

ENTIRE WEST GETS SOAKING

Best Rain in Five Years Visits the Grain Belt.

DOWNPOUR IS QUITE GENERAL

Starts in Saturday and Continues All of Sunday and in Some Places Continued to Soak the Ground Monday.

What railroad and grain men term the best rain in five years, has been general over all of Nebraska and Kansas, except a narrow strip along the Missouri river, the eastern portion of Colorado and Wyoming and most of South Dakota for forty-eight hours, ceasing yesterday morning.

The general rain that set in Saturday and continued till Monday morning came down gently and steadily, the precipitation being from one to four inches. Along the river counties of Nebraska, with the exception of the southeast corner, it was a slow drizzle, amounting to little more than a trace, but from a line twenty to thirty miles back it continued all the way to the mountains.

Along the St. Joe & Grand Island branch of the Union Pacific, from Grand Island, all the way through to the southern terminus, it rained for more than thirty-six hours without a break. The minimum precipitation along the line was one inch, but there were scores of places and large areas where the rainfall was two inches, with fully four inches in the vicinity of Concordia, Kan.

On the Union Pacific's main line to the west, the rain came east as far as Fremont and was heavy all the way through the state, being from two to three inches most of the distance between Columbus and North Platte, with more than an inch from there on to Cheyenne. The northern branches up to St. Paul, Callaway and Ord got from one to two and one-half inches, while over all the Kansas lines far out into Colorado, the rain fell was much heavier and was still falling at a late hour yesterday. Out around Ellis, Cheyenne Wells and beyond, there was from two to three inches, all of which soaked into the ground.

Every portion of the Burlington system in Nebraska and Kansas was given a thorough soaking, though the rain was lightest on the Omaha division and the line from Ashland up to St. Louis City. Some of the measurements returned by agents follow:

Some Heavy Rain. Orleans, 2; Superior, Edgar, Beatrice, Greeley Center, Fairmont, Sutton, Sargent, Clay Center, 2 inches; McCook, Minden, Holdrege, Republican, Curtis, 2 1/2; Red Cloud, 3 1/2; Harvard, Hastings, Kearney, Arapahoe, Benkelman, Wilber, Chester and Strang, 1 1/2 inches. Dozens of stations reported an inch and hardly any less than from one-half to three-fourths of an inch.

On the Northwestern system there was two to two and one-half inches of rain all the way south across the state from Fremont to Superior, with from an inch to an inch and one-half from Fremont northwest to O'Neill, the last named place being about the west limit of the heavy rain, though there were showers and a light and steady drizzle for several hours all the way west to Valentine.

The Bonesteel country of the Northwestern as far west as Winner, S. D., was visited by a heavy rain Saturday and another Sunday, the precipitation for the two days in most places exceeding an inch.

SACRED HEART JUNIOR SCHOOL GIVES PROGRAM

The junior school of the Sacred Heart will give its closing exercises Tuesday night at the Lyceum hall, Twenty-second and Locust streets, with the following program: Selection—Orchestra. John Gleason.

EVER HEAR OF PICKLED FEET?

SOUNDS FUNNY, DOESN'T IT? BUT IT'S SERIOUS—DANGEROUS—DISEASING—ASTROUS—YOURS MAY BE PICKLED—HOW DO YOU KNOW?

"Pickled Feet!" That's a NEW one—on YOU. Pickled feet means DANGER—life-long misery for their poor, suffering owners. Pickled feet are feet that have been, and are now being, soaked and washed with various foot remedies and ointments. Reader—you with the blistered, tired, over-worked feet—do you know that if you bathe your feet with poisonous, astringent, so-called medicinal foot washes you are "pickling" your feet. Then for your own sake, STOP IT! Stop it at ONCE! Those remedies, though they relieve pain, make your feet ten times worse each time. Your feet feel like fire for ten hours after bathing with the "Pickles" wears off and, Oh, my! but your feet do burn, ache, suffer!

There is only one really safe, harmless, sure relief for suffering, blistered, burning, itchy feet and bunions—and that ONE relief is SANATITE. Ever hear of SANATITE? Then let me tell you. The best SANATITE is different from all other foot remedies—it's in a dry form, in a powder puff. Simply dust it on the feet morning, noon, and night, and the day will be happy and bright for you. Bear this in mind: There's no tussling or fussing with water and foot bathing with SANATITE. It's an instant's work—just DUST it on.

