Slightly soiled Blis, Aprons, Gimpes, Infants' Wrappers and Sacques at greatly reduced prices.

TWENTY-ONE ARE KILLED AS TRAIN CRUSHES COACH

(Continued from First Page.)

The coach being occupied with persons returning from a Fourth of July holiday. The freight engines plowed through the wooden coach, crushing it as it would paper. All the occupants were hurled to the roadbed. Some fell in the path of the on-rushing engines, while others were imbedded, partly in the cinders and crushed stones beside the rails.

The first engine of the freight train stopped soon after tearing through the passenger train, turned half way around and fell over on its side.

Engineer McConoughy was scalded to death, while the fireman, George Byers, jumped only to fall on the track and meet death under the wheels.

Engineer Smith P. Beatty of the second engine, jumped and sustained a broken leg. His fireman, John Ankey, fell beneath a car. His legs were severed and died en route to a hospital. Engineer Dunlap of the passenger train and his fireman remained at their posts and escaped with slight injuries.

But One Person Untajured. A pathetic feature of the wreck was the injury of Miss Esther M. Mathews, a nurse, and the death of two and the injury of four children she was taking to the woods near Wilpen for an afternoon's outing.

Farmers near the scene of the accident and workmen employed at a race track in the vicinity were at the wreck within a few minutes. Messengers were started at once to Ligonier, while the others, assisted by Engineer Dunlap and his fireman, were busy gathering the dead and injured clear of the wreckage.

An hour and a half after the accident, physicians, nurses and railroad officials had reached the scene. From that time on the work of rescue and tending to the suffering was effective. The Pennsylvania railroad of which the Ligonier is a branch, sent a special train from Pittsburgh to Latrobe to take some of the injured from the overtaxed hospital here to Pittsburgh.

The first rescue train reached here from the accident at 8 o'clock tonight. Practically the entire town met it. Every conveyance was ready to haul the injured to the hospital.

To obtain a story from any of the victims was impossible at a late hour. But one person on the train escaped without injury. He was a railroad employe and was too busy to talk.

Money Trust Probe is to Have a Rest

WASHINGTON, July 6.—Pursuit of the "money trust" probably will be virtually abandoned until after the elections in November, as the result of the conference today of the subcommittee of the house banking and currency committee. While it was said no definite decision had been reached, it was discovered that the majority of the members believed that a continuance of the inquiry through the summer would be unwise.

It is held that to inject such an important investigation into national politics not only might have serious consequences, but that being double edged the damage might be done to both parties in the campaign. It was also believed that at a time when business virtually was at a standstill waiting the outcome of the political year the investigation might have a most disturbing effect. The subcommittee will meet within the next few days to reach a formal agreement on the program.

Fearful Slaughter of deadly microbes occurs when throat and lung diseases are treated with Dr. King's New Discovery. 50c and \$1.00. For sale by Beaton Drug Co.

Persistent Averaging is the Road to Big Returns.

CHILDREN NEED EXTRA CARE IN HOT WEATHER

Summer Heat Dangerous to Little Ones if Bowels are Neglected.

The mother cannot do better for her children than to train them from infancy, to regularity of the bowels. Chronic constipation in later life can be avoided if the child learns early the need for a delicate and gentle laxative.

There will, of course, be times when the little one will become constipated and bilious in hot weather, especially immediate attention is necessary, as such serious illness results from inactive bowels. Salts, cathartics, purgatives, and similar irritants are harsh and violent and only bring temporary relief while disturbing the whole system.

Dr. Caldwell's Syrup Pepsin is a natural manner, on stomach, bowels and liver. By thoroughly cleansing the bowels and removing the foreign matter which irritates and inflames the tissue, it will quickly check the summer diarrhoea that is so weakening in its effect.

Dr. Caldwell's Syrup Pepsin for fifty cents and one dollar a bottle, the larger size being intended for family use. A free trial bottle, postage can be obtained by writing to Dr. W. B. Caldwell, 406 Washington St., Monticello, Illinois.

LAGER BEER

Can Be Made at Home for Two Cents a Quart.

