Healthy Mothers

Women who bear children and remain healthy are those who prepare their systems in advance of baby's coming. Unless the mother aids nature in its pre-natal work the crisis finds her system unequal to the demands made upon it, and she is often left with weakened health or chronic ailments.

Nebraska. MUNGER RECOVERS PURSE

Federal Judge Follows Pickpockets and Takes Money Away. THEY THEN MAKE GET-AWAY

Does Not Like to Have His Pocket Picked in Broad Daylight, So Proceeds to Get Money Back Again.

Two young pickpockets had poor luck in getting away with the coin Sunday evening when they slipped their hands into Judge W. H. Munger's pocket on a street car and took his purse containing \$5. The judge thought the five was worth going after, so he leisurely followed the two fellows when they got off the car at Sixteenth and Farnam streets, overtook them in less than a half block, snatched the purse from their hands as they were trying to shift it from one to the other, and went home to enjoy a little dinner party that he knew was waiting for him.

Judge Munger was returning from the railway station, having been out of town. It was just after 6 o'clock and broad daylight. As he started off the car at the corner of Sixteenth and Farnam streets a young man, carrying his coat on his arm, stepped into the doorway of the car, braced his arms against either side of the doorway, and pretended to be looking for some one in the street. At the same time a young man in a blue suit pressed from behind, the judge pretending to be eager to get out. This lasted but a moment, and then all stepped off the car. The judge having had experience with pickpockets before, soon felt his hip pocket and found his purse was gone.

These great colonial possessions are not, as the accidental mind is inclined to believe, mere stretches of sand and palms and jungle, sparsely inhabited by savage tribes.