SANATITE—through its wondrous antiseptic healing qualities—takes the sting out of sore, tired, burning, blistered, itching feet—feet with corns and bunions—feet that have been over-worked. And, Reader, it never harms themselves and ANTI-SEPTIC. If your feet perspire, dust them with SANATITE—it deodorizes—refreshes—but DOES NOT stop perspiration. It gives the same pleasing results when applied elsewhere on the body, and is used constantly by refined men and women. SANATITE is the greatest healer and pain destroyer ever discovered—it has started and won the recommendation of physicians and nurses—it will do likewise with YOU. Always remember this, Reader: If your feet suffer, the BEST of your body suffers. Neglected sore feet cause bodily injuries that may ruin your health for life.

Now go to your DRUGGIST and get a 25c or 50c package of SANATITE, and dust it on your feet at once. If your drugist cannot supply you, SEND 25c for large package, postpaid, direct to its makers—THE GERMICIDE CO., (Also Makers of Deaver Stud), E264 16th Street, Denver, Colo.

Omaha's Most Exclusive Garment Store

Orkin Brothers

Omaha's Most Exclusive Garment Store

WINTER WHEAT LOOKS BAD

So Says Report Given Out Before the Rain of Sunday.

SPRING WHEAT IS EXCELLENT

Corn is Also Reported to Be in Good Condition—All Crops Are Benefited by the Recent Splendid Rain.

The Burlington's crop report for the week ending June 8 was given out this morning, and while more pessimistic than that of one week ago, it does not take into consideration the heavy rains of Saturday, which grain men say will do much to change all crop conditions. Relative to winter wheat, the report says that on the Kansas branches of the McCook division the outlook is for not more than a one-fourth crop at best. On the Wyome division prospects are good for a fair crop. The condition, as compared with the previous reports are: Division—Last Week. Previous Week. Omaha 53 59 Lincoln 75 85 Wymore 79 78 McCook 49 72

No figures are given on spring wheat, oats or barley, but the damage by the dry weather is placed at 20 per cent.

Corn is reported in fairly good condition, but it is asserted that its growth has been held back by the cold weather and that in many localities it has been greatly damaged by the ravages of the cut worms.

Frank Fowler of the Nye, Schneider, Fowler Elevator company in his report of Saturday night stated that while the winter wheat had been considerably damaged by dry weather a timely and soaking rain would bring it up so that an average might be looked for. Such a rain as he spoke of was general over the entire winter wheat belt immediately after his report was compiled.

At the time of summarizing on winter wheat, Mr. Fowler spoke of spring wheat and corn in this manner: "Spring wheat still continues in excellent condition, as do oats. Corn is in good shape."

TEACHERS PREPARE FOR THEIR SUMMER VACATIONS

Miss Minnie R. Wilson, third grade teacher at Central school, and Miss Sophia R. Elsassner, teacher of the fourth grade at Vinton, have left for Europe, where they will spend the summer vacation. Other teachers are preparing to leave as soon as school closes, which will be with the close of the week, although no classes will hold Thursday or Friday. Lothrop students were off on vacation yesterday. They spent the time in trolley rides, visiting Fairmont and other parks.

PERSONAL PARAGRAPHS

Thomas Kerl, formerly an Omaha attorney at Coeur d'Alene, is visiting in the city.

General Manager Scott of the Union Pacific has gone to New York to attend a meeting of the American Railway association, of which he is a member. It is said that Mr. Scott is authorized to take up and act in connection with the proposed extension of a number of the Oregon Short Line branches that are contemplated this season.

Lowest Bidder Will Get Contract for Water Meters

Bids for water meters, to be installed at the plant and in the homes of consumers, will be opened at the meeting of the water board Wednesday. Several proposals have been received. The lowest bid will be accepted, it is understood. Members of the board are inspecting the plant this week. They will check all visible assets and make plans for taking over the property the first of the month. "We will check the present force intact," said P. C. Heafey, "unless we find incompetent employees."

World Record Made in Realty Transfer

A man stuck his head in the door of the McCague Investment company's office and shouted to G. S. Benewa, "How much do you want for lot 2, block 2, Plainview addition?"

