oats with a gain of 1/3c to 1/3c and provisions 21/2c to 121/2c increase in cost. eek-end evening up and the fact that

Week-end evening up and the fact that the government crop report comes out after the close Monday combined to keep trading in wheat at a minimum. Reports of rain having fallen in small quantities but well distributed throughout Nebraska and Kansas formed the chief influence. There was also a forecast that weather conditions would remain unsettled in the two states. Bears, however, were restrained by fresh testimony from the total crops had lost considerable from the total yield that recently was regarded as nearly assured.

All during the day longs unloaded on the bulges. What prevented any material

the bulges. What prevented any material decline, though, was the evidence that a number of professional speculators were buying on all the breaks. September ranged from \$1.05\2@1.05\% to \$1.06\4, with last sales \$1.05%(2.105%, a loss of 4c net. The corn market was firm. July fluctuated from 74%c to 75%c, closing steady %c up at 74%c. Cash grades were in fair demand. No. 2 yellow, 76%, @77%c.

Strength of oats grew out of the idea that all of the local stock would be sold before the middle of next week. Ship-

before the middle of next week. Shipments from here were shown to be greatly exceeding the receipts. July ranged between 52c and 51½c, with the close 51½@ 51¾c, a rise of ½c from last night.

There was no pressure to sell in the provisions list. Accordingly quotations were put on up grade. When trading ceased pork had become dearer by 10c to were put on up grade. When trading ceased pork had become dearer by 10c to

July, 7s 9d; October, 7s 64d; December, NEW YORK STOCK MARKET

Dullness Turns to Heaviness in Cer-

House Banks Shows Financial Institutions Gotting Ready

regularity, which later turned to heavi-ness in certain issues, dominated the two hours' of business on the Stock exchange today. The usual market leaders were almost entirely neglected. They fluctbefore noon, when selling of Union Pa-cific, Rock Island, Norfolk & Western, trials created a weak close. Crop advices today did not disclose any existing almost everywhere, except in some of the central and middle west states.

London's markets were weak pending the outcome of next week's conference with the dock strike. That our banks and other financial in-stitutions are getting ready for the midyear requirements was shown in the weekly statement of the clearing house banks. It was clear from the returns made by the banks and trust companies not in the clearing house, that the burden had been shifted from these institutions to the clearing house.

Bonds were dull, with the price movement somewhat restricted. Total sales,

Number of sales and today were as follows:

CATTLE-There were no cattle here today to make a market, not a single carload being received. For the week receipts foot up 10,791 head, being about 2,300 head smaller than last week and over 5,000 head smaller than a year ago. To make another comparison, the receipts this week have been the smallest of any week since the first week in April, and week since the first week in April, and with that single exception the smallest since the beginning of the year. The arrivals have consisted largely of beef steers, with a moderate sprinkling of cows and heifers, and with very few stock or feeding cattle.

Conditions governing the trade on killing cattle have been decidedly unfavorable to the selling interests. The public demonstrations in large eastern consumdemonstrations in large eastern consuming centers against prevailing high prices for meat have caused an enormous shrinkage in the consumption of beef medium and even pretty good kinds, are safely 10gaisc lower at this point, and in some cases possibly a good deal more than that. Eastern markets have suffered still more severely.

The best grades of dry lot cows and

heifers have also remained very nearly stationary, but the medium to common grades are 256350 lower than last week, as it is the cheaper grades of beef that have suffered the most through the anti-high price agitation in the east. Very few stock cattle or feeders have been coming to market this week, and in consequence of the extremely light or-ferings prices have shown little change, ferings prices have shown little change, being generally about the same as a week ago. On the other hand, as usual at this season of the year, the demand has been very stack, so that the receipts, in spite of their being so light, have been ample to supply the demands of buyers. Quotations on cattle: Good to choice beef steers, \$8.00@3.00; fair to good beef steers, \$7.50@3.00; common to fair beef steers, \$6.50@7.50; good to choice heifers, \$6.55@7.50; good to choice cows, \$5.55@6.75; fair to good cows, \$4.50@5.65; common to fair cows, \$4.50@4.50; good to choice stock-

common lights and smooth heavies sell-ing about 30c apart. Compared with a week ago, prices

show a general advance of fully 20c, the higher trend being caused by smaller receipts at most of the leading markets. Locally, supplies snow only a moderate decrease, the week's total comparing very lavorably with relatively large runs of recent weeks. The demand, both from both packers and snippers, has been active and broad throughout. Representative sales:

The two loads were of the same feeding as the \$8.00 lambs yesterday and brought the same price. During the week the main feature the trade has been a small and rather trashy supply. About 17,000 head have been received, including a trainload of good California spring lambs that sold at \$8.85@9.25 on Monday. Offerings on most days consisted largely of clean-up

singles, the proportion of common stuff proving excessively large.