CINCINNATI, Ohio, July 7th.—Through a recent discovery of an expert brewmaster of this city a delicious, ice cold Lager Beer can be made right at home for 2 cents a quart. He has concentrated Barley Malt and imported Hops, the ingredients of all good brewery beer, so that only by the addition of sugar and water a delicious, intoxicating and sparkling Lager Beer is made. It is very easily made right in any kitchen, requiring no apparatus of any kind—a few minutes does the work.

It is said that the Beer made by this method is far superior to the average saloon beers brewed in Cincinnati, the city that is noted for its fine beer. Some people will question the legality of brewing beer at home, but it has been carefully investigated by all authorities and found to be legitimate under all present laws. For further information write to the American Products Co., Dept. 503, Cincinnati, Ohio, and ask for Free Booklet, "Secrets of Making Beer at Home."

THE WAR SOUVENIR COUPON IS ON PAGE 8, WANT AD SECTION. THIS COUPON MAY BE USED TO SECURE SECTIONS 1, 2, 3, 4, 5 or 6.

ing the flag of Japan, however, got warm applause.

At the head of each delegation marched two stalwart athletes, who carried the national flag and standard bearing the names of their respective countries surrounded by a Grecian laurel wreath. Committees in silk and frock coats followed. Then came the competitors, some of them in uniforms, others bare armed and bare legged.

The whole body marched around the track and then massed on the green oval facing the royal box, with the standard bearers holding on high the colors of their various nations, directly opposite the king.

For the inaugural ceremonial the international committee, which includes all nations, under the leadership of Crown Prince Gustave Adolph of Sweden, assembled on the field in front of the massed competitors. A big male choir was formed up at the far end of the stadium and sang a hymn while several bands played. The court pastor, Rev. Oscar Clemens Ahlfeldt, then preached a short sermon in Swedish.

Rev. Robert De Courcy Laffan of the city of London, an old rowing man and a member of the British Olympic committee, then offered prayer, speaking of the gathering as in the interest of peace and friendship. The whole assemblage then sang the Luther hymn, "A Mighty Fortress Is Our God."

The crown prince made a brief speech and afterward King Gustave V rose and formally declared the Olympic games opened.

Americans Make Good Showing.

One hundred meters: The first athletic victory for the United States was won by Ira Courtney of the Seattle Athletic club in the third heat of the 100 meters flat. His time was 11 seconds. H. E. H. Biskery of England was second, and a Hungarian third.

One hundred meters: Fourth heat, A.

E. D. Anderson of England was first and Rupert Thomas of Princeton university, second. The time was 11 seconds.

In the fifth heat of the 100 meters Howard P. Drew of Springfield (Mass.) High school won this by several yards; E. Kern of Germany was second. Time: 11 seconds.

In the ninth heat of the 100 meters flat, Alvah T. Meyers, Irish-American Athletic club, won by three yards. Time: 11 3/10 seconds.

Coe of Iowa Runs Fast.

In the tenth heat of 100 meters flat, D. H. Jacobs of England won by a neck, beating C. P. Wilson, Coe college, Iowa. Time: 10 1/2 seconds.

To beat Wilson of Coe college in the tenth heat of the 100 meters, Jacobs of England was forced to tie the Olympic record of 10 1/2 seconds for the distance.

In the eleventh heat of the 100 meters flat, P. V. Belote, Chicago Athletic association, won. Time: 11 seconds.

In the twelfth heat of 100 meters flat, H. C. Gerhardt, Olympic Athletic club, San Francisco, won, beating Frank Luke-man of Quebec, Canada. Time: 11 1/10.

In the thirteenth heat of the 100 meters flat, J. A. Hord, Magdoba, won; G. H. Patching, South Africa, was second, and Harold W. Holland, Xavier Athletic association, New York, third. Time: 11 seconds.

One hundred meters, sixteenth heat—Donald F. Lippincott, University of Pennsylvania, first; W. R. Applegarth, England, second; Yuhiko Mishima of Japan, the first competitor from that country, was the last of the five in the heat. Time 10 3/4 seconds.

One hundred meters: Seventeenth heat—Ralph C. Craig, Detroit Young Men's Christian association, first. Time 11 1/4 seconds.

Eight Hundred Meters. Eight hundred meters: First heat—David S. Caldwell, Massachusetts Agricultural college, beat the famous Italian, E.

