BALTIMORE, July 2.-- A personal apology was made to William J. Bryan tonight by former Governor Francis of Missouri, who said he was not in the half inches, while from North Platte convention hall during the afternoon when Clark adherents placed in front of the Nebraskan a banner inscribed with Mr. Bryan's former eulogistic estimate of the speaker

Mr. Francis said the action of the men handling the banner was an indignity and expressed the opinion that it would not have happened had he been present.

Although the speaker was known to have motored to Baltimore from Washington early in the day and to have remained at the home of a friend for saveral hours, he did not appear at any political rendezvous tonight. It was said there had been no conferences between the candidate and his managers except by places reported two inches.

TAFT HONOR GUEST AT

PHILADELPHIA, July 2.-A grand festival concert participated in by thou- show better than half an inch at most of tainment it can reach in the perpetuasands of members of the societies constituting the Northeastern Saengerbund, with the president and Mrs. Taft as the guests of honor, was the crowning event tonight on today's program of the twenty-third Saengerbund festival.

When the president and Mrs. Taft reached Broad street station at 6 o'clock they were greeted by a German song of welcome sung by a large chorus, Disregarding his usual custom, the president walked through the crowd of spectators to his automobile. As the president and his wife entered the auditorium the chorus of 6,000 trained male voices sang the "Star Spangled Banner."

President Taft addressing the Saenger bund tonight said in part.

"This meeting is for the promotion of that art which perhaps contributes more to the happiness and enjoyment of life than any other-that is the art of music. The public tests which you have cultivated in such associations as this and in your presentation of the compositions and songs of the great masters, have educated the public at large, and what is even more important, have widened the means of making happiness. But, while the educational artistic influences of such musical feats are of the highest importance, there is another fact in respect to such a national society and such gatherings as this that forces itself on the intelligent observer. The great number of people that first settled this country were English and many of the popular charactertistics due to that original settlement have continued. Among them is one which the American people are fast losing, but which remains still true of our English cousins-that of tak-

ing their pleasure sadly. "The German people have for centuries had an advantage over the English people in this regard and in no way have they shown it so much as through the instrumentality of the singing societies."

As for me, on many articles, with a minimum preference in the case of flour and sugar. DETECTIVE TELLS OF HABITS OF JUDGE

SEATTLE, July 2 .-- The habits of United States District Attorney Judge Hanford were again the subject of in quiry today by the judiciary subcommittee of the house of representatives. A. J. Nordskog, until a few weeks ago an employe of a detective agency, was on the stand most of the afternoon.

"Judge Hanford in the evening invaria bly would go to the Rainier club from the federal building," said Nordskog. "He would leave the club about 6 o'clock, when he would walk down Marion street to Second avenue and enter a bar, where he would take one drink. Sometimes he would go the round of three bars during the dinner hour. I remember that once or twice, after having gone the round during the evening hours, he went to at

No Rights for the Rich.

OMAHA, July 2.-To the Editor of The Bee: I think the rankest piece of socialistic buncombe perpetrated on the public is the motion of Bryan in the democratic convention to exclude from its floor and membership two or three of its most prominent members because they were very rich. Of course he could not hope that such a motion would carry. No convention, unless it was a convention of anarchists or socialists, would exclude a regularly elected delegate for that reason. But it gave Bryan a chance to pose. If it has come to the pass that only those who have nothing shall be permitted to exercise political rights, God help us all. And soon it will be
