est run of the week to date and makes the total for the four days this week only 8,288 head. This is a falling off of almost 1,000 head, as compared with last as were offered generally met with quite ready sale and at very good season in the morning, practically everything in sight being sold before 10 o'clock. Among the offerings were a few heavy steers good enough to bring \$9.10, with a full load at \$9.06. The prices paid for all Linds were practically steady with yesterday.

In spite of the fact that Chicago yes terday and today was sending out re-ports of a break of 40000c for a week on the medium kinds of cows and heifers the market here on butcher stock was fully steady. The demand for fair re-celpts being so light it was impossible apparently for packers to shade prices had they been so disposed. There were no stock cattle or feeders

of any consequence in sight, but what few there were commanded steady prices. few there were commanded steady prices.
