

CROP INDICATIONS GREAT

Charles Lane Most Thorough Optimist After Trip Over State.

WHEAT CROP ALREADY MADE

Corn is Now in Excellent Condition and is Showing Effect of Recent Rains, Which Benefitted All Crops.

After having made an extended trip over the Nebraska lines and after having thoroughly investigated the reports of the agents, Charles J. Lane, general freight agent of the Union Pacific, believes that the Nebraska wheat crop will be fully up to the average of former years. He places the yield at 40,000,000 bushels and would not be surprised to see it reach 45,000,000.

The estimate of Mr. Lane is made after going into the conditions most thoroughly. He takes the position that the cool weather of the last two or three weeks has been ideal for the growth of the cereal and that since the rains set in, it has gained far more than it lost during the dry, windy and unfavorable weather of May.

All over the wheat growing section of Nebraska and Kansas Mr. Lane says that wheat has made wonderful progress and that in many localities where one month ago farmers considered the wheat crop a failure, it has come out to the extent that it will make an average crop. In other localities where not damaged, the yield will be along the bumper line. Everywhere the stand is excellent; the straw, though, carries long heads, which are filled to the very tips with plump berries.

Corn is Booming.

Corn, according to Mr. Lane, is making a good growth and did not lose a point during the intense weather of May as some supposed. The hot and dry weather of that month gave the seed a fair start and the warmth held all through the cool weather that was so beneficial to the wheat. Cut worms have injured some fields, but Mr. Lane's idea is that the damage that they have caused, has been greatly overestimated. With seasonable weather from now on, he looks for better than an average crop.

"Farmers of Nebraska," says Mr. Lane, "are in a far better condition than ever before. Everywhere they have gone into the dairy business on an extensive scale and the recent rains have put pasture in perfect condition. As a result, the output of cream is far above the normal and the product is bringing prices that is putting vast sums of money in circulation in the rural districts throughout the west."

The money from cream, says Mr. Lane, is not only taking care of current needs, but is supplying farmers with a large income that comes in as regularly as a salary that is paid at stated intervals to a man who works for wages. The dairy proposition, he says, has changed the condition of things so that farmers instead of having money twice annually, at periods when they market their grain and hogs, now receive it weekly, or as often as they take their cream to market.

Manufacturers to Entertain Retailers

Retail merchants who gave the use of their windows to the Manufacturers' association for window displays, are to be entertained at a big dinner at the Henshaw hotel next Thursday noon by the manufacturers.

It is expected that at least 300 men will gather for the noonday luncheon. A special program of speeches will be arranged and the retailers made to feel the gratitude of the manufacturers for their co-operation during the window display week.

At the meeting of the Manufacturers' association in the Commercial club rooms, A. L. Gale, president of the Ad club, made a talk, outlining an advertising campaign for Omaha made goods. It was decided by the manufacturers that Omaha made macaroni should be served once a week at the Commercial club. A report was made to the manufacturers that the Omaha trade mark has been placed upon one of the street sprinkling wagons. The trade marks are to be painted on all these wagons to remain indefinitely.

BENSON OWNERS PROTEST AGAINST RAISE IN TAXES

Alleged excessive valuation of Benson precinct realty for assessment purposes will be probed by a committee of the equalization board. Headed by James Walski, a committee of a dozen Benson property owners descended upon the board and made vigorous protest against the valuation. They claimed an increase of \$100,000 is preposterous and urged the board to grant a 50 per cent reduction. County Commissioner A. C. Hartie said he believed some reduction should be made, though he would not say it should be as much as 50 per cent.

Commissioner Hartie and County Clerk Frank Dewey, members of the equalization board, were made a committee to visit Benson, meet the Benson committee, and inspect the property. They will go to Benson this morning at 9 o'clock.

NEW MEMBER IS ADMITTED TO THE GRAIN EXCHANGE

F. G. Fendelman, member of the Mason-Gregg Grain company of Kansas City, has been admitted as a member of the Omaha Grain exchange. Offices have been established in the Brandeis building, where a general shipping and receiving business will be conducted. Fendelman has been in the grain and elevator business in Nebraska for many years. He will retain his interests in the Kansas City firm while conducting business here.

WOMAN'S CLUB OF R. M. S. RE-ELECTS ITS OFFICERS

Mrs. John Bittinger was re-elected president of the Woman's club of the railway mail service at the annual business meeting Wednesday afternoon. Mrs. J. G. Hart was re-elected vice president and Mrs. C. E. Prenton was re-elected recording secretary. New officers are: Mrs. W. F. East, corresponding secretary, and Mrs. Curtis Cook, treasurer.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhoea Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott of Temple, Ind. For sale by all dealers.
