ried her on their shoulders to the platform.

It was forty-five minutes since the racket began.

At last Chairman Root began to pound for order.

Thomas H. Devine of Colorado spoke against the Hadley motion.

Root insists on Order.

Chairman Root at last threatened an exceptionally noisy member of the Texas delegation with removal from the hall. Comparative quiet ensued.

Devine evoked both friendly and hostile response. The hall was in an uproar most of the time he was speaking.

Devine bitterly assailed the political methods of National Committeeman Cecil Lyon of Texas. He concluded amid much disturbance at 2:32 p. m.

C. C. Littleton of Texas supported the Hadley motion. He argued for the regularity of the Roosevelt delegates. He denied Devine's charges and lauded Cecil Lyon.

Littleton said he was himself a Taft delegate and intended to vote for Taft. John D. Mackay of Michigan spoke in opposition to the Hadley motion.

dishonestly placed there by the action of the national committee, but if they fail to avail themselves of the opportunity thus afforded then the action of the convention will be binding on no honest man.

This speech was suppressed by Colonel Roosevelt's managers without his knowledge. When he learned of this fact tonight he gave peremptory orders that it should be given out for publication.

It is understood that one of the Roosevelt leaders this morning related to the convention hall the following incident: At a dinner given at the hotel, this was talked over at some length, and it was decided that temporarily, at least, the plan pursued by Mr. Roosevelt yesterday should be followed by means of the telephone.

Colonel Roosevelt has been supplied with a bunch of tickets admitting the bearer to a seat on the platform. Whence these tickets came was not given out.

Boy and Man Are Electrocutted

NEW YORK, June 19.—Ten-year-old Sammie Pellis climbed up a forty-foot high steel tower which supports electric wires at Brentwood, L. I., late yesterday as a stunt to show off before his comrades. After reaching the top his applauding playmates saw him grasp one of the wires. In an instant the current had twisted his little body over the entire string of wires and his clothing was set on fire.

George Williams, a farm hand who was working near by, climbed up and tried to pull the lad down by his dangling feet. Williams also received the electric current and both fell to the ground dead.

Hawaii's Vote for McGovern Explained by the Delegates

CHICAGO, June 19.—Hawaii's solid support of McGovern was one of the surprises of the vote on the temporary chairmanship of the republican national convention. Four of the six votes had been counted on by the Taft people and they were at a loss to account for the defection.

Last night it was said that the Hawaiians had voted against Senator Root in order to nullify the effect of the charge that the Taft people are depending on support on delegates from districts which represent no electoral votes.

It is claimed by the president's managers that the Hawaiians will be back in the fold when the test vote comes.

CHICAGO, June 19.—Samuel Gompers, president, and John B. Lennon, treasurer, of the American Federation arrived in Chicago last night and immediately began formulation of planks which they will submit to the proper committee for insertion in the republican platform.

Although Mr. Gompers said he would not discuss the proposed planks until they had been submitted it was said relief would be asked from certain provisions of the anti-trust law and the curbing of the power of federal judges in the issuance of injunctions in labor disputes. It was said also that prohibition would be asked on the shipment of prison-made goods from one state to another.

"I do not know when, or where, or even if we will be given a hearing," said Mr. Gompers last night. "All I know is that we will do our best to wind up our mission here as soon as possible and then go to Baltimore to present the same requests to the democratic convention."
