OMAHA, June 25, 1912.

All wheat markets have more or less of a scare over high temperatures in the Canadian northwest. Late advices, however, from spring wheat states were mostly favorable, warm weather prevailing such as is needed after the late liberal rains in that section. A very nervous market must be expected for some time, as scares of more or less magnitude will be

Reports from the corn belt are not very flattering. The crop was planted late and browth to date is disappointing. However, the acreage is very large and with good forcing weather early setbacks might easily be overcome.

Dry, hot weather reports from the northwest opened wheat strong and higher. Rain is needed badly for the spring wheat crop. Cash wheat was unchanged.

June 25.—In practically every essential feature today's stock market repeated yesterday's performance, with the exception that the movement was duller and the undertone more heavy. Lowest prices were registered in the morning, after which some slight hardening was observed, but the outcome was relatively universal. relatively unimportant.

Less attention was devoted to politics

and more to crops and general trade conditions. Continued sunny weather in the northwest is benefiting all cereal growths in that section, and the railroads are making ready to move the expected heavy tonnage. Copper shares were once more under pressure by reason of the highly speculative conditions now prevailing in

the metal trade here and abroad.

The Atchison road submitted a very favorable report of earnings for May, the net increasing by \$861,000, which was made possible to a great extent by a saving of \$230,000 in operating expenses. The Southern railway made a net gain for the same

month of \$53,000. Announcement was made after the close of the market of the declaration of the regular quarterly dividend on Anaconda

Cows and helfers being in more liberal supply and the market at this point being very high as compared with other points gave buyers an opportunity to bear prices with the result that the trade on all classes of cow stuff was very slow and dull and at least loc lower than yes-

on all classes of cow stuff was very slow and duli and at least 10c lower than yesterday.

The receipts of feeders during the two days this week have been somewhat larger than was the case last week and as there has been no appreciable improvement in the demand there has been a tendency toward accumulation in the hands of speculators. This always has a weakening effect on the market and the trade today was noticeably alow while prices were about 10c lower.

HOGS—Buyers started out this morning bidding ite lower for hogs. Sellers were naturally rather backward about making the concession, at least not without a struggle and the result was that the early trade was rather slow. In the end, however, they were forced to cut loce the general market being not far from ite lower than yesterday. Here and there it was possible to pick out sales of good shipping hogs that did not look over 56 lic lower than yesterday, but they were in the minority, the buik of the early sales being noted above 10c lower. After the trade was once under way it became fairly active for a time but after about half of the receipts had charged hands and some of the more urgent orders filled it slowed up for a time, there was

very little doing. A good man; of the early sales were made inside the range \$7.5067.45, with a sprinkling of good heavy hoga at \$7.50 and a top at \$7.55. The trade did not improve any as the morning advanced, on the contrary it became worse. In other words the later market was at the very least fully 10c lower and it closed 10@15c lower, quite a sprinkling of the late sales looking fully 15c lower than yesterday.

SHEEP AND LAMBS-Supply of sheep SHEEP AND LAMBS—Supply of sheep and lambs this morning was pretty much the same as on yesterday, bulk of receipts consisting of grassy stuff and a few scattering loads from the corn belt area. There were seven cars of spring lambs from California, three loads of ldaho wethers, four loads of fed westerns from lowa, and two or three loads of mixed stuff from Nebraska. As usual at this time of the year, quality of the at this time of the year, quality of the receipts averaged poor and showed no great improvement on the shipments arriving at the yards during the last week or so. No teeders of any account showed up in the supply.

Most sales were made at a fairly early

hour and at prices about steady, there being very little change if any from yesterday. As usual of late, buyers were out in good time searching the receipts for anything of good quality and picked up all of the best bunches early in the morning. Trade and demand was fair as long as the good stuff lasted, but anything thing of poor to medium quality was left to sell in a more leisurely fashion. Among the early sales was a load of spring lambs at \$8.75. Two other loads of spring lambs brought \$8.50 and \$8.00. Three loads of Idaho wethers changed hands at \$4.75. Commoner to Have Chance to Prepare Most of Platform

BALTIMORE, June 25.-If Mr. Bryan should not be temporary chairman of the democratic national convention he probably will be chairman of the committee on resolutions. He will be the representative of his state on that committee and his position in the party is such that the place will be conceded to him by common consent.

The general opinion is that he will prepare the greater part of the platform. Indeed, many think he now has much of it written, but he is reticent on the sub-

Delegates were too much occupied today, with the temporary chairmanship to give close attention to the question of resolutions, but insofar as there was expression on the subject it indicated a harmonious condition.

Representatives of some of the eastern states express apprehension that there may be an effort to force approval of the initiative, referendum and recall plan of government, and if there is it will be opposed. Mr. Bryan has, however, indicated the opinion that these pertain only to state administration, and it is not believed he will contend for any radical pronouncement on this subject if for any at all.

There certainly will be planks pledging the party in unmistakable terms to the support of income tax legislation, to the election of senators by the direct vote of the people and by primary elections. The protective tariff will be held re-

sponsible for the trusts and the high cost of living and there will be a positive declaration for rapid revision downward.

Probably the procedure by schedule as practiced by the present house of representatives will be advocated. The tariff work of the house will be strongly endorsed and the president's tariff vetoes as strongly condemned.

It will be a tariff for revenue platform. All factions are committed to this plan and if there is any difference of opinion it will be on phraseology rather than on

Democratic Leaders

CHICAGO, June 25 .- Mrs. William Jennings Bryan and her daughter, Grace, who recently became the bride of R. L. Hargreaves of Lincoln, Neb., held a continuous reception at the Nebraska headquarters tonight. They became acquainted with most of the leaders of the party four years ago when eastern delegations bound for Denver stopped at Lincoln to pay their respects to Colonel Bryan. Conferences between William J. Bryan

and democratic leaders were somewhat disturbed today by an enthusiastic minstrel who insisted in serenading the threetimes candidate for president. The minstrel was J. H. Mering, treasurer of the Bryan league of Pennsylvania and he lifted his voice in song in the hall just outside Mr. Bryan's room. The chorus of the campaign ditty ran:

"I'd kind's like to vote for Bryan-"William Jennings Bryan: "I'd kind'a like to vote for Bryan, "And that's just what I'll do."