Naturally the packing demand has been very slack throughout and prices have suffered more or less. Strictly good

shorn lambs are now selling about 35c under values at last week's close, while odds and ends finished poorly at levels all of 50005c lower. Off-grades have been unpopular for some time past and the slumpy condition of eastern dressed mutton trade has only served to strengthen this prejudice

Excepting the string of California lambs on Monday and a two-car shipment of Oregon sheep at mid-week, no range stuff has been received lately, all advices suggesting late shipments because of the backward spring. Some data Idaho lambs and sheep are expected dur-ing the next week or two, but the run from other sections of the grass country will probably show up two or three weeks later than usual. Until this west thre ern crop begins to move, the feeder trade at this point cannot amount to much. Only one or two loads were pur chased on country orders this week, pack ers taking the big bulk of the supply.

Quotations on shorn sieep and lambs:
Lambs, good to choice, \$7.50\$\overline{c}\$8.50\$; lambs,
fair to good, \$7.00\$\overline{c}\$7.50\$\overline{c}\$8.75\$\ov

DUN'S REVIEW OF TRADE

Quickened Movement of Business Shown by Statistics.

FAILURES LIST UNFAVORABLE

Advices from Iron and Steel Trade Constitute Most Encouraging Feature of Industrial Sit-

nation of Country. NEW YORK, June 8.-R. G. Dun d Co.'s Weekly Review of Trade today savs:

The quickened movement of trade is learly revealed by the statistics of bank clearings, railroad earnings and pig iron production. On the other hand, in num-ber of defaults and amount of liabilities the May record of commercial failures, while better as compared with previous months of this year, was unfavorable as compared with corresponding months in most of the preceding years.

The advices from the iron and steel trade constitute the most encouraging feature of the situation. There was remarkable production of pig iron during May and with the prospect of adequate crops, the reasonable outlook is for a high water mark activity this year is this great basic industry with an advance in prices not unlikely. Undoubtedly business sentiment and business enter-prise are still held in check by solicitude regarding the growing crops. A shortage of labor is reported in the Connellsville coke district.

The primary markets for dry goods lobbers and retailers are fairly active, improved weather conditions having as-sisted distribution and stimulated the demand for goods for immediate consump-tion. Cotton goods at first hands are rather dull. More wash goods and summer merchandise are going into con-sumption and export business is quiet. Demand for All Kinds of Stock is dull, but others in fair demand; duck holds steady and colored cottons are firm. The cotton yarn market are quiet and prices easier, but worsted spinners are busy on sample lines for a new season. Fall orders are coming in slowly for broad silks, but new lines of the sliks are attracting much attention. Trade in seasonable footwear continues to improve. Pronounced strength con-tinues in all descriptions of sole and upper leather, but the market is generally inactive.

BRADSTREET'S TRADE REVIEW

Better Weather and Crop Progress Cause Expansion. NEW YORK, June 8.-Bradstreet's today says:

centers and less so in the country dis-tricts where farmers are still wrestling with the obstacles imposed by an almost uniformly late planting and growing

Dry goods and light summer wearing apparel are feeling the stimulus of the weather, and better business is being enjoyed by jobbers, who also find an additional impetus to trade in semi-annual

mark-down sales to close out stocks of summer goods.

There is a fair trade in fall goods, but this is governed by a studied con-servatism bred of political uncertainty and desire for a clearer view of crop probabilities. The industries are in good shape. Iron and steel report close to maximum production, though new de-mand is not so marked. The building trades show a good in rease for May and the five months, and the coal trade having resumed work, demand and distribution are better. Coke is easier, 67.80.
SHEEP AND LAMBS—Receipts, 700 head; market steady; native muttons, \$1.00@5.25; lambs, \$6.00@9.25. the curious cross currents intherto locus. Some lines of goods are closely sold up. Others, such as heavy yarns and wide prints, are softer. Still the general report from nearly ni. lines a that stocks are not in any sense burdensome.

Business failures in the United States for the week ending June 6 were 197 against 231 last week, 232 in the like week of 1911, 189 in 1910, 187 in 1909 and 553 in 1908. Business failures in Canada for the week ending with Thursday num-ber nineteen, which compares with seven-teen last week and twenty-three in the like week of 1911.