Lunghi, by five yards. J. Caille of France made the pace for 800 meters, but he later dropped back. Walter McClure, Olympic Athletic association, San Francisco, was outdistanced.

Eight hundred meters flat: Fourth heat—Clarence S. Edmundson, Seattle Athletic association, first; J. L. Tait, Ontario, Canada, second; C. A. C. Poulard, France, third. The five competitors were closely bunched. R. Burton of England was fourth. Time 1:26 5/10 seconds.

Eight hundred meters: Seventh heat—J. C. Soutter, England, first; Melvin W. Sheppard, Irish-American, second. The result was a great surprise. The Englishman sprinted 300 yards from the finish and crossed the tape six yards ahead of Sheppard, who appeared to be winded in the first 200.

Lippincott Breaks Record.

Lippincott of the University of Pennsylvania broke the Olympic record for the 800 meters, winning the sixteenth heat in 10 3/4 seconds.

The best previous Olympic mark was 10 3/4, made by Walker of South Africa at London in 1906 and by Jarvis of the United States at Paris in 1900.

Eight hundred meters flat: Eighth heat—G. M. Brock, Ontario, first; James E. Meredith, Mercerburg academy, third; J. A. Victor, South Africa, second. It was a beautiful close race between four Anglo-Saxon competitors. The Canadian burst to the front a few feet before the tape. Time 1-minute and 87 seconds.

Eight Americans Qualify. Third heat, 800 meters flat: John Paul Jones, Cornell university, first; A. E. Corteseo, Portugal, made the pace for three-quarters of the distance. Jones then forged ahead, finishing easily six yards in front. Time: 3:01 1/4.

Fifth heat, 800 meters flat: Ira N. Devport, University of Chicago, first; F. H. Mulford, England, second. The three English competitors did good team work. R. Hales made the running for 400 meters and then withdrew. Time: 1:39.

Sixth heat, 800 meters flat: Harlan W. Holden, Bates college, first; E. Bjorn, Sweden, second. The Swede made a good race in the last half, but Holden finished easily in front of the others, finishing a Turk who made one burst to the front with the star and crescent on his red jersey, but was outdistanced. Time: 1:38 1/10.

The first and second in the trial heats of the 800 meters flat compete in the final. Thus America is represented by eight men and England by four, while Canada has two.

Second heat, 800 meters flat: P. E. Mann, England, first; Herbert N. Putnam, Cornell university, second. Time, 1:38.

Ninth heat, 800 meters flat: E. J. Henley, England, first; Hans Braun, Germany, second; Thomas J. Halpin, Boston Athletic club and a Swede tied for third place. Time, 1:37.

In the javelin throwing, E. Lemming, Sweden, was first with 40 meters and 44 centimeters; J. J. Saaristo, Finland, second, 35 meters, 66 centimeters; Miklos

Kovacs, Hungary, third, 35 meters, 81 centimeters.

Semi-Finals in Hundred Meters.

First heat, semi-final, 100 meters: Howard P. Drew, Springfield (Mass.) High school, first; E. Kern, Germany, second; Ira Courtney, Seattle, and P. C. Gerhardt, San Francisco, were distanced. Time, 0:11.

Second heat: G. H. Patching, South Africa, first; K. Lindberg, Sweden, second. There were no Americans in this heat. Time, 0:10 9/10 seconds.

Third heat: Alvah T. Meyers, Irish-American Athletic club, first; D. H. Jacobs, England, second. Time, 0:10 7/10.

Fourth heat, semi-final, 100 meters: Ralph C. Craig, Detroit, first; R. Rau, Germany, second. Time, 0:10 7/10.

Fifth heat: D. F. Lippincott, University of Pennsylvania, first; W. R. Applegarth, England, second. Time: 0:10 7/10.

Sixth heat: F. V. Belote, Chicago, first; W. A. Stewart, Australia, second. Time: 0:11 1/10.

LINER PHILADELPHIA DELAYED BY STRIKE

NEW YORK, July 6.—The American line steamer, Philadelphia, due to leave for Southampton at 9:30 o'clock this morning, was held up through the failure of 150 others, coal passers and water tenders to report for duty. The men apparently deserted in sympathy with the seamen's strike.

