HOGG-Hogs claimed the highest market of the week, opening at prices fully a nickel above those paid yesterday and closing with most, if not all, of the advance lost. It was a fairly active seasion early while the demand lasted, weakness being due entirely to the fact that one or two of the regular buyers stayed out during first rounds. Steam roller methods were used by these same buyers late, sellers being compelled to settle at weaker figures or look up their stuff for the Monday trade. Closing business was very dull.

Best heavy hogs on sale brought \$7.60,

Best heavy hogs on sale brought \$7.60, as compared with yesterday's top of \$7.75, while bulk changed hands within the \$7.40, 75.55 spread. Light grades ranged at \$7.40 and less, common lights and smooth heavies selling about 25c apart.

Compared with last week's close, current prices show a general advance of 150, 200, the upward trend being prompted by a sharp decrease in the receipts. Last week's run, it will be remembered, involved over \$1,000 head, while this week's total will not exceed \$7,000 head. The demand throughout has been active with clearances easy and early.

Ryan and Pivonka Must Stand Trial

(From & Staff Correspondent.) LINCOLN, June 22.—(Special.)—John L.

Ryan and Joseph Pivonka, fire and police commissioners of South Omaha, must stand trial under the ouster proceedings brought against them under the Sackett law. The supreme court today overruled their objections to jurisdiction, held the 1912 election in South Omaha to be invalid and appointed Judge Holcomb as valid and appointed Judge Holcomb as referee to hear the case.

Ryan and Pivonka questioned the jurisfor any alleged offense committed during term which had expired. They claimed that the amendment to the South Omaha

charter passed by the last legislature and extending their first term of office to 1913 was unconstitutional.

The court holds that the amendment to the charter is constitutional and that therefore the men are holding office continuously from 1910 and are not serving their second terms, the election of this spring being consequently invalid.

Poor Gasoline Sold

(From a Staff Correspondent.)

(From a Staff Correspondent.)

LINCOLN, June 22.—(Special.)—State Inspector of Oils William Husenetter has returned from northeast Nebraska, where he has been making some investigations in the oil business on the quiet in the smaller towns where storage tanks are not maintained and his deputies do not visit.

At Winside, a village on the Chicago & Northwestern between Norfolk and Sioux City, he discovered nine barrels of gasoline falsely branded and marked 53 May. Northwestern between Norfolk and Sioux City, he discovered nine barrels of gasoline falsely branded and marked 63 gravity. This gasoline was purchased by the Brune Auto company and is said to have been purchased from the Independent Cooperative Oil company of Sioux City, Ia. The Brune Auto company has resold a considerable portion of these goods to other parties. Four barrels were found at the Brune Auto company's garage, four barrels at the hardware store of George Gaebier and one at the grocery store of George Gable.

Some of this gasoline tested as low as 58 degrees gravity and none of it over 60 gravity.

The Nebraska oil law allows no gasoline to be sold carrying a gravity of less than 62 degrees. It is not yet known what action will be taken in this matter, as the parties selling the same reside in Iowa, where the oil inspector of Nebraska has no jurisdiction.

the rest being hilly but well covered with,
grass. The very best water for domestic
use is obtainable at shallow depths.
Some of the old entries that were taken
years ago are being canceled by the govarrange.
