

JONES HITS INTEMPERANCE

Chicago Lecturer Calls Liquor Traffic Menace of the Nation.

MISS MARGARET BROWN SPEAKS

Tells Omaha University Summer School Students of Value of Missionary Work for Young People.

An afternoon conference on "Missions in Sunday Schools" and an address in the evening by Jenkin Lloyd Jones of Chicago...

The mission conference was led by Miss Margaret Ellen Brown of Lincoln, general secretary of the Nebraska Sunday School association.

"We must begin while the child is young, when its mind can be easily impressed. Missions are an important part of the teachings of Christianity and we must look to the younger generations in the Sunday schools for our future missionaries," said Miss Brown.

Plays "Wide Open" Ideas. In the evening Mr. Jones took for his subject, "On the Firing Line in the Battle for Sobriety." He played popular ideas for "wide-open" cities.

"It is a menace to the body physical as well as it is a menace to the body mental," he said. "The temperance question is no longer a personal issue. It has become a national one. Intemperance is a public waste. Nothing has been gained by the liquor traffic financially, morally or otherwise. It is a menace that must be stamped out."

Mr. Jones speaks this evening on "International Peace." The Royal Blue Missionary society of the North Presbyterian church meets this afternoon at the university.

OMAHA MANAGER GOES TO WATERLOO ASSOCIATION

W. E. Lumry, assistant manager of the Parlin and Orendorf Plow company, has accepted the position as general manager of the Associated Manufacturers' company of Waterloo, manufacturers of gasolines engines and gasoline engine appliances.

Branches of the company have been established in Paris, Omaha, Columbus, O., Montreal, Canada and other large cities of America and Europe, with jobbing connections in the smaller cities.

Paper company. Miss Adaline Jones, the eldest daughter, has a beautiful voice, and was well known in the musical circles of Pasadena.

Swedish Societies in Picnic at Krug

Several Swedish societies, composing the Omaha Swedish Building association, joined yesterday in a picnic at Krug park. Crowds began coming early in the afternoon and by evening a record-breaking throng was within the gates.

Late in the afternoon Commissioner John J. Ryder, Mayor McGuire of Benson and Emil Meinling, editor of the Omaha Posten, delivered speeches from the orchestra stand of the pavilion.

The proceeds of the picnic go toward the building of a club house for the association. Property at 1606 Chicago street has been purchased and a three-story building 90 by 100 feet will be erected.

STOCKMEN'S CONVENTION ATTRACTS BIG CROWD

ALLIANCE, Neb., June 22.—(Special Telegram.)—The stockmen's celebration at the fair grounds today drew a crowd of over 5,000 people. The racing events were all fast, the most exciting being the five-mile automobile race, won by James Keeler in an Overland car.

Cooper, with his Curtis biplane, was unable on account of a brisk wind blowing all day to make his scheduled flights, although at 7:30 in the evening he rose in the air and made a fifteen-minute flight over and around the city.

A special train brought 200 people from Crawford. The South Omaha delegation left tonight for Scott's Bluff, where they will spend Saturday, returning home over the Union Pacific tomorrow night.

YOUNG MAN SLUGGED BY UNIDENTIFIED ASSAILANT

Paul Gibbons, aged 22, who lives at 1310 South Thirty-third street, was slugged by an unidentified assailant at 1 o'clock this morning near Sixteenth and Cass streets and knocked unconscious.

He was not robbed and he does not know why he was struck. Physicians at the police station revived him and he was able to go home.

Lemars Man Drops Dead. PIERRE, S. D., June 22.—(Special Telegram.)—L. C. Brown, who recently came to farm near this city from Lemars, Ia., dropped dead from heart trouble last evening.

The persistent and anxious use of Newspaper Advertising is the Road to Business Success.

Big Feast of Fun is Ad Men's Plan For Friday Night

According to announcements sent out by the Omaha Ad club. That organization is planning to have a merry time next Friday night at the Rod and Gun club.

"The Fete of the Noisy Gondoliers" is mentioned as the feature of the program. It is described as a "spectacular stunt produced for the first (and last) time, with sixteen near gondoliers—three of whom can swim—all graceful, silver-tongued gondoliers in native costume."

"Gondoliers," says the announcement, "are the names they call the taxi chauffeurs in Venice. (In Omaha they call them a different name that we haven't printed.)"

"Bring your wife with you," the committee admonishes the members. "Give her a treat. She sees you every day. Let her look some of the rest of us over that night. Then several incidentals of the program are enumerated, among them being a picnic dinner, dancing, moving pictures of the Dallas convention and songs with local cartoons.