There are 200 first class passengers aboard the Philadelphia. Agents of the line announced they would have a full crew and get away this afternoon.

Senator Lodge is Sure Andrew Was an Efficient Man

WASHINGTON, July 6.—Senator Lodge today vigorously dissented from Secretary MacVeagh's statement that his former assistant in the Treasury department, A. Platt Andrew, was asked to resign because he was inefficient.

"The statement of Mr. MacVeagh that A. Platt Andrew was inefficient is absurd," was Senator Lodge's comment. "I knew of him as a professor at Harvard and President Eliot recommended him to the national monetary commissioner as a trained political economist and linguist."

When he was director of the mint I know he was considered an efficient administrator and I am told that during the year he held the office he saved the government \$20,000 through reforms. While he was assistant secretary I am told he inaugurated reforms which resulted in large economies."

Government circles today had not recovered from the shock of the abrupt resignation of Andrew, his strictures of Secretary MacVeagh and the latter's report that Andrew had practically been dismissed because of inefficiency. In the Treasury department it was said that at least one of the other officials whom Andrew mentioned in his letter to President Taft as being "hampered by Mr. MacVeagh's idiosyncrasies" might be on the verge of resignation. Others hastily reiterated their declarations that their relations with the treasury head were cordial, though some of these were qualified.

Mr. MacVeagh will return Monday. It was reported today that he had indicated to President Taft his determination not to continue in the cabinet after March 4, should President Taft be re-elected. It could not be confirmed. It is known, however, that two other members of the cabinet have given notice to that effect.

DUBLIN, N. H., July 5.—Secretary of the Treasury Franklin MacVeagh tonight denied reports that he had indicated to President Taft a determination to leave the cabinet next March, regardless of the result of the coming election.

Secretary MacVeagh also disclaimed knowledge that any other member of his department was considering resigning, as was reported in Washington today.

The proposed congressional investigation of the row in the Treasury department between Secretary MacVeagh and former Assistant Secretary A. Platt Andrew may not come about unless Mr. Andrew makes some specific charge against Mr. MacVeagh.

Representative Cox of Indiana, chairman of the house committee to which the investigation resolution by Mr. Cox of Ohio was referred, said today that his committee regarded the controversy so far as a family row. Mr. Cox of Ohio declared he would press his resolution.

Mother Risks Life in Deep Cistern to Save Her Child

SHERIDAN, Wyo., July 6.—(Special Telegram.)—Standing for hours in ice cold water at the bottom of a deep cistern and racking brain and body to escape and save the life of her little 2-year-old baby, for whose sake she had entered the death trap, was the experience of Mrs. A. W. Frazier, a rancher's wife residing on Buffalo creek, thirty miles from Sheridan. The story of the mother's heroism and devotion came to light today when mother and child were brought to Sheridan for medical treatment.

While at home with her little child, miles from the nearest neighbor, the baby fell into the cistern. The mother followed instantly, dropping to the bottom of the cistern by means of a rope fastened at the top and finally succeeded in rescuing the child and herself by climbing the rope and hauling the child up after her.

Repeated attempts were made before she was able to reach the top, the first with the child strapped on her back. When she reached the top, exhausted, her hands were cut almost to the bone. The water in the cistern, the accumulation of melted snows, was, fortunately, not deep. It is believed that both mother and child will survive.

Constitution of Indiana is Held Unconstitutional

INDIANAPOLIS, Ind., July 6.—The New Indiana constitution, as drafted by Governor Thomas R. Marshall and adopted at the last session of the legislature, was declared unconstitutional today by the Indiana supreme court. The court said that the right to change the constitution lies with the people and that the amendments should have been submitted to a constitutional convention instead of the legislature.

Governor Marshall refused to criticize the action of the court, saying: "To be sure I have my opinions, but it is not proper for me to discuss them."

WEST LIBERTY PLANT DESTROYED BY FIRE

IOWA CITY, Ia., July 6.—(Special Telegram.)—The West Liberty Condensed Milk company's plant at West Liberty, Ia., was entirely destroyed by fire at an early hour this morning. This property, which is owned by business men of White Hall, Ill., was one of the largest of its kind in the state and its value was placed between \$100,000 and \$125,000. Incendiarism is supposed.