Benewa looked up and settled himself back in his chair for a half day's confab. He invited the visitor to sit down and named the price of the lot, \$50.

Six words followed: "Will you take \$500 cash?"

"Yes."

The deal was closed.

C. N. Moore was the buyer. He signed the deed to the lot at Twenty-first and Sprague streets over to his wife, Bertha M. Moore.

As the man walked out an audible gasp filled the investment company's office. It had been done in 0:01:00, flat.

Capt. Savage's Place Vacant for a Time

Commissioner Ryder will not make an appointment to fill the vacancy caused by the death of Captain John H. Savage, chief of detectives, but will expect the captains of police to do the work of his department for the time being. "I intend to go slow in this case," said Mr. Ryder. "There is nobody now in line for the position."

PENMANSHIP STUDENTS TO RECEIVE CERTIFICATES

A total of eighty-five penmanship students of the Omaha high school will receive certificates of proficiency in writing Wednesday noon. Twenty-six of the number are boys and fifty-nine are girls. A total of 255 pupils are enrolled in the writing class and the eighty-five certificate students represent one-third of that number.

FEDERAL CRIMINAL DOCKET IS ALMOST CLEANED UP

The criminal docket in United States district court was about wiped clean yesterday when the case against Eugene E. Francis for defrauding the mails went to the jury.

BEEF PRICES WILL TUMBLE

This is the Belief of C. W. Lockard of Erickson.

FEEDERS ARE DUE ON MARKET

He Says that it is Hard to Assign Any Reason for the Present So-Called Prohibitive Prices.

"Feeders will be coming in early this season and the market will tumble. Some shipments of grass fed cattle will arrive at the yards before the first of the month," predicts C. W. Lockard of Erickson, Wheeler county, Nebraska, at the Merchants.

"Considerable cattle, fattened during the winter, have already been shipped this spring and I think they will keep coming in pretty strong. But as soon as feeders drop in, there should be a

High School Annual Off the Press Soon

The 1912 year book or "annual" of the Omaha High School Registrar will be off the press Wednesday and will be distributed to the students at noon on that day.

Individual pictures of each member of the senior class are the features of the book. The various student activities will each have a separate department and numerous cartoons and a "squirrels" department will be included.

Baltimore & Ohio Railroad

Liberal stop-over privileges. Consult nearest ticket agent for particulars or address W. A. Preston, T. P. A., or B. N. Austin, Chicago.

A Shooting Scrape

with both parties wounded, demands Buckle's Arnica Salve. Heals wounds, sores, burns, boils, cuts or piles. Only 25c. For sale by Beaton Drug Co.

Cool Weather Helps.

"The cool weather has been a great help to hay and small grain. Farmers are cutting their first crop of alfalfa and winter wheat is heading fine. But best of all is the hay which has been helped out by the recent rains and cool weather. Cattle are going right after it and are picking up weight strong. The attending cool weather and rains of the last two weeks have been of inestimable value to the cattlemen as well as the planter of small grain."

No Home in This City Need Have a Dirty, Discolored, Water-Closet Bowl

The household duty that was always the most unpleasant is now made easy. Sani-Flush, a powdered chemical compound, cleans water-closet bowls without scrubbing or touching the bowl with the hands. No matter how badly discolored, it will quickly make the bowl as white as new. It won't injure the bowl or plumbing—nor is it dangerous to handle, like the acids so often used.

Sani-Flush Cleans Water-Closet Bowls Quick, Easy, Sanitary

Get a can to-day—it will last a long time and solve an unpleasant but necessary household duty.

20 cents a can at your grocer's

THE HYGIENIC PRODUCTS CO., Canton, O.

Motorists, Attention

Cylinder troubles usually are due to carbon deposit. Trace back the carbon deposit, and, if you do not find the fault in your mixture, you will probably find it in your lubricating oil.

POLARINE OIL practically eliminates carbon deposits. It saves you from fouled spark plugs and valves, scored cylinders, etc. It keeps proper lubricating body at high temperatures. It feeds freely right down to zero. The Polarine Brand covers Polarine Oil; Polarine Transmission Lubricants (in three consistencies); Polarine Fibre Grease and Polarine Cup Grease.