"And it's all for six bits; can you beat that?" is the final statement and query.

Standard Warehouse Burns. FREMONT, Neb., June 22.—(Special.)—The brick warehouse of the Standard Oil company on West Eighth street caught fire about 8 o'clock this morning, and as the walls were saturated with oil the building was almost entirely destroyed.

The fire was confined to the building, and did not communicate with the tanks in the block. A car of oil on the sidewalk adjoining was moved without loss.

The building was a one-story brick, and used for storage of supplies, etc., and was connected with the tanks by pipes. The loss will probably be about \$3,000. The cause of the fire is not known.

Child Drowns in Ditch. BELLE FOURCHE, S. D., June 22.—(Special.)—Running out from the ranch house to meet a rig in which he thought his father was driving home, 2-year-old Elbert L. Matthews fell into an irrigating ditch on the Matthews ranch near Buelah, Wyo., and was drowned before his frantic mother could reach him.

The ditch had to be searched for a distance of three miles before the body was located, where the baby's dress had caught on a nail in the flume.

Studebaker

The \$800 Studebaker-Flanders "20"

The Studebaker-Flanders "20" has had a tremendous price advantage.

No other car, offering as much value, approaches its price.

Think for a moment what you get when you buy a Studebaker "20."

It is a real car, modern throughout in design and construction, large enough, and so powerful that you will never find road conditions in which your Studebaker "20" cannot spin its wheels.

The motor is a marvel, very speedy, quick to pick up, flexible, the kind of a motor a driver grows to like and have full confidence in.

The Studebaker "20" transmission system is of the standard three speed type, any car speed you wish up to 55 miles an hour. The rear axle is remark-

ably well designed and built, giving the best of service.

Every Studebaker "20" body gets 17 coats of paint and varnish, which are properly rubbed and aged. If you take care of your car, your Studebaker body will equal any automobile body on the market.

These are some obvious points which show the car's value.

But the deeper you get into the design and manufacture of the Studebaker "20" the better you will like it. We watch every detail.

Every Studebaker "20" is built not only for the first mile but for the 20,000th mile. In those qualities which make for endurance and lasting satisfaction, the Studebaker "20" is incomparably first. Why? Because it is Studebaker-built, and Studebaker always builds that way.

Studebaker Flanders "20" Touring Car, \$800, f. o. b. Detroit. Equipped, as above, with Top, Windshield, Front-O-Lite Tank and Speedometer, \$225.

Ask our dealer for the new Studebaker art catalogue or send to us for it.

The Tire of First Magnitude First in the confidence of car owners because— First in record of service.

Firestone Non-Skid and Smooth Tread TIRES

require least care on the road because they are given most care at the factory.

For about 5% more in first cost they give an average of 35% more in mileage, car protection and riding comfort.

Specify Firestone Non-Skid Tires for unapproached SECURITY and ECONOMY under every condition. Edges, angles and vacuum creating hollows of extra thick tread grip the road, radiate the heat, increase traction, add resiliency, protect car mechanism, give longest service. Graduate now into the class of the most experienced by specifying Firestone.

Made In All Standard Types for Any Rim

Regarding Rims: All high grade cars are equipped with quick-detachable, demountable rims. Don't experiment. Insist on Firestone—the only rims that have stood the test of time and are universally acknowledged correct in principle and service.

What moderate priced car will do this?

Flexibility in a motor is what determines its worth

In testing any car that you consider buying, ask the demonstrator to throttle his motor down close, put his gears into "high" and then get out of his car and WALK beside it. When you suggest this, he will naturally look around for an asphalt pavement. But ask him to select some rough cobble stone pavement and THEN see what his car will do. If it will not meet this test, its motor is nowhere near the equal of the sturdy little motor in this "Savoy" model which does stand this test, and to the astonishment of everybody who sees it. Because of

this flexibility you do not have to keep changing your gears in city traffic. So it saves wear. It also means economy in gas consumption and your motor doesn't race away on the lower gears and become heated. You don't want a motor that's powerful only because of its size—you want a motor that is powerful because its power is FLEXIBLE. THIS is what makes the motor in this "Savoy" model the marvel it is.

Stoddard-Dayton "Savoy"

and everything with it—\$1450

5 passengers—112-inch wheelbase—34 x 4 tires—4 cylinders, 4 x 4 1/2—dual ignition system, with magneto-top—gas tanks and lamps—all included (f. o. b. Dayton).
