

ON MONDAY, JULY 1ST, COMMENCES THE

Great Semi-Annual Sale at Kilpatrick's

Differing Absolutely from the Ordinary Sales of the Business Barnums

The Star events in different sections will start at different hours—timed to give all an equal chance at commencement of the different sales. After the start sales will continue all day.

No Announcement in This Paper More Important Than This One

Kilpatrick's 1st Great Shoe Sale

A wonderful purchase made specially with a view to bringing fame to our new department. 14 Lots—Over 1200 pairs. Mr. Tuttle says he has handled many important lots and has conducted some great Shoe Sales—but this purchase is the best value he ever saw. Every pair made this season. No accumulation of trash and junk, made like Hodge's razors—SIMPLY TO SELL TO SIMPLETONS—but every pair made to sell at \$5.00 the pair—

MONDAY at 8 A. M., REMEMBER the HOUR

Thomas Kilpatrick & Company

HOWELL ON WATER PLIGHT

Sees No Complete Relief Now—Must Curtail Evening Sprinkling.

THREE-FOLD REMEDY LATER ON

New Main, Uniform Meter Service and Larger Rate for the South Omaha Stock Yards Packers Without Delay.

Water Commissioner Howell sees no complete relief from the present shortage of water so long as the hot weather continues. His only remedy for partial relief is to have lawn sprinkling shut off during the evening, permitting it only between 7 and 9 o'clock in the morning. "We are confronted by a condition with which we have to make the best," says Mr. Howell. "The water plant has reached its capacity. Until the new main from Florence is installed, the plant, which Thursday pumped 35,000,000 gallons of water—more than ever before—can do no more. Now we are up against the necessity of cutting our pattern to fit our cloth and this is the only way it

seems possible to do it. So, I think, the board may issue such an order." For the consolation of consumers it may be stated that the Florence main will not be put in at least until fall. It is pointed out that 1,000 taps were made to the supply main during the year, thus increasing the demands to the maximum. "Two things must be done in addition to laying the new main," says Mr. Howell. "First, all consumers must use meters. Our consumption now is about 100 gallons per day per capita. In Milwaukee, where they all use meters, it is sixty gallons and everybody has enough water. The board, which has asked for bids on meters, will put the meter in at its expense and let the consumer pay for it at the rate of 15 cents a month, so that he will not feel it any burden.

Rate Packers' Rates. "The second thing is to advance the rates to the South Omaha stock yards and packers. They now pay 4½ cents per 1,000 gallons and use one-third of our total supply. Our household consumers in Omaha pay 35 cents per 1,000 gallons and the lowest business rate in Omaha is 8 cents and those consumers use two-thirds of the supply. In other words, the total revenue of the water plant is about \$50,000 a year. The South Omaha packers, paying 4½ cents, make up \$100,000 of that and get one-third of all the water we pump. Our largest single consumer in Omaha at the 8 cent rate, uses about \$20,000 worth of water a year.

"Will the board order this South Omaha rate raised?" he was asked. "I think it will. Packers in Chicago pay 7 cents. Every consumer, big and little, in Milwaukee, pays 6 cents. Why should Omaha carry its water twelve miles for 4½ cents for an aggregate income of \$200,000 when it charges 8 cents and 35 cents to consumers nearer at hand for an income of \$60,000?" "One other thing I want to urge as very important and that is the creation of piping districts. When real estate men wish pipes laid out in some suburb they intend later to build on, let a district be created and the piping paid for by it and not impose the burden on the whole city.

THROUGH RAILWAY ALLIANCE

Missouri Pacific and Northwestern Put On New Trains.

FROM KANSAS CITY TO ST. PAUL

Through Cars to Be Run, Making New Train from Kansas City and Changing Time of Other Cars.

Effective July 7 through car service will be established between Kansas City and St. Paul and Minneapolis over the Missouri Pacific and Northwestern roads, via Omaha. Under the new deal a new train will be put on the Missouri Pacific. It will leave Kansas City daily at 1:35 p. m., reaching Omaha at 8:30 p. m. Here a sleeper and chair car will be transferred to the Northwestern, the train leaving fifteen minutes later, and reaching St. Paul at 8 the following morning. Returning the train will leave St. Paul at 3:30 in the evening, arriving at 10 the following morning. A chair car and sleeper will be transferred to the Missouri Pacific and thirty-five minutes later the train will leave for Kansas City,

reaching there at 5 o'clock in the evening.

The through St. Paul service brings about a change on the Kansas City local. This train that now leaves Omaha at 9:30 a. m. will leave at 7:30 in the morning.

Police Magistrate Refuses to Award Fee for Taxi Ride

Jumping into the taxicab in response to H. Caylor's invitation to take a ride Chester Swanson of Papillion rode around town and was arrested on complaint of Caylor when he refused to pay hire for the machine. Swanson had never before been outside of Papillion. In company with his father he was going to visit relatives in Iowa. They arrived at the Union station several hours before their train was due and the father left the boy at the station while he went to the South Omaha stock yards. Young Swanson wandered outside of the depot and was halted by Caylor, who asked him if he wanted a taxi. Thinking

Caylor a good Samaritan who wanted to show him the town he jumped into the machine.

Swanson asked Caylor to drive him to the South Omaha stock yards. When they arrived at the yards the son invited the father to get in and have a ride. He said the driver was a fine fellow and would take them to Omaha without charge. When they arrived at the railroad station Caylor demanded his hire. Neither of the two had over \$3 on his person and could not pay the \$15 charges. The two Swansons were discharged in police court.

Commercial Club Issues a Journal

No. 1 of volume 1, Commercial Club Journal, is issued as a weekly periodical for the purpose of enlightening club members on commercial club affairs. It contains many articles concerning the work of various committees, plans of the club and interesting news of the traffic and publicity bureaus. Ward C. Gifford, assistant commissioner, formerly a reporter for the Kansas City Post, is editor of the publication, which is issued under the direction of Commissioner J. M. Guild.

Steam Roller is All Oiled to Run Over J. F. Burgess

Plans to oust J. F. Burgess from the position of secretary to the Board of Education and install therein W. T. Bourke, a former member, are complete. The present secretary will be steam-rollered Monday night. Bourke's election will follow the count of the first ballot. Burgess will remain in office one more month. Mr. Bourke has signified that he intends to retain the present assistant to Mr. Burgess. She is well informed and can do the work, whereas Bourke goes in without experience. "If I'm defeated for election," said Mr. Burgess, "I intend to take a vacation. I haven't had a month's vacation for twelve years." Bourke is not talking. His supporters declare there is not the least doubt of his election, the election of Leavenworth to succeed him eliminating all elements of chance. Burgess' supporters have given up. They will vote for Burgess, but Bourke's election will be secured on a vote of seven to five.
